Moerus Worldwide Value Fund

Institutional Class - MOWIX
Class N - MOWNX

a Series of Northern Lights Fund Trust IV

PROSPECTUS
April 1, 2019

Advised by:
Moerus Capital Management LLC
307 West 38th Street, Suite 2003
New York, NY 10018

www.moerustfunds.com

1-844-MOERUS1

This Prospectus provides important information about the Fund that you should know before investing. Please read it carefully and keep it for future reference.

These securities have not been approved or disapproved by the Securities and Exchange Commission nor has the Securities and Exchange Commission passed upon the accuracy or adequacy of this Prospectus. Any representation to the contrary is a criminal offense.

Beginning January 1, 2021, the Fund intends to meet its shareholder report delivery obligations by posting annual and semi-annual shareholder reports to the Fund's website, www.moerustfunds.com. Shareholders who wish to receive paper copies of the Fund's annual and semi-annual shareholder reports should contact their financial intermediary (such as a broker-dealer or bank).

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's annual and semi-annual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports. Instead, the reports will be made available on the Fund's website www.moerustfunds.com, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you have already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund electronically anytime by contacting your financial intermediary (such as a broker-dealer or bank).

Beginning on January 1, 2019, you may elect to receive all future reports in paper free of charge. If you invest through a financial intermediary, you can contact your financial intermediary to request that you continue to receive paper copies of your shareholder reports. Your election to receive reports in paper will apply to all funds held in your account if you invest through your financial intermediary or all funds held with the fund complex if you invest directly with the Fund.

FUND SUMMARY - Moerus Worldwide Value Fund

Investment Objective: The Fund's objective is long-term capital appreciation.

Fees and Expenses of the Fund: This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees (fees paid directly from your investment)	Class N	Institutional Class
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None	None
Maximum Deferred Sales Charge (Load) (as a percentage of offering price)	None	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and other Distributions (as a percentage of offering price)	None	None
Redemption Fee (as a % of amount redeemed on shares held less than 90 days)	2.00%	2.00%
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)		
Management Fees	0.95%	0.95%
Distribution and Service (12b-1) Fees	0.25%	0.00%
Other Expenses	0.67%	0.67%
Acquired Fund Fees and Expenses ⁽¹⁾	0.02%	0.02%
Total Annual Fund Operating Expenses	1.89%	1.64%
Fee Waiver and/or Expense Reimbursement ⁽²⁾	(0.22)%	(0.22)%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement	1.67%	1.42%

(1) Acquired Fund Fees and Expenses are the indirect costs of investing in other investment companies. The operating expenses in this fee table will not correlate to the expense ratio in the Fund's financial highlights because the financial statements include only the direct operating expenses incurred by the Fund, not the indirect costs of investing in other investment companies.

(2) The Fund's Adviser has contractually agreed to reduce its fees and/or absorb expenses of the Fund, until at least March 31, 2020, to ensure that total annual fund operating expenses after fee waiver and/or reimbursement (exclusive of any front-end or contingent deferred loads, taxes, brokerage fees and commissions, borrowing costs (such as interest and dividend expense on securities sold short), acquired fund fees and expenses, fees and expenses associated with investments in other collective investment vehicles or derivative instruments (including for example option and swap fees and expenses), or extraordinary expenses such as litigation) will not exceed 1.65% and 1.40% of the average daily net assets for Class N and Institutional Class Shares, respectively. The fee waiver and expense reimbursements are subject to possible recoupment from the Fund in future years on a rolling three year basis, if such recoupment can be achieved within the lesser of the foregoing expense limits or those in place at the time of recapture. This agreement may be terminated only by the Trust's Board of Trustees on 60 days' written notice to the Fund's Adviser.

Example: This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Class N	\$170	\$573	\$1,001	\$2,194
Institutional Class	\$144	\$495	\$869	\$1,922

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the fiscal year ended November 30, 2018, the Fund's portfolio turnover rate was 14% of the average value of its portfolio.

Principal Investment Strategies:

The Adviser pursues the Fund's investment objective by investing primarily in foreign (including frontier and emerging markets) and domestic common stocks that it believes are undervalued. Under normal market conditions, the Fund will invest in at least three different countries and will invest at least 40% of its total assets in securities of issuers organized or having their principal place of business outside the U.S. or doing a substantial amount (more than 50%) of business outside the U.S. Under normal market conditions, the Fund's portfolio consists of the common stock of 15 to 50 issuers, allowing the Adviser to focus the Fund's assets on the opportunities that, in the Adviser's opinion, have the highest potential for capital appreciation.

The Adviser implements the Fund's investment program by applying its opportunistic, bottom-up value analysis and preference for focus on well-capitalized companies that are facing near term challenges. The Adviser uses a fundamental approach to purchase securities that are trading at substantial discounts to the Adviser's estimates of their intrinsic values. The Adviser builds the Fund's portfolio from the bottom up, based on its assessment of value, focusing on businesses it believes have solid balance sheets, high quality business models and shareholder-friendly management teams.

The Fund's portfolio is primarily comprised of companies with sufficient capital to service their debt, and can survive market downturns and other financial events. The Adviser believes that these companies have an enhanced ability to survive difficult periods and thrive over the long term, providing the Fund with the opportunity to achieve higher long term returns.

The Adviser has significant flexibility in terms of where and how it can invest – including by geography, industry, sector or currency. Because of this flexibility, while the Fund does not concentrate its investments in any one specific industry, the Fund's portfolio may have significant exposure to a small number of sectors or industries from time to time. The Fund will tend to invest in deep value, lesser known securities of any capitalization, including small to mid-cap, and those less-followed or covered by traditional investment research. The Adviser will sell a security to invest in other securities that it believes are more undervalued, or if it believes that the security is materially overvalued. In addition, the Adviser may allocate a portion of the Fund's assets to cash and cash equivalents to allow it to service redemptions and react quickly to fluctuations in the market and benefit from extreme and short-term market disruptions, which may provide opportunities to purchase securities that, in the Adviser's opinion, are attractively valued, from sellers eager to exit the market.

Principal Investment Risks: *As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. Many factors affect the Fund's net asset value and performance. As with any mutual fund, there is no guarantee that the Fund will achieve its goal.*

Cash or Cash Equivalents Risk. The Fund may have significant investments in cash or cash equivalents. When a substantial portion of a portfolio is held in cash or cash equivalents, there is the risk that the value of the cash account, including interest, will not keep pace with inflation, thus reducing purchasing power over time.

Common Stock Risk. Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. Investor perceptions are based on various and unpredictable factors, including expectations regarding government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction and global or regional political, economic and banking crises.

