**GEMINI FUND SERVICES'S MICHAEL MIOLA WINS VISIONARY LEADERSHIP  
FUND OPERATIONS AWARD FROM MONEY MANAGEMENT EXECUTIVE**

**HAUPPAUGE, N.Y.** – May 21, 2010 -- Gemini Fund Services, LLC (Gemini), an engaged partner to independent advisers as a provider of comprehensive, pooled investment solutions, has announced that Founder Michael Miola has been awarded Third Place for the Money Management Executive's 2010 Fund Operations Award for Visionary Leadership. Winners of the awards, which include categories for Innovation in Customer Service and Back Office Efficiencies/Streamlining, were honored at NICSA's general membership meeting at the Downtown Harvard Club in Boston on May 20.

The Visionary Leadership award honors individuals who have brought definitive, positive change to their organization and the retail long-term asset management industry as a whole and takes into consideration tangible impacts such as profit enhancements, increase in productivity and streamlined workflow. Nominations were judged by neutral parties from consultancies that specialize in mutual fund and asset management operations.

"I am very honored to be recognized with this award," Mr. Miola said. "At Gemini, we strive to deliver comprehensive pooled investment solutions utilizing our vast industry knowledge and cutting-edge technology to provide our clients with guidance, knowledge, and reasonable solutions."

Mr. Miola has been serving the investment industry in 1974. He founded American Data Services, Inc., which was later renamed Gemini Fund Services, in 1983 with the goal of designing a mutual fund accounting system that operated on PCs, opening the industry to independent investment advisers without the resources of a larger firm behind them. Today, Gemini has nearly \$10 billion in assets under administration and is a leader in pooled investment solutions including comprehensive fund servicing, distribution, variable annuities, retail and variable trusts, shared compliance services, EDGAR filing, and printing services.
