FUND SUMMARY

Investment Objective: The Fund seeks total return from income and capital appreciation.

Fees and Expenses of the Fund: This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below. You may qualify for sales charge discounts on purchases of Class A shares if you and your family invest, or agree to invest in the future, at least \$250,000 in the Fund. More information about these and other discounts is available from your financial intermediary and in **How to Purchase Shares** on page 11 of the Prospectus.

Shareholder Fees (fees paid directly from your investment)	Class A
Maximum Sales Charge (Load) Imposed on Purchases (as a % of offering price)	4.00%
Maximum Deferred Sales Charge (Load) (as a % of original purchase price)	0.50%
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and other Distributions	None
Redemption Fee (as a % of amount redeemed if held less than 30 days)	1.00%
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	1.00%
Distribution and Service (12b-1) Fees	0.25%
Other Expenses	1.38%
Total Annual Fund Operating Expenses	2.63%
Fee Waiver and Reimbursement ⁽¹⁾	<u>(0.88)%</u>
Total Annual Fund Operating Expenses After Fee Waiver and Reimbursement	1.75%

- (1) The Adviser has contractually agreed to reduce its fees and to reimburse expenses, at least until April 30, 2024, to ensure that total annual fund operating expenses after fee waiver and/or reimbursement, (excluding any front-end or contingent deferred loads, brokerage fees and commissions, acquired fund fees and expenses, fees and expenses associated with instruments in other collective investment vehicles or derivative instruments (including for example options and swap fees and expenses), borrowing costs (such as interest and dividend expense on securities sold short), taxes, and extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees and contractual indemnification of Fund service providers (other than the Adviser))) will not exceed 1.75% of average daily net assets attributable to Class A. These fee waivers and expense reimbursements are subject to possible recoupment from the Fund in future years on a rolling three-year basis (within the three years after the fees have been waived or reimbursed) if such recoupment can be achieved within the foregoing expense limits. This agreement may be terminated only by the Fund's Board of Trustees on 60 days' written notice to the Adviser.

Effective January 30, 2020, Class C shares of the Fund were converted into Class A shares. Accordingly, the Fund will no longer accept purchase orders from any investor for Class C shares.

Example: This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

<u>Class</u>	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Class A	\$571	\$1,105	\$1,644	\$3,183

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the fiscal year ended December 31, 2022, the Fund's portfolio turnover rate was 25% of the average value of its portfolio.

Principal Investment Strategies: Beech Hill Advisors, Inc. (the “Adviser”) seeks to achieve the Fund’s investment objective by investing primarily in:

- equity securities
- fixed income securities, and
- cash equivalents

selected using the Adviser’s asset allocation strategy. The Fund defines equity securities as common stock and convertible preferred stock of US companies as well as American Depositary Receipts (“ADRs”) representing common stock and convertible preferred stock of foreign issuers. ADRs are receipts issued by an American bank or trust company evidencing ownership of underlying securities issued by a foreign issuer. The Fund defines fixed income securities as notes, bonds, non-convertible preferred shares and other evidences of indebtedness. The Fund will invest only in US Dollar denominated securities. However, it invests without restriction to issuer capitalization or country. Nonetheless, the Adviser anticipates that the Fund’s equity investments will be predominantly in securities of large capitalization issuers (those with market capitalizations over \$10 billion).

Individual fixed income securities are purchased without restriction as to maturity. The Fund restricts fixed income securities to those rated BB- or higher by Standard and Poor’s Ratings Group (“S&P”) or equivalently rated by another nationally recognized statistical rating organization (“NRSRO”) or, if unrated, determined by the Adviser to be of similar quality. The Fund may also employ leverage including bank borrowing of up to 33% of the Fund’s assets (defined as net assets plus borrowing for investment purposes).

The Fund seeks income from both dividends paid by equity securities and interest payments from fixed income securities. It seeks capital appreciation from equity and fixed income securities. The Adviser will also seek to preserve principal when it believes equity market conditions are unfavorable by increasing allocations to fixed income securities and cash equivalents.