Currency Risk. If the Fund invests in securities that trade in, and receive revenues in, foreign currencies, it will be subject to the risk that those currencies will decline in value relative to the U.S. dollar, or, in the case of hedging positions, that the U.S. dollar will decline in value relative to the currency being hedged. As a result, the Fund's investments in foreign currency-denominated securities may reduce the Fund's returns.

Emerging Markets Risk. Investing in emerging markets, including frontier markets, involves not only the risks described below with respect to investing in foreign securities, but also other risks, including exposure to economic structures that are generally less diverse and mature, and to political systems that can be expected to have less stability, than those of developed countries. The typically small size of the markets of securities of issuers located in emerging markets and the possibility of a low or nonexistent volume of trading in those securities may also result in a lack of liquidity and in price volatility of those securities.

Foreign Securities Risk. Since the Fund's investments may include foreign securities, the Fund is subject to risks beyond those associated with investing in domestic securities. Foreign companies are generally not subject to the same regulatory requirements of U.S. companies thereby resulting in less publicly available information about these companies. In addition, foreign accounting, auditing and financial reporting standards generally differ from those applicable to U.S. companies.

Management Risk. The Adviser's judgments about the attractiveness, value and potential appreciation of a particular security in which the Fund invests or sells may prove to be incorrect and may not achieve the Fund's investment objective.

Non-Diversification Risk. The Fund's portfolio may focus on a limited number of investments and will be subject to potential for greater volatility than a diversified fund.

Market Risk. Overall market risks may also affect the value of the Fund. Factors such as domestic and international economic growth and market conditions, interest rate levels and political events affect the securities markets.

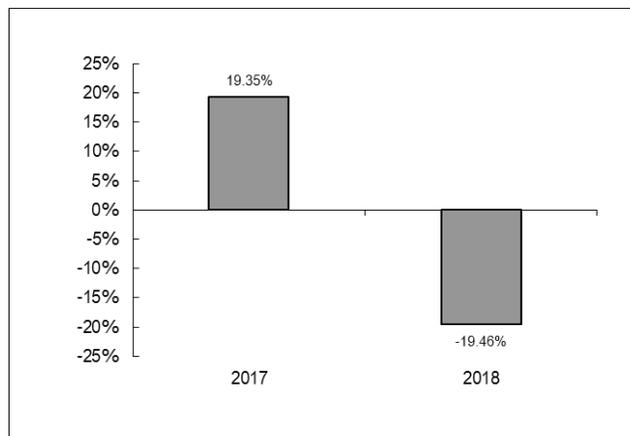

Sector Risk. If the Fund's portfolio is overweighted in a certain sector, any negative development affecting that sector will have a greater impact on the Fund than it would have on a fund that is not overweighted in that sector. The Fund may from time to time have a greater focus in certain sectors, and weakness in those sectors could result in significant losses to the Fund.

Small and Medium Capitalization Stock Risk. The earnings and prospects of small and medium sized companies are more volatile than larger companies and may experience higher failure rates than larger companies. Small and medium sized companies normally have a lower trading volume than larger companies, which may tend to make their market price fall more disproportionately than larger companies in response to selling pressures and may have limited markets, product lines, or financial resources and lack management experience.

Value Investing Risk. The Adviser's assessment of a stock's intrinsic value may never be fully recognized or realized by the market, and a stock judged to be undervalued or overvalued may actually be appropriately priced or its price may decline.

Performance: The bar chart and performance table below show the variability of the Fund's returns, which is some indication of the risks of investing in the Fund. The bar chart shows performance of the Fund's Institutional Class shares for each full calendar year since the Fund's inception. Returns for Class N shares, which are not presented, will vary from the returns of Institutional Class shares. The performance table compares the performance of the Fund's Institutional Class shares over time to the performance of a broad-based securities market index. You should be aware that the Fund's past performance (before and after taxes) may not be an indication of how the Fund will perform in the future. Updated performance information will be available at no cost by visiting www.moerufunds.com or by calling 1-844-MOERUS1.

**Performance Bar Chart
Calendar Year Ended December 31**

Best Quarter: 1st Quarter 2017 9.02%
Worst Quarter: 4th Quarter 2018 (11.86)%

The Fund's Institutional Class year-to-date return as of the most recent fiscal quarter, which ended February 28, 2019 was 4.87%.

Performance Table
Average Annualized Total Returns
(For periods ended December 31, 2018)

	One Year	Since Inception of the Fund (05-31-16)
Institutional Class Return before taxes	(19.46)%	2.30%
Institutional Class Return after taxes on distributions	(19.90)%	1.93%
Institutional Class Return after taxes on distributions and sale of Fund shares	(11.34)%	1.71%
Index – MSCI AC World Index Net (USD)	(0.98)%	10.35%

After-tax returns are calculated using the highest historical individual federal marginal income tax rate and do not reflect the impact of state and local taxes. Actual after-tax returns depend on a shareholder's tax situation and may differ from those shown. The after-tax returns are not relevant if you hold your Fund shares in tax-deferred arrangements, such as 401(k) plans or individual retirement accounts ("IRA").

Investment Adviser: Moerus Capital Management LLC (the "Adviser").

Portfolio Manager: Amit Wadhwaney, Chief Investment Officer of the Adviser, has served the Fund as its portfolio manager since it commenced operations in 2016.

Purchase and Sale of Fund Shares: The minimum initial investment in the Fund is \$2,500 in Class N shares and \$100,000 for Institutional Class shares for all account types and the minimum subsequent investment is \$1,000. You may purchase and redeem shares of the Fund on any day that the New York Stock Exchange is open. Redemption requests may be made in writing, by telephone, or through a financial intermediary and will be paid by ACH, check or wire transfer. The Fund and the Adviser each reserve the right to waive any investment minimum requirements.

Tax Information: Dividends and capital gain distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are taxable to you at either ordinary income or capital gains tax rates unless you are investing through a tax-deferred plan such as an IRA or 401(k) plan. However, these dividend and capital gain distributions may be taxable upon their eventual withdrawal from tax-deferred plans.

Payments to Broker-Dealers and Other Financial Intermediaries: If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS

INVESTMENT OBJECTIVE: The Fund's objective is long-term capital appreciation.

The Fund's investment objective may be changed without shareholder approval upon 60 days' written notice to shareholders. The Fund's investment policies may be changed by the Board of Trustees (the "Board") of the Fund without shareholder approval unless otherwise noted in this Prospectus or the Statement of Additional Information.