The Adviser buys and sells securities to meet its asset allocation targets. Additionally, it sells specific securities when a price target is achieved, the investment is no longer considered undervalued, or an issuer’s fundamental financial outlook has deteriorated.

Principal Investment Risks: *As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. Many factors affect the Fund’s net asset value and performance.*

- **Convertible Securities Risk:** Convertible securities are hybrid securities that have characteristics of both fixed income and equity securities and are subject to risks associated with both fixed income and equity securities.
- **Credit Risk:** Issuers may not make interest or principal payments on securities, resulting in losses to the Fund. In addition, the credit quality of securities held by the Fund may be lowered if an issuer’s financial condition changes. These risks are more pronounced for securities with lower credit quality, such as those rated in the BB category by S&P.
- **Emerging Markets Risk:** The Fund may be exposed to emerging market economies through its investment in ADRs of issuers from emerging markets. Emerging market countries may have relatively unstable governments, weaker economies, and less-developed legal systems with fewer security holder rights. ADRs of emerging market issuers also tend to be less liquid.
- **Fixed Income Risk:** Typically, a rise in interest rates causes a decline in the value of fixed income securities.
- **Foreign Investment Risk:** Foreign investing, indirectly through ADRs, involves exposure to adverse fluctuations in foreign currency values, adverse political, social and economic developments, less liquidity, greater volatility, less developed or less efficient trading markets, political instability and differing auditing and legal standards.
- **Issuer-Specific Risk:** The value of a specific security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole.
- **Leverage Risk:** Using borrowing to increase the size of the Fund’s investment portfolio will cause the Fund to incur additional expenses and magnify the Fund’s gains or losses.
- **Management Risk:** The Adviser’s reliance on its asset allocation strategy and its judgments about the attractiveness, value and potential appreciation of particular currencies and securities in which the Fund invests may prove to be incorrect and may not produce the desired results.
- **Market Risk:** Overall securities market risks may affect the value of individual securities which the Fund invests. Factors such as domestic and foreign economic growth and market conditions, interest rate levels, and political events affect the securities and currency markets. When the value of the Fund’s investments goes down, your investment in the Fund decreases in value and you could lose money.

- Market and Geopolitical Risk:** The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, climate change and climate-related events, pandemics, epidemics, terrorism, international conflicts, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years, such as terrorist attacks around the world, natural disasters, social and political discord or debt crises and downgrades, among others, may result in market volatility and may have long term effects on both the U.S. and global financial markets. It is difficult to predict when similar events affecting the U.S. or global financial markets may occur, the effects that such events may have and the duration of those effects. Any such event(s) could have a significant adverse impact on the value and risk profile of the Fund. The novel coronavirus (COVID-19) global pandemic and the aggressive responses taken by many governments, including closing borders, restricting international and domestic travel, and the imposition of prolonged quarantines or similar restrictions, as well as the forced or voluntary closure of, or operational changes to, many retail and other businesses, had negative impacts, and in many cases severe negative impacts, on markets worldwide. It is not known how long such impacts, or any future impacts of other significant events described above, will or would last, but there could be a prolonged period of global economic slowdown, which may impact your investment. Therefore, the Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. During a general market downturn, multiple asset classes may be negatively affected. Changes in market conditions and interest rates can have the same impact on all types of securities and instruments. In times of severe market disruptions you could lose your entire investment.
- Preferred Stock Risk:** The value of preferred stocks will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of preferred stock. Preferred stocks are also subject to credit risk, which is the possibility that an issuer of preferred stock will fail to make its dividend payments.

Performance: The bar chart and performance table below show the variability of the Fund’s returns, which is some indication of the risks of investing in the Fund. The bar chart shows performance of the Fund’s Class A shares for each full calendar year since the Fund’s inception. The performance table compares the performance of the Fund’s Class A shares over time to the performance of a broad-based securities market index. You should be aware that the Fund’s past performance (before and after taxes) may not be an indication of how the Fund will perform in the future. Updated performance information is available at no cost by visiting www.beechhilltotalreturnfund.com or by calling 1-877-760-0005.

Class A Annual Total Return For Calendar Years Ended December 31

Best Quarter	Second Quarter 2020	17.77%
Worst Quarter	First Quarter 2020	(20.52)%

Performance Table
Average Annual Total Returns
(For periods ended December 31, 2022)

	One Year	Five Years	Ten Years (or Life of the Fund)
Class A shares return before taxes	(22.72)%	2.38%	5.22%
Class A shares return after taxes on distributions	(22.73)%	1.47%	4.48%
Class A shares return after taxes on distributions and sale of Fund shares	(13.45)%	1.81%	4.09%
S&P 500® Index ⁽¹⁾	(18.11)%	9.42%	12.56%
Bloomberg Barclays US Aggregate Bond Index ⁽²⁾	(13.01)%	0.02%	1.88%

(1) The S&P 500® Index is an unmanaged market capitalization-weighted index of 500 of the largest capitalized U.S. domiciled companies. Index returns assume reinvestment of dividends. Unlike the Fund's returns, however, they do not reflect any fees or expenses. An investor cannot invest directly in an index.

(2) Bloomberg Barclays US Aggregate Bond Index is a broad-based benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market. This includes Treasuries, government-related and corporate securities, mortgage-backed securities, asset-backed securities and collateralized mortgage-backed securities.

After-tax returns were calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who hold shares of the Fund through tax-deferred arrangements, such as 401(k) plans or Individual Retirement Accounts (IRAs).

Investment Adviser: Beech Hill Advisors, Inc.

Portfolio Manager: William Wurm, Partner and Senior Portfolio Manager of the Adviser, and Paul Cantor, President and Chief Executive Officer of the Adviser, have served the Fund as its portfolio managers since it commenced operations in 2011. Each portfolio manager is primarily and jointly responsible for the day-to-day management of the Fund's portfolio.

Purchase and Sale of Fund Shares: The minimum initial investment in Class A shares is \$500 and the minimum subsequent investment is \$250. You may purchase and redeem shares of the Fund on any day that the New York Stock Exchange is open. Redemption requests may be made in writing, by telephone, or through a financial intermediary and will be paid by ACH, check or wire transfer.

Tax Information: Dividends and capital gain distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are taxable to you at either ordinary income or capital gains tax rates unless you are investing through a tax-deferred plan such as an IRA or 401(k) plan.

Payments to Broker-Dealers and Other Financial Intermediaries: If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS

Investment Objective

The Adviser seeks total return from income and capital appreciation. The Fund's investment objective may be changed by the Fund's Board of Trustees upon 60 days' written notice to shareholders.

Principal Investment Strategies

The Fund's Adviser seeks to achieve the Fund's investment objective by investing primarily in:

- equity securities
- fixed income securities, and
- cash equivalents

selected using the Adviser's asset allocation strategy. The Fund defines equity securities as common stock and convertible preferred stock of US companies as well as American Depositary Receipts ("ADRs") representing common stock and convertible preferred stock of foreign issuers. ADRs are receipts issued by an American bank or trust company evidencing ownership of underlying securities issued by a foreign issuer. The Fund defines fixed income securities as notes, bonds, non-convertible preferred shares and other evidences of indebtedness. The Fund will invest only in US Dollar denominated securities. However, it invests without restriction to issuer capitalization or country. Nonetheless, the Adviser anticipates that the Fund's equity investments will be predominantly in securities of large capitalization issuers (those with market capitalizations over \$10 billion).

Individual fixed income securities are purchased without restriction as to maturity. The Fund restricts fixed income securities to those rated BB- or higher by Standard and Poor's Ratings Group ("S&P") or equivalently rated by another nationally recognized statistical rating organization ("NRSRO") or, if unrated, determined by the Adviser to be of similar quality. The Fund may also employ leverage including bank borrowing of up to 33% of the Fund's assets (defined as net assets plus borrowing for investment purposes).

The Fund seeks income from both dividends paid by equity securities and interest payments from fixed income securities.