PRINCIPAL INVESTMENT STRATEGIES:

The Adviser pursues the Fund's investment objective by investing primarily in foreign (including frontier and emerging markets) and domestic common stocks that it believes are undervalued. Under normal circumstances, the Fund will invest in at least three different countries and will invest at least 40% of its total assets in securities of issuers organized or having their principal place of business outside the U.S. or doing a substantial amount (more than 50%) of business outside the U.S. The Fund is a "non-diversified" fund, meaning that a relatively high percentage of its assets (greater than 5% in a single security) may be invested in a limited number of issuers of securities. Under normal market conditions, the Fund's portfolio consists of the common stock of 15 to 50 issuers, which allows the Adviser to focus the Fund's assets on the opportunities that, in the Adviser's opinion, have the highest potential for capital appreciation.

The Adviser implements the Fund's investment program by applying its opportunistic, bottom-up value analysis and preference for well-capitalized companies that are facing near term challenges. The Adviser uses a fundamental approach to purchase securities that are trading at substantial discounts to the Adviser's estimates of their intrinsic values. The Adviser builds the Fund's portfolio from the bottom up, based on its assessment of value, focusing on businesses it believes have solid balance sheets, high quality business models and shareholder-friendly management teams. The Adviser constructs a non-diversified portfolio with low turnover utilizing a holistic review of potential investments to mitigate the overall level of risk in the Fund's portfolio. The Adviser's assessment of the value of individual securities and its investment strategy is not tied to an index, nor are returns intended to be index-tracking.

The Fund's portfolio is primarily comprised of companies with sufficient capital to service their debt, and can survive market downturns and other financial events. The Adviser believes that these companies have an enhanced ability to survive difficult periods and thrive over the long term, providing the Fund with the opportunity to achieve higher long term returns.

The Adviser selects undervalued securities by applying its proprietary investing methodology to identify and purchase securities of well-capitalized companies (i.e. those with ample means to service their debts and that can survive market downturns and other adverse financial events) that are trading at substantial discounts to the Adviser's assessment of their intrinsic value. The Adviser believes that companies with well-capitalized balance sheets have an enhanced ability to survive difficult periods and thrive over the long-term, providing the Fund with the opportunity to achieve higher returns over the long term. The Adviser seeks to take advantage of significant stock price declines due to poor near-term business results, and focuses on the long-term intrinsic value of the business and its underlying assets. The Adviser, generally, will not allocate Fund assets in an attempt to take advantage of short-term trading fluctuations, but rather will focus on investing in situations where, based on the Adviser's research, there are significant value mismatches. By having a preference for well-capitalized companies, the Adviser seeks to avoid companies that are at a heightened risk of experiencing permanent impairments of capital.

The Adviser has significant flexibility in terms of where and how it can invest – including by geography, sector, industry or currency. Because of this flexibility, while the Fund does not concentrate its investments in any one specific industry, the Fund's portfolio may have significant exposure to a small number of sectors or industries from time to time. The Fund will tend to invest in in deep value, lesser known securities of any capitalization, including small- to mid-cap, and those less-followed or less well-covered by traditional investment research. The Adviser will sell a security to invest in other securities that it believes are more undervalued, or if it believes a security is materially overvalued. The Adviser may allocate a portion of the Fund's assets to cash and cash equivalents to allow it to react quickly to fluctuations in the market and benefit from extreme and short-term market disruptions which may provide opportunities to purchase securities that, in the Adviser's opinion, are attractively valued, from sellers eager to exit the market.

PRINCIPAL INVESTMENT RISKS:

The following describes the risks the Fund bears.

Cash or Cash Equivalents Risk. The Fund may have significant investments in cash or cash equivalents. When a substantial portion of a portfolio is held in cash or cash equivalents, there is the risk that the value of the cash account, including interest, will not keep pace with inflation, thus reducing purchasing power over time.

Common Stock Risk. Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. Investor perceptions are based on various and unpredictable factors, including expectations regarding government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction and global or regional political, economic and banking crises. The common stock of a company that experiences financial distress may lose significant value or become worthless. The rights of common stockholders are subordinate to all other claims on a company's assets including debt holders and preferred stock holders; therefore, the Fund could lose money if a company in which it invests becomes financially distressed.

Currency Risk. Currency trading involves significant risks, including market risk, interest rate risk, country risk, counterparty credit risk and short sale risk. Market risk results from the price movement of foreign currency values in response to shifting market supply and demand. Since exchange rate changes can readily move in one direction, a currency position carried overnight or over a number of days may involve greater risk than one carried a few minutes or hours. Interest rate risk arises whenever a country changes its stated interest rate target associated with its currency. Country risk arises because virtually every country has interfered with international transactions in its currency. Interference has taken the form of regulation of the local exchange market, restrictions on foreign investment by residents or limits on inflows of investment funds from abroad. Restrictions on the exchange market or on international transactions are intended to affect the level or movement of the exchange rate. This risk could include the country issuing a new currency, effectively making the "old" currency worthless. The Fund may also take short positions, through derivatives, if the Adviser believes the value of a currency is likely to depreciate in value. A "short" position is, in effect, similar to a sale in which the Fund sells a currency it does not own but, has borrowed in anticipation that the market price of the currency will decline. The Fund must replace a short currency position by purchasing it at the market price at the time of replacement, which may be more or less than the price at which the Fund took a short position in the currency.

Emerging Markets Risk. The Fund may invest in countries with newly organized or less developed securities markets. There are typically greater risks involved in investing in emerging markets securities. Generally, economic structures in these countries are less diverse and mature than those in developed countries and their political systems tend to be less stable. A sub-set of emerging market countries are considered to be "frontier markets." Frontier market countries generally have smaller economies and less developed capital markets than traditional emerging markets, and, as a result, the risks of investing in emerging market countries are magnified in frontier market countries. Emerging market economies may be based on only a few industries, therefore security issuers, including governments, may be more susceptible to economic weakness and more likely to default. Emerging market countries also may have relatively unstable governments, weaker economies, and less-developed legal systems with fewer security holder rights. Investments in emerging markets countries may be affected by government policies that restrict foreign investment in certain issuers or industries. The potentially smaller size of their securities markets and lower trading volumes can make investments relatively illiquid and potentially more volatile than investments in developed countries, and such securities may be subject to abrupt and severe price declines. Due to this relative lack of liquidity, the Fund may have to accept a lower price. An inability to sell a portfolio position can adversely affect the Fund's value or prevent the Fund from being able to meet cash obligations or take advantage of other investment opportunities.