It seeks capital appreciation from equity and fixed income securities. The Adviser will also seek to preserve principal when it believes equity market conditions are unfavorable by increasing allocations to fixed income securities and cash equivalents. Overall, the Adviser believes this approach will control market risk through balanced asset allocation and relatively high levels of cash equivalents during periods of economic contraction and/or market volatility. The Adviser further anticipates opportunistically adding to the Fund's market exposure during periods of market weakness, when it believes prices have bottomed; and conversely, opportunistically reducing market exposure when it believes market prices have peaked.

Adviser's Asset Allocation and Security Selection Process

Initially, the Adviser assesses the economy's overall outlook and expected returns for the equity, fixed income and cash equivalent sectors of the securities market by using top down macro-economic research, technical analysis and historical valuation measures such as equity market price to earnings ratio (P/E) and long-term and short-term interest rate levels. Next, the Adviser generates sector-specific forecasts for returns by relying upon proprietary in-house analysis, third party research and issuer-provided outlooks, earnings guidance and forecasts. Using these inputs, the Adviser sets asset allocation targets within the broad ranges described in the table above. However, the Adviser will be flexible in investment selection in regards to market capitalization, industry focus and fixed income security average maturity as well as in the asset allocation among asset classes. The Adviser seeks to maximize returns with tactical rotations into what it believes to be undervalued segments of the market and within sub-segments such as those defined by market capitalization or economic sector.

The Adviser's initial equity universe is composed of equities in the S&P 500 Index and comparable ADRs. It then quantitatively screens the universe of equity securities looking at valuations versus sector peers, the general market, and historic valuations in order to detect pricing discrepancies that could lead to outperformance in the future. The Adviser looks for securities that are trading in their lower quartile in the relevant metric for their respective industries. These equities typically have underperformed due to individual company issues or sector unpopularity due to macroeconomic concerns. The Adviser looks for 20% – 25% appreciation potential to its mean valuation metric and intermediate term catalysts that will improve the valuation perception. Opportunities may be sector wide or security specific.

Once a potential equity candidate is detected, the Adviser seeks to identify and review the reasons for the out-of-favor valuation and produce an internal risk return scenario analysis based on various fundamental outcomes. Overall, this selection process is expected to produce no more than 50 equity holdings at the onset. Concurrently, if the Adviser determines the perceived negatives to be security-specific, temporary in nature and fixable, it will review the company management's remedial plan for credibility. Or, if the Adviser determines the discounted valuations to be sector wide, it reviews the industry, political and/or macroeconomic factors leading to this discount to determine what would change perception and improve valuation. Favorable resolution of an equity's outlook throughout the process would merit inclusion in the portfolio.

Once included in the portfolio, an equity and its "investment thesis" are monitored continuously with an eye on ongoing fundamental performance, valuation and achieving perceived benchmarks. Upon reaching the target multiple and price, the Adviser will begin to sell the position, either in increments or at once depending upon each individual position. If fundamentals deteriorate, benchmarks are not realized, or pricing declines, the position would be considered for a sale. Macroeconomic and political factors also weigh in the sale process. Additionally, the Adviser buys and sells securities to meet its asset allocation targets.

The Adviser's initial fixed income universe is composed of fixed income securities rated BB- or higher. From this universe the Adviser selects specific securities that it believes to have stable to improving credit fundamentals and a relatively high yield when compared to a peer group of similarly rated securities. The Fund's average maturity at any time will depend on the slope of the fixed income yield curve and the Adviser's assessment of the direction of interest rates. Additionally, the Adviser buys and sells fixed income securities to meet its asset allocation targets and will sell specific fixed income securities if the issuer's credit quality deteriorates or if a price target is met.

When the Adviser increases the Fund's allocation to cash equivalents to preserve principal, it selects among high-quality short-term debt securities and money market instruments including: shares of money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances and U.S. Government securities. The Adviser may also buy and sell cash equivalents to meet its overall asset allocation targets.

Principal Investment Risks:

- **Convertible Securities Risk:** Convertible securities subject the Fund to the risks associated with both fixed-income securities and equity securities. If a convertible security's investment value is greater than its conversion value, its price likely increase when interest rates fall and decrease when interest rates rise. If the conversion value exceeds the investment value, the price of the convertible security will tend to fluctuate directly with the price of the underlying equity security.
- **Credit Risk:** There is a risk that issuers will not make interest and or principal payments, resulting in losses to the Fund. In addition, the credit quality of fixed income securities may be lowered if an issuer's financial condition changes or the issuer is likely to default. Lower credit quality may lead to greater volatility in the price of a security and in shares of the Fund. Lower credit quality also may affect liquidity and make it difficult to sell the security. Default, or the market's perception that an issuer is likely to default, could reduce the value and liquidity of securities held by the Fund, thereby reducing the value of your investment in Fund shares. In addition, default may cause the Fund to incur expenses, directly or indirectly, in seeking recovery of principal or interest on its portfolio holdings. These risks are more pronounced for securities with lower credit quality, such as those rated in the BB category by S&P.
- **Emerging Markets Risk:** The Fund may invest a portion of its assets in ADRs from issuers in countries with newly organized or less developed securities markets. There are typically greater risks involved in investing in emerging markets securities. Generally, economic structures in these countries are less diverse and mature than those in developed countries and their political systems tend to be less stable. Emerging market economies may be based on only a few industries, therefore security issuers, including governments, may be more susceptible to economic weakness and more likely to default. Emerging market countries also may have relatively unstable governments, weaker economies, and less-developed legal systems with fewer security holder rights. Investments in emerging market countries may be affected by government policies that restrict foreign investment in certain issuers or industries. The potentially smaller size of their securities markets and lower trading volumes can make investments relatively illiquid and potentially more volatile than investments in developed countries, and such securities may be subject to abrupt and severe price declines. Due to this relative lack of liquidity, the Fund may have to accept a lower price or may not be able to sell a portfolio security at all. An inability to sell a portfolio position can adversely affect the Fund's value or prevent the Fund from being able to meet cash obligations or take advantage of other investment opportunities.

- **Fixed Income Risk:** When the Fund invests in fixed income securities, the value of your investment in the Fund will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of fixed income securities. In general, the market price of debt securities with longer maturities will increase or decrease more in response to changes in interest rates than shorter-term securities. Other risk factors include credit risk (the debtor may default) and prepayment risk (the debtor may pay its obligation early, reducing the amount of interest payments). These risks could affect the value of a particular investment, possibly causing the Fund's share price and total return to be reduced and fluctuate more than other types of investments.
- **Foreign Investment Risk:** Foreign investing through ADRs involves risks not typically associated with U.S. investments, including adverse fluctuations in foreign currency values, adverse political, social and economic developments, less liquidity, greater volatility, less developed or less efficient trading markets, political instability and differing auditing and legal standards. Investing in emerging markets imposes risks different from, or greater than, risks of investing in foreign developed countries.
- **Issuer-Specific Risk:** The value of a specific security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole. The value of securities of smaller issuers can be more volatile than those of larger issuers. The value of certain types of securities can be more volatile due to increased sensitivity to adverse issuer, political, regulatory, market, or economic developments.
- **Leverage Risk:** Using borrowing to increase the size of the Fund's investment portfolio will cause the Fund to incur additional expenses and magnify the Fund's gains or losses. The use of leverage may also cause the Fund to have higher expenses (especially interest and dividend expenses) than those of mutual funds that do not use such techniques. The use of leverage may cause the Fund to liquidate portfolio positions when it would not be advantageous to do so in order to satisfy its obligations.
- **Management Risk:** The net asset value ("NAV") of the Fund changes daily based on the performance of the securities in which it invests. The Adviser's reliance on its asset allocation strategy and its judgments about the attractiveness, value and potential appreciation of particular securities in which the Fund invests may prove to be incorrect and may not produce the desired results. There can be no assurance that the securities selected by the Adviser will produce positive returns.
- **Market Risk:** The NAV of the Fund will fluctuate based on changes in the value of the securities in which the Fund invests. The Fund invests in securities which may be more volatile and carry more risk than some other forms of investment. The price of securities may rise or fall because of economic or political changes. Security prices in general may decline over short or even extended periods of time. Market prices of securities in broad market segments may be adversely affected by price trends in commodities, interest rates, exchange rates or other factors wholly unrelated to the value or condition of an issuer.
- **Market and Geopolitical Risk:** The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, climate change and climate-related events, pandemics, epidemics, terrorism, international conflicts, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years, such as terrorist attacks around the world, natural disasters, social and political discord or debt crises and downgrades, among others, may result in market volatility and may have long term effects on both the U.S. and global financial markets. It is difficult to predict when similar events affecting the U.S. or global financial markets may occur, the effects that such events may have and the duration of those effects. Any such event(s) could have a significant adverse impact on the value and risk profile of the Fund. The novel coronavirus (COVID-19) global pandemic and the aggressive responses taken by many governments, including closing borders, restricting international and domestic travel, and the imposition of prolonged quarantines or similar restrictions, as well as the forced or voluntary closure of, or operational changes to, many retail and other businesses, had negative impacts, and in many cases severe negative impacts, on markets worldwide. It is not known how long such impacts, or any future impacts of other significant events described above, will or would last, but there could be a prolonged period of global economic slowdown, which may impact your investment. Therefore, the Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. During a general market downturn, multiple asset classes may be negatively affected. Changes in market conditions and interest rates can have the same impact on all types of securities and instruments. In times of severe market disruptions you could lose your entire investment.