Foreign Securities Risk. To the extent the Fund invests in foreign securities, it could be subject to greater risks because the Fund's performance may depend on issues other than the performance of a particular company or U.S. market sector. Changes in foreign economies and political climates are more likely to affect the Fund than a mutual fund that invests exclusively in U.S. companies. The value of foreign securities is also affected by the value of the local currency relative to the U.S. dollar. There may also be less government supervision of foreign markets, resulting in non-uniform accounting practices and less publicly available information. The values of foreign investments may be affected by changes in exchange control regulations, application of foreign tax laws (including withholding tax), changes in governmental administration or economic or monetary policy (in this country or abroad) or changed circumstances in dealings between nations. In addition, foreign brokerage commissions, custody fees and other costs of investing in foreign securities are generally higher than in the United States. Investments in foreign issues could be affected by other factors not present in the United States, including expropriation, armed conflict, confiscatory taxation, and potential difficulties in enforcing contractual obligations. As a result, the Fund may be exposed to greater risk and will be more dependent on the Adviser's ability to assess such risk than if the Fund invested solely in more developed countries.

Management Risk. The Adviser's reliance on its strategy and its judgments about the value and potential appreciation securities in which the Fund invests may prove to be incorrect, including the Adviser's tactical allocation of the Fund's portfolio among its investments. The ability of the Fund to meet its investment objective is directly related to the Adviser's proprietary investment process. The Adviser's assessment of the relative value of securities, their attractiveness and potential appreciation of particular investments in which the Fund invests may prove to be incorrect and there is no guarantee that the Adviser's investment strategy achieve the Fund's investment objective.

Market Risk. Overall stock and bond market risks may also affect the value of the Fund. Factors such as domestic economic growth and market conditions, interest rate levels and political events affect the securities markets. Stocks and bonds involve the risk that they may never reach what the manager believes is their full market value, either because the market fails to recognize the security's intrinsic worth or the manager misgauged that worth. They also may decline in price, even though, in theory, they are already undervalued.

Non-Diversification Risk. The Fund's portfolio may focus on a limited number of investments and will be subject to potential for greater volatility than a diversified fund.

Sector Risk. If the Fund's portfolio is overweighted in a certain sector, any negative development affecting that sector will have a greater impact on the Fund than it would have on a fund that is not overweighted in that sector. The Fund may from time to time have a greater focus in certain sectors, and weakness in those sectors could result in significant losses to the Fund.

Small and Medium Capitalization Stock Risk. The stocks of small and medium capitalization companies involve substantial risk. These companies may have limited product lines, markets or financial resources, and they may be dependent on a limited management group. Stocks of these companies may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.

Value Investing Risk. The stocks in which the Fund invests may not be undervalued as expected. The Adviser's assessment of an equity security's intrinsic value may never be fully recognized or realized by the market, and an equity security judged to be undervalued or overvalued may actually be appropriately priced or its price may move in the wrong direction. Because different types of stocks tend to shift in and out of favor depending on market and economic conditions, value-oriented funds may underperform when growth investing is in favor.

TEMPORARY INVESTMENTS: To respond to adverse market, economic, political or other conditions, the Fund may invest 100% of its total assets, without limitation, in high-quality short-term debt securities and money market instruments. These short-term debt securities and money market instruments include: shares of money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. While the Fund is in a defensive position, the Fund may not achieve its investment objective. Furthermore, to the extent that the Fund invests in money market mutual funds for cash positions, there will be some duplication of expenses because the Fund pays its pro-rata portion of such money market funds' advisory fees and operational fees. The Fund may also invest a substantial portion of its assets in such instruments at any time to maintain liquidity or pending selection of investments in accordance with its policies.

PORTFOLIO HOLDINGS DISCLOSURE: A description of the Fund's policies and procedures regarding the release of portfolio holdings information is available in the Fund's Statement of Additional Information ("SAI").

CYBERSECURITY: The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices potentially can be breached. The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach.

Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate its net asset value ("NAV"); impediments to trading; the inability of the Fund, the Adviser, and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Similar adverse consequences could result from cybersecurity breaches affecting issuers of securities in which the Fund invests; counterparties with which the Fund engages in transactions; governmental and other regulatory authorities; exchange and other financial market operators, banks, brokers, dealers, insurance companies, and other financial institutions (including financial intermediaries and service providers for the Fund's shareholders); and other parties. In addition, substantial costs may be incurred by these entities in order to prevent any cybersecurity breaches in the future.

MANAGEMENT

Investment Adviser: Moerus Capital Management LLC, located at 307 West 38th Street, Suite 2003, New York, NY 10018, serves as the Fund's Investment Adviser. The Adviser is registered with the SEC as an Investment Adviser under the Investment Advisers Act of 1940, as amended. The Adviser is a Delaware limited liability company formed in February 2015 and provides investment advice to the Fund and a private fund. As of February 28, 2019, the Adviser had approximately \$810 in assets under management.

Subject to the supervision of the Board of Trustees, the Adviser is responsible for managing the Fund's investments, placing trade orders and providing related administrative services and facilities under an Investment Advisory Agreement between the Fund and the Adviser.

The management fee set forth in the Fund's Investment Advisory Agreement is 0.95% of the Fund's average daily net assets, annually, to be paid on a monthly basis. For the fiscal year ended November 30, 2018, the Adviser earned a fee equal to 0.73% of the Fund's average daily net assets. In addition to investment advisory fees, the Fund pays other expenses including costs incurred in connection with the maintenance of securities law registration, printing and mailing prospectuses and statements of additional information to shareholders, certain financial accounting services, taxes or governmental fees, custodial, transfer and shareholder servicing agent costs, expenses of outside counsel and independent accountants, preparation of shareholder reports and expenses of trustee and shareholders meetings.

The Adviser has contractually agreed to reduce its fees and/or absorb expenses of the Fund, until at least March 31, 2020, to ensure that total annual fund operating expenses after fee waiver and/or reimbursement excluding (i) any front-end or contingent deferred loads; (ii) brokerage fees and commissions, (iii) acquired fund fees and expenses; (iv) fees and expenses associated with investments in other collective investment vehicles or derivative instruments (including for example option and swap fees and expenses); (v) borrowing costs (such as interest and dividend expense on securities sold short); (vi) taxes; and (vii) extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, contractual indemnification of Fund service providers (other than the Adviser) will not exceed 1.40% and 1.65% of the Fund's average daily net assets attributable to Institutional Class and Class N shares, respectively; subject to possible recoupment from the Fund in future years on a rolling three year basis if such recoupment can be achieved within the lesser of the expense limitation in place at the time of waiver and the expense limitation in place at the time of recapture. The expense limit arrangement may not be terminated during this time period without prior approval of the Board of Trustees on 60 days' written notice to the Adviser. A discussion regarding the basis for the Board of Trustees' approval of the advisory agreement is available in the Fund's semi-annual report to shareholders dated May 31, 2018.

Portfolio Manager: Amit Wadhwaney, Chief Investment Officer of the Adviser has served the Fund as its portfolio manager since it commenced operations in 2016.

Mr. Wadhwaney is the Chief Investment Officer, portfolio manager and founding partner of the Adviser. He is also the founding manager of the Moerus Global Value Fund LP, a private fund managed using a strategy substantially similar to that of the Fund. Mr. Wadhwaney has over 25 years of experience researching and analyzing investment opportunities in developed, emerging, and frontier markets worldwide, and has managed global investment portfolios since 1996. Prior to founding Moerus, Mr. Wadhwaney was a Portfolio Manager and Partner at Third Avenue Management LLC ("Third Avenue") where he founded the international business at the firm, and was the portfolio manager for several Third Avenue products. Mr. Wadhwaney also served as portfolio manager and/or research analyst to several other mutual funds managed by various advisers.

Mr. Wadhwaney holds an M.B.A. in Finance from The University of Chicago (1982 through 1983). He also holds a B.A. with honors and an M.A. in Economics from Concordia University in Montreal, Canada (1977 through 1980). At Concordia, he was awarded the Sun Life Prize and the Concordia University Fellow in Economics, and he subsequently taught economics classes there. He also holds B.S. degrees in Chemical Engineering and Mathematics from the University of Minnesota (1970 through 1974).

The SAI provides additional information about the portfolio manager's compensation, other accounts managed and ownership of Fund shares.

HOW SHARES ARE PRICED

Shares of the Fund are sold at NAV (plus any applicable sales charges). The NAV of the Fund is determined at the close of regular trading (normally 4:00 p.m. Eastern Time) on each day the New York Stock Exchange (“NYSE”) is open for business. NAV is computed by determining, on a per class basis, the aggregate market value of all assets of the applicable Fund, less its liabilities, divided by the total number of shares outstanding ((assets-liabilities)/number of shares = NAV). The NYSE is closed on weekends and New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day (“NYSE Close”). The NAV takes into account, on a per class basis, the expenses and fees of the Fund, including management, administration, and distribution fees, which are accrued daily. The determination of NAV for the Fund for a particular day is applicable to all applications for the purchase of shares, as well as all requests for the redemption of shares, received by the Fund (or an authorized broker or agent, or its authorized designee) before the close of trading on the NYSE on that day.

Generally, the Fund’s securities, including securities issued by ETFs, are valued each day at the last quoted sales price on each security’s primary exchange. Securities traded or dealt in upon one or more securities exchanges (whether domestic or foreign) for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid and ask prices on such exchange. Securities primarily traded in the National Association of Securities Dealers’ Automated Quotation System (“NASDAQ”) National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity.

If market quotations are not readily available, securities will be valued at their fair market value as determined using the “fair value” procedures approved by the Board. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security. The fair value prices can differ from market prices when they become available or when a price becomes available. The Board has delegated execution of these procedures to a fair value committee composed of one or more representatives from each of the (i) Trust, (ii) administrator, and (iii) Adviser. The committee may also enlist third-party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews and ratifies the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results.

The Fund may use independent pricing services to assist in calculating the value of the Fund’s securities. In addition, market prices for foreign securities are not determined at the same time of day as the NAV for the Fund.

In computing the NAV, the Fund values foreign securities held by the Fund at the latest closing price on the exchange in which they are traded immediately prior to closing of the NYSE. Prices of foreign securities quoted in foreign currencies are translated into U.S. dollars at current rates. If events materially affecting the value of a security in the Fund’s portfolio, particularly foreign securities, occur after the close of trading on a foreign market but before the Fund prices its shares, the security will be valued at fair value. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the Adviser may need to price the security using the Fund’s fair value pricing guidelines. Without a fair value price, short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund’s portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund’s NAV by short term traders. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other mutual funds to determine net asset value, or from the price that may be realized upon the actual sale of the security.

Money market shares are valued by their issuers at \$1.00 per share using the amortized cost method in accordance with Rule 2a-7 under the 1940 Act.

HOW TO PURCHASE SHARES

Share Classes: This Prospectus describes two classes of shares offered by the Fund: Class N and Institutional Class shares. The Fund offers these two classes of shares so that you can choose the class that best suits your investment needs. The main differences between the share classes are ongoing fees. Class N shares pay an annual fee of up to 0.25% for distribution and shareholder services expenses pursuant to a plan under Rule 12b-1. In choosing which class of shares to purchase, you should consider which will be most beneficial to you, given the amount of your purchase and the length of time you expect to hold the shares. Each class of shares in the Fund represents interest in the same portfolio of investments within the Fund. The Fund reserves the right to waive sales charges. All share classes may not be available for purchase in all states.

Class N Shares: Class N shares are offered at their public offering price, and are subject to 12b-1 distribution fees of up to 0.25% of the average daily net assets of Class N shares. The minimum initial investment in the Class N shares is \$2,500 for all types of accounts and the minimum subsequent investment is \$1,000.

Institutional Class Shares: Institutional Class shares of the Fund are offered at their NAV without an initial sales charge. This means that 100% of your initial investment is placed into shares of the Fund. The minimum initial investment in the Institutional Class shares is \$100,000 for all types of accounts, and the minimum subsequent investment is \$1,000. There is no restriction as to the type of investor that may purchase Institutional Class shares.

Factors to Consider When Choosing a Share Class: When deciding which class of shares of the Fund to purchase, you should consider your investment goals, present and future amounts you may invest in the Fund, and the length of time you intend to hold your shares. To help you make a determination as to which class of shares to buy, please refer back to the examples of the Fund's expenses over time in the **Fees and Expenses of the Fund** section in this Prospectus. You also may wish to consult with your financial adviser for advice with regard to which share class would be most appropriate for you.

Purchasing Shares: You may purchase shares of the Fund by sending a completed application form to the following address:

via Regular Mail
"Moerus Worldwide Value Fund"
c/o Gemini Fund Services, LLC
P.O. Box 541150
Omaha, Nebraska 68154

or Overnight Mail
"Moerus Worldwide Value Fund"
c/o Gemini Fund Services, LLC
17645 Wright Street, Suite 200
Omaha, Nebraska 68130

The USA PATRIOT Act requires financial institutions, including the Fund, to adopt certain policies and programs to prevent money-laundering activities, including procedures to verify the identity of customers opening new accounts. As requested on the Application, you should supply your full name, date of birth, social security number and permanent street address. Mailing addresses containing a P.O. Box will not be accepted. This information will assist the Fund in verifying your identity. Until such verification is made, the Fund may temporarily limit additional share purchases. In addition, the Fund may limit additional share purchases or close an account if it is unable to verify a shareholder's identity. As required by law, the Fund may employ various procedures, such as comparing the information to fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct.