- **Preferred Stock:** The Fund may invest in preferred stocks. The value of preferred stocks will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of preferred stock. Preferred stocks are also subject to credit risk, which is the possibility that an issuer of preferred stock will fail to make its dividend payments. Preferred stock prices tend to move more slowly upwards than common stock prices.

Temporary Investments: To respond to adverse market, economic, political or other conditions, the Fund may invest 100% of its total assets, without limitation, in high-quality short-term debt securities and money market instruments. These short-term debt securities and money market instruments include: shares of money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. While the Fund is in a defensive position, the opportunity to achieve its investment objective will be limited. Furthermore, to the extent that the Fund invests in money market mutual funds for cash positions, there will be some duplication of expenses because the Fund pays its pro-rata portion of such money market funds' advisory fees and operational fees. The Fund may also invest a substantial portion of its assets in such instruments at any time to maintain liquidity or pending selection of investments in accordance with its policies.

Portfolio Holdings Disclosure: A description of the Fund's policies regarding the release of portfolio holdings information is available in the Fund's Statement of Additional Information.

Cybersecurity: The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices potentially can be breached. The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach.

Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate its NAV, impediments to trading; the inability of the Fund, the Adviser, and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Similar adverse consequences could result from cybersecurity breaches affecting issuers of securities in which the Fund invests; counterparties with which the Fund engages in transactions; governmental and other regulatory authorities; exchange and other financial market operators, banks, brokers, dealers, insurance companies, and other financial institutions (including financial intermediaries and service providers for the Fund's shareholders); and other parties. In addition, substantial costs may be incurred by these entities in order to prevent any cybersecurity breaches in the future.

MANAGEMENT

Investment Adviser

Beech Hill Advisors, Inc., located at 880 Third Avenue, 16th Floor, New York, NY 10022, serves as the investment adviser for the Fund. The Adviser was formed in 1987 and serves individuals and institutions. As of December 31, 2022, it had approximately \$265 million in assets under management. Subject to the supervision of the Fund's Board of Trustees, the Adviser is responsible for managing the Fund's investments, executing transactions and providing related administrative services and facilities under an Investment Advisory Agreement between the Trust, with respect to the Fund, and the Adviser.

The management fee set forth in the Investment Advisory Agreement is equivalent to an annual fee of 1.00% of the Fund's average daily net assets, to be paid on a monthly basis. The Adviser has contractually agreed to waive its management fees and/or to make payments to limit Fund expenses, until April 30, 2024 so that the total annual operating expenses (excluding any front-end or contingent deferred loads, brokerage fees and commissions, acquired fund fees and expenses, fees and expenses associated with instruments in other collective investment vehicles or derivative instruments (including for example options and swap fees and expenses), borrowing costs (such as interest and dividend expense on securities sold short), taxes, and extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees and contractual indemnification of Fund service providers (other than the Adviser))) of the Fund do not exceed 1.75% of average Fund assets attributable to Class A shares. Waivers and expense reimbursements may be recouped by the Adviser from the Fund, to the extent that overall expenses fall below specified limits, within three years after the amounts were waived or reimbursed. For the fiscal year ended December 31, 2022, the Adviser earned management fees equivalent to 0.12% of the average net assets of the Fund. A discussion regarding the basis for the Board of Trustees' approval of the Investment Advisory Agreement is available in the Fund's annual shareholder report dated December 31, 2022.

Portfolio Managers

William Wurm, CFA

Partner and Senior Portfolio Manager

Mr. Wurm joined the Adviser in 2001, becoming a partner in 2003. Mr. Wurm concentrates on longer-term investment strategy, asset allocation and equity selection. Mr. Wurm is a graduate of Williams College and is a Chartered Financial Analyst (CFA).

Paul Cantor

President and CEO

Mr. Cantor co-founded the Adviser in 1987 and serves as the firm's chief investment officer, directing a team of highly experienced advisors and portfolio managers. Mr. Cantor has been an investment manager and portfolio strategist since 1968. He is responsible for financial planning and portfolio strategies. Mr. Cantor received his undergraduate degree at Dartmouth College, a law degree from Columbia University and pursued a post-graduate specialization in taxation at New York University.

The Fund's Statement of Additional Information provides additional information about the portfolio managers' compensation structure, other accounts managed by the portfolio managers, and the portfolio managers' ownership of shares of the Fund.

HOW SHARES ARE PRICED

The NAV and offering price (NAV plus any applicable sales charges) of shares is determined as of the close of the New York Stock Exchange (“NYSE”), generally 4:00 p.m. (Eastern Time), on each day the NYSE is open for business. NAV is computed by determining the aggregate market value of all assets of the Fund, less its liabilities, divided by the total number of shares outstanding ((assets-liabilities)/number of shares = NAV). The NYSE is closed on weekends and New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Juneteenth, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The NAV takes into account the expenses and fees of the Fund, including management, administration, and distribution fees, which are accrued daily. The determination of NAV for a particular day is applicable to all applications for the purchase of shares, as well as all requests for the redemption of shares, received by the Fund (or an authorized broker or agent, or its authorized designee) before the close of trading on the NYSE on that day.

Generally, the Fund’s securities are valued each day at the last quoted sales price on each security’s primary exchange. Securities traded or dealt in upon one or more securities exchanges (whether domestic or foreign) for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid and ask prices on such exchange. If market quotations are not readily available, securities will be valued at their fair market value as determined in good faith in accordance with procedures approved by the Board and evaluated by the Board as to the reliability of the fair value method used. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security. The fair value prices can differ from market prices when they become available or when a price becomes available. The Board has designated the Adviser as its “Valuation Designee” to execute these procedures. The Adviser may also enlist third party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity. It is possible that the valuation determined by matrix pricing for a debt security may differ materially from the value that would be realized if the security were sold. During times of market volatility, it may be necessary for the Fund to utilize its fair value procedures to value (as described below) certain debt securities.