The Fund, however, reserves the right, in its sole discretion, to reject any application to purchase shares. Applications will not be accepted unless they are accompanied by a check drawn on a U.S. bank, thrift institutions, or credit union in U.S. funds for the full amount of the shares to be purchased. After you open an account, you may purchase additional shares by sending a check together with written instructions stating the name(s) on the account and the account number, to the above address. Make all checks payable to the Fund. The Fund will not accept payment in cash, cashier's checks or money orders. Also, to prevent check fraud, the Fund will not accept third party checks, U.S. Treasury checks, credit card checks or starter checks for the purchase of shares.

Note: Gemini Fund Services, LLC, the Fund's transfer agent, will charge a \$25 fee against a shareholder's account, in addition to any loss sustained by the Fund, for any check returned to the transfer agent for insufficient funds.

Purchase through Brokers: You may invest in the Fund through brokers or agents who have entered into selling agreements with the Fund's distributor. The brokers and agents are authorized to receive purchase and redemption orders on behalf of the Fund. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or its designee receives the order. The broker or agent may set their own initial and subsequent investment minimums. You may be charged a fee if you use a broker or agent to buy or redeem shares of the Fund. Finally, various servicing agents use procedures and impose restrictions that may be in addition to, or different from those applicable to investors purchasing shares directly from the Fund. You should carefully read the program materials provided to you by your servicing agent.

Purchase by Wire: If you wish to wire money to make an investment in the Fund, please call the Fund at 1-844-MOERUS1 for wiring instructions and to notify the Fund that a wire transfer is coming. Any commercial bank can transfer same-day funds via wire. The Fund will normally accept wired funds for investment on the day received if they are received by the Fund's designated bank before the close of regular trading on the NYSE. Your bank may charge you a fee for wiring same-day funds.

Automatic Investment Plan: You may participate in the Fund's Automatic Investment Plan, an investment plan that automatically moves money from your bank account and invests it in the Fund through the use of electronic funds transfers or automatic bank drafts. You may elect to make subsequent investments by transfers of a minimum of \$200 on specified days of each month into your established Fund account. Please contact the Fund at 1-844-MOERUS1 for more information about the Fund's Automatic Investment Plan.

When Order is Processed: All shares will be purchased at the NAV per share (plus applicable sales charges, if any) next determined after the Fund receives your application or request in good order. All requests received in good order by the Fund before the close of the NYSE, generally 4:00 p.m. (Eastern Time), will be processed on that same day. Requests received after 4:00 p.m., or the close of the NYSE if earlier, will be processed on the next business day.

Good Order: When making a purchase request, make sure your request is in good order.

"Good order" means your purchase request includes:

- the name of the Fund
- the dollar amount of shares to be purchased
- a completed purchase application or investment stub
- check payable to the "Moerus Worldwide Value Fund"

Retirement Plans: You may purchase shares of the Fund for your individual retirement plans. Please call the Fund at 1-844-MOERUS1 for the most current listing and appropriate disclosure documentation on how to open a retirement account.

HOW TO REDEEM SHARES

Redeeming Shares: The Fund typically expects that it will take up to three business days following the receipt of your redemption request to pay out redemption proceeds by check or electronic transfer. The Fund typically expects to pay redemptions from cash, cash equivalent, proceeds from the sale of Fund shares, any lines of portfolio securities. These redemption payment methods will be used in regular and stressed market conditions. You may redeem all or any portion of the shares credited to your account by submitting a written request for redemption to:

via Regular Mail
“Moerus Worldwide Value Fund”
c/o Gemini Fund Services, LLC
P.O. Box 541150
Omaha, Nebraska 68154

or Overnight Mail
“Moerus Worldwide Value Fund”
c/o Gemini Fund Services, LLC
17645 Wright Street, Suite 200
Omaha, Nebraska 68130

Redemptions by Telephone: The telephone redemption privilege is automatically available to all new accounts except retirement accounts. If you do not want the telephone redemption privilege, you must indicate this in the appropriate area on your account application or you must write to the Fund and instruct it to remove this privilege from your account. The proceeds, which are equal to number of shares times NAV less any applicable deferred sales charges or redemption fees, will be sent by mail to the address designated on your account or sent electronically, via ACH or wire, directly to your existing account in a bank or brokerage firm in the United States as designated on our application. To redeem by telephone, call 1-844-MOERUS1. IRA accounts are not redeemable by telephone.

The Fund reserves the right to suspend the telephone redemption privileges with respect to your account if the name(s) or the address on the account has been changed within the previous 30 days. Neither the Fund, the transfer agent, nor their respective affiliates will be liable for complying with telephone instructions they reasonably believe to be genuine or for any loss, damage, cost or expenses in acting on such telephone instructions and you will be required to bear the risk of any such loss. The Fund or the transfer agent, or both, will employ reasonable procedures to determine that telephone instructions are genuine. If the Fund and/or the transfer agent do not employ these procedures, they may be liable to you for losses due to unauthorized or fraudulent instructions. These procedures may include, among others, requiring forms of personal identification prior to acting upon telephone instructions, providing written confirmation of the transactions and/or tape recording telephone instructions.

Redemptions through Broker: If shares of the Fund are held by a broker-dealer, financial institution or other servicing agent, you must contact that servicing agent to redeem shares of the Fund. The servicing agent may charge a fee for this service.

Redemptions by Wire: You may request that your redemption proceeds be wired directly to your bank account. The Fund’s transfer agent imposes a \$15 fee for each wire redemption and deducts the fee directly from your account. Your bank may also impose a fee for the incoming wire.

Automatic Withdrawal Plan: If your individual account, IRA or other qualified plan account has a current account value of at least \$50,000, you may participate in the Fund’s Automatic Withdrawal Plan, an investment plan that automatically moves money to your bank account from the Fund through the use of electronic funds transfers. You may elect to make subsequent withdrawals by transfers of a minimum of \$200 on specified days of each month into your established bank account. Please contact the Fund at 1-844-MOERUS1 for more information about the Fund’s Automatic Withdrawal Plan.

Redemptions in Kind: The Fund reserves the right to honor requests for redemption or repurchase orders by making payment in whole or in part in readily marketable securities (“redemption in kind”) if the amount is greater than \$250,000 or 1% of the Fund’s assets. The securities will be chosen by the Fund and valued using the Fund’s net asset value pricing procedures. A shareholder will be exposed to market risk until these securities are converted to cash and may incur transaction expenses in converting these securities to cash.

When Redemptions are Sent: Once the Fund receives your redemption request in “good order” as described below, it will issue a check based on the next determined NAV following your redemption request. If you purchase shares using a check and soon after request a redemption, your redemption proceeds will not be sent until the check used for your purchase has cleared your bank (usually within 10 days of the purchase date).

Good Order: Your redemption request will be processed if it is in “good order.” To be in good order, the following conditions must be satisfied:

- the request should be in writing, unless redeeming by telephone, indicating the number of shares or dollar amount to be redeemed;
- the request must identify your account number;
- the request should be signed by you and any other person listed on the account, exactly as the shares are registered; and
- if you request that the redemption proceeds be sent to a person, bank or an address other than that of record or paid to someone other than the record owner(s), or if the address was changed within the last 30 days, or if the proceeds of a requested redemption exceed \$50,000, the signature(s) on the request must be medallion signature guaranteed by an eligible signature guarantor.

When You Need Medallion Signature Guarantees: If you wish to change the bank or brokerage account that you have designated on your account, you may do so at any time by writing to the applicable Fund with your signature guaranteed. A medallion signature guarantee assures that a signature is genuine and protects you from unauthorized account transfers. You will need your signature guaranteed if:

- you request a redemption to be made payable to a person not on record with the Fund;
- you request that a redemption be mailed to an address other than that on record with the Fund;
- the proceeds of a requested redemption exceed \$50,000;
- any redemption is transmitted by federal wire transfer to a bank other than the bank of record; or
- your address was changed within 30 days of your redemption request.

Signatures may be guaranteed by any eligible guarantor institution (including banks, brokers and dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations). Further documentation will be required to change the designated account if shares are held by a corporation, fiduciary or other organization. *A notary public cannot guarantee signatures.*

Retirement Plans: If you own an IRA or other retirement plan, you must indicate on your redemption request whether the Fund(s) should withhold federal income tax. Unless you elect in your redemption request that you do not want to have federal tax withheld, the redemption will be subject to withholding.

Low Balances: If at any time your account balance falls below \$2,500, the Fund may notify you that, unless the account is brought up to at least \$2,500 within 30 days of the notice, your account could be closed. After the notice period, the Fund may redeem all of your shares and close your account by sending you a check to the address of record. Your account will not be closed if the account balance drops below \$2,500 due to a decline in NAV. The Fund will not charge any redemption fee on involuntary redemptions.

FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES

The Fund discourages and does not accommodate market timing. Frequent trading into and out of the Fund can harm all Fund shareholders by disrupting the Fund's investment strategies, increasing Fund expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders. The Fund is designed for long-term investors and is not intended for market timing or other disruptive trading activities. Accordingly, the Board has approved policies that seek to curb these disruptive activities while recognizing that shareholders may have a legitimate need to adjust their Fund investments as their financial needs or circumstances change. The Fund currently uses several methods to reduce the risk of market timing. These methods include:

- committing staff to review, on a continuing basis, recent trading activity in order to identify trading activity that may be contrary to the Fund's Market Timing Trading Policy;
- assessing a redemption fee on shares held less than 90 days;
- reject or limit specific purchase requests; and
- reject purchase requests from certain investors.

Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund seeks to make judgments and applications that are consistent with the interests of Fund shareholders.

Based on the frequency of redemptions in your account, the Adviser or transfer agent may in its sole discretion determine that your trading activity is detrimental to the Fund as described in the Fund's Market Timing Trading Policy and elect to reject or limit the amount, number, frequency or method for requesting future purchases or redemptions into the Fund.

The Fund reserves the right to reject or restrict purchase requests for any reason, particularly when the shareholder's trading activity suggests that the shareholder may be engaged in market timing or other disruptive trading activities. Neither the Fund nor the Adviser will be liable for any losses resulting from rejected purchase orders. The Adviser may also bar an investor who has violated these policies (and the investor's financial advisor) from opening new accounts with the Fund.

Although the Fund attempts to limit disruptive trading activities, some investors use a variety of strategies to hide their identities and their trading practices. There can be no guarantee that the Fund will be able to identify or limit these activities. Omnibus account arrangements are common forms of holding shares of the Fund. While the Fund will encourage financial intermediaries to apply the Fund's Market Timing Trading Policy to their customers who invest indirectly in the Fund, the Fund are limited in its ability to monitor the trading activity or enforce the Fund's Market Timing Trading Policy with respect to customers of financial intermediaries. For example, should it occur, the Fund may not be able to detect market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, exchanges and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Fund's Market Timing Trading Policy to their customers through such methods as implementing short-term trading limitations or restrictions and monitoring trading activity for what might be market timing, the Fund may not be able to determine whether trading by customers of financial intermediaries is contrary to the Fund's Market Timing Trading Policy. Brokers maintaining omnibus accounts with the Fund have agreed to provide shareholder transaction information to the extent known to the broker to the Fund upon request. If the Fund or its transfer agent or shareholder servicing agent suspects there is market timing activity in the account, the Fund will seek full cooperation from the service provider maintaining the account to identify the underlying participant. At the request of the Adviser, the service providers may take immediate action to stop any further short-term trading by such participants.

TAX STATUS, DIVIDENDS AND DISTRIBUTIONS

Any sale or exchange of the Fund's shares may generate tax liability (unless you are a tax-exempt investor or your investment is in a qualified retirement account). When you redeem your shares you may realize a taxable gain or loss. This is measured by the difference between the proceeds of the sale and the tax basis for the shares you sold. (To aid in computing your tax basis, you generally should retain your account statements for the period that you hold shares in the Fund.)

The Fund intends to distribute substantially all of its net investment income and net capital gains at least annually. Both types of distributions will be reinvested in shares of the Fund unless you elect to receive cash. Dividends from net investment income (including any excess of net short-term capital gain over net long-term capital loss) are taxable to investors as ordinary income, while distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss) are generally taxable as long-term capital gain, regardless of your holding period for the shares. Any dividends or capital gain distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest dividends or capital gain distributions or receive them in cash. Certain dividends or distributions declared in October, November or December will be taxed to shareholders as if received in December if they are paid during the following January. Each year the Fund will inform you of the amount and type of your distributions. IRAs and other qualified retirement plans are exempt from federal income taxation until retirement proceeds are paid out to the participant.

Your redemptions, including exchanges, may result in a capital gain or loss for federal tax purposes. A capital gain or loss on your investment is the difference between the cost of your shares, including any sales charges, and the amount you receive when you sell them.

On the account application, you will be asked to certify that your social security number or taxpayer identification number is correct and that you are not subject to backup withholding for failing to report income to the IRS. If you are subject to backup withholding or you did not certify your taxpayer identification number, the IRS requires the Fund to withhold a percentage of any dividend, redemption or exchange proceeds. The Fund reserves the right to reject any application that does not include a certified social security or taxpayer identification number. If you do not have a social security number, you should indicate on the purchase form that your application to obtain a number is pending. The Fund is required to withhold taxes if a number is not delivered to the Fund within seven days.

This summary is not intended to be and should not be construed to be legal or tax advice. You should consult your own tax advisers to determine the tax consequences of owning the Fund's shares.

DISTRIBUTION OF SHARES

Distributor: Foreside Fund Services, LLC, (the “Distributor”) located at Three Canal Plaza, Suite 100, Portland, ME 04101, is the distributor for the shares of the Fund. The Distributor is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. (“FINRA”). Shares of the Fund are offered on a continuous basis.

Distribution Fees: The Trust, with respect to the Fund, has adopted the Trust’s Master Distribution and Shareholder Servicing Plan for Class N shares (the “Plan”), pursuant to Rule 12b-1 of the 1940 Act, which allows the Fund to pay the Fund’s distributor an annual fee for distribution and shareholder servicing expenses of 0.25% of the Fund’s average daily net assets attributable to Class N shares.

The Fund’s distributor and other entities are paid under the Plan for services provided and the expenses borne by the distributor and others in the distribution of Fund shares, including the payment of commissions for sales of the shares and incentive compensation to and expenses of dealers and others who engage in or support distribution of shares or who service shareholder accounts, including overhead and telephone expenses; printing and distribution of prospectuses and reports used in connection with the offering of the Fund’s shares to other than current shareholders; and preparation, printing and distribution of sales literature and advertising materials. In addition, the distributor or other entities may utilize fees paid pursuant to the Plan to compensate dealers or other entities for their opportunity costs in advancing such amounts, which compensation would be in the form of a carrying charge on any un-reimbursed expenses.

You should be aware that if you hold your shares for a substantial period of time, you may indirectly pay more than the economic equivalent of the maximum front-end sales charge allowed by FINRA due to the recurring nature of distribution (12b-1) fees.

Additional Compensation to Financial Intermediaries: The Adviser and its affiliates may each, at its own expense and out of its own assets including legitimate profits, provide cash payments to financial intermediaries who sell shares of the Fund. Financial intermediaries include brokers, financial planners, banks, insurance companies, retirement or 401(k) plan administrators and others. These payments are generally made to financial intermediaries that provide shareholder or administrative services, or marketing support. Marketing support may include access to sales meetings, sales representatives and financial intermediary management representatives, inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs. These payments also may be made as an expense reimbursement in cases where the financial intermediary provides shareholder services to Fund shareholders.

Householding: To reduce expenses, the Fund mails only one copy of the prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call the Fund at 1-844-MOERUS1 on days the Fund are open for business or contact your financial institution. The Fund will begin sending you individual copies thirty days after receiving your request.

FINANCIAL HIGHLIGHTS

The following table is intended to help you better understand the Fund's financial performance since its inception. Certain information reflects financial results for a single Fund share. Total return represents the rate you would have earned (or lost) on an investment in the Fund, assuming reinvestment of all dividends and distributions. The information for the fiscal year or period ended November 30, 2018, November 30, 2017 and November 30, 2016 has been audited by Cohen & Company, Ltd., an independent registered public accounting firm, whose report, along with the Fund's financial statements, is included in the annual report, which is available upon request.

Per Share Data and Ratios for a Share of Beneficial Interest Outstanding Throughout Each Period Presented

	Class N		
	For the Year Ended November 30, 2018	For the Year Ended November 30, 2017	For the Period Ended November 30, 2016*

Ratio of net expenses to average net assets	1.65%	1.65%	1.65% ⁽⁷⁾
Ratio of net investment income to average net assets	0.73%	0.17%	0.05% ⁽⁷⁾
Portfolio Turnover Rate	14%	8%	6% ⁽⁵⁾

* Moerus Worldwide Value Fund commenced operations on May 31, 2016.

(1) Per share amounts calculated using the average shares method, which more appropriately presents the per share data for the period.

(2) Less than \$0.005 per share.

(3) Total returns shown exclude the effect of applicable sales loads/redemption fees. Total returns are historical in nature and assume changes in share price, reinvestment of dividends and capital gain distributions, if any. Had the Adviser not absorbed a portion of the Fund expenses, total returns would have been lower.

(4) As a result of a trade error, the Fund's Class N experienced a loss totaling \$21 for the year ended November 30, 2018, all of which was reimbursed by the Adviser; there was no effect on total return due to trade error. (Note 7)

(5) Not annualized.

(6) Represents the ratio of expenses to average net assets absent fee waivers and/or expense reimbursements by the Adviser.

(7) Annualized.

Ratio of gross expenses to average net assets ⁽⁶⁾	1.62%	2.03%	10.22% ⁽⁷⁾
Ratio of net expenses to average net assets	1.40%	1.40%	1.40% ⁽⁷⁾
Ratio of net investment income (loss) to average net assets	1.00%	0.47%	(0.08)% ⁽⁷⁾
Portfolio Turnover Rate	14%	8%	6% ⁽⁵⁾

* Moerus Worldwide Value Fund commenced operations on May 31, 2016.

(1) Per share amounts calculated using the average shares method, which more appropriately presents the per share data for the period.

(2) Less than \$0.005 per share.

(3) Total returns shown exclude the effect of applicable sales loads/redemption fees. Total returns are historical in nature and assumes changes in share price, reinvestment of dividends and capital gain distributions, if any. Had the Adviser not absorbed a portion of the Fund expenses, total returns would have been lower.

(4) As a result of a trade error, the Fund's Institutional Class experienced a loss totaling \$900 for the year ended November 30, 2018, all of which was reimbursed by the Adviser; there was no effect on total return due to trade error. (Note 7)

(5) Not annualized.

(6) Represents the ratio of expenses to average net assets absent fee waivers and/or expense reimbursements by the Adviser.

(7) Annualized.

PRIVACY NOTICE

NORTHERN LIGHTS FUND TRUST IV

Rev. February 2019

FACTS

WHAT DOES NORTHERN LIGHTS FUND TRUST IV DO WITH YOUR PERSONAL INFORMATION?

Why?

Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some, but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

What?

The types of personal information we collect and share depends on the product or service that you have with us. This information can include:

- Social Security number and wire transfer instructions
- account transactions and transaction history
- investment experience and purchase history

When you are *no longer* our customer, we continue to share your information as described in this notice.

How?

All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Northern Lights Fund Trust IV chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information:	Does Northern Lights Fund Trust IV share information?	Can you limit this sharing?