The Fund may use independent pricing services to assist in calculating the value of the Fund’s securities. In addition, market prices for foreign securities, if any, are not determined at the same time of day as the NAV for the Fund. Because the Fund may invest in securities primarily listed on foreign exchanges, and these exchanges may trade on weekends or other days when the Fund does not price its shares, the value of some of the Fund’s portfolio securities may change on days when you may not be able to buy or sell Fund shares. In computing the NAV, the Fund values foreign securities held by the Fund at the latest closing price on the exchange in which they are traded immediately prior to closing of the NYSE. Prices of foreign securities quoted in foreign currencies are translated into U.S. dollars at current rates. If events materially affecting the value of a security in the Fund’s portfolio, particularly foreign securities, occur after the close of trading on a foreign market but before the Fund prices its shares, the security will be valued at fair value. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the Adviser may need to price the security using the Fund’s fair value pricing guidelines. Without a fair value price, short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund’s portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund’s NAV by short term traders. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other mutual funds to determine NAV, or from the price that may be realized upon the actual sale of the security.

With respect to any portion of the Fund’s assets that are invested in one or more open-end management investment companies registered under the 1940 Act, if any, each Fund’s NAV is calculated based upon the NAVs of those open-end management investment companies, and the prospectuses for these companies explain the circumstances under which those companies will use fair value pricing and the effects of using fair value pricing.

HOW TO PURCHASE SHARES

Share Class: This Prospectus describes the Class A shares offered by the Fund. Effective January 30, 2020, Class C shares of the Fund were converted into Class A shares. Accordingly, the Fund no longer accepts purchase orders from any investor for Class C shares.

Class A Shares

Class A shares are offered at their public offering price, which is NAV per share plus the applicable sales charge. The sales charge varies, depending on how much you invest. There are no sales charges on reinvested distributions. The Fund reserves the right to waive sales charges. The following sales charges apply to your purchases of Class A shares of the Fund:

Amount Invested	Sales Charge as a % of Offering Price⁽¹⁾	Sales Charge as a % of Amount Invested	Dealer Reallowance⁽²⁾
Under \$250,000	4.00%	4.17%	3.50%
\$250,000 to \$499,999	2.00%	2.04%	1.50%
\$500,000 to \$999,999	1.00%	1.01%	0.50%
\$1,000,000 and above	0.00%	0.00%	See Below

(1) Offering price includes the front-end sales load. The sales charge you pay may differ slightly from the amount set forth above because of rounding that occurs in the calculation used to determine your sales charge.

(2) Represents the amount of the sales charge retained by the selling broker-dealer.

Authorized broker-dealers may retain commissions on purchases of Class A shares over \$1 million calculated as follows: 0.50% on purchases between \$1 million and \$3 million, 0.35% on amounts over \$3 million but less than \$5 million, 0.25% on amounts over \$5 million. The commission rate is determined based on the purchase amount combined with the current market value of existing investments in Class A shares. The Fund shall be reimbursed for such commissions.

As shown, investors that purchase \$1,000,000 or more Class A shares will not pay any initial sales charge on the purchase. However, purchases of \$1,000,000 or more of Class A shares may be subject to a Contingent Deferred Sales Charge ("CDSC") of up to 0.50% on shares redeemed within the first 18 months after their purchase, in the amount of the commissions paid on those shares redeemed. Shares held longest will be treated as being redeemed first and shares held shortest as being redeemed last. Shares held for 18 months or more are not subject to the CDSC.

You may be able to buy Class A Shares without a sales charge (i.e. "load-waived") when you are:

- reinvesting dividends or distributions;
- participating in an investment advisory or agency commission program under which you pay a fee to an investment advisor or other firm for portfolio management or brokerage services;
- exchanging an investment in Class A Shares of another fund for an investment in the Fund;
- a current or former trustee of the Trust;
- an employee (including the employee's spouse, domestic partner, children, grandchildren, parents, grandparents, siblings, and any dependent of the employee, as defined in section 152 of the Internal Revenue Code) of the Adviser or its affiliates or of a broker-dealer authorized to sell shares of the Fund;
- purchasing shares through the Adviser; or
- purchasing shares through a financial services firm (such as a broker-dealer, investment adviser or financial institution) that has a special arrangement with the Fund.

Whether a sales charge waiver is available for your retirement plan or charitable account depends upon the policies and procedures of your intermediary. Please consult your financial adviser for further information.

Right of Accumulation

For the purposes of determining the applicable reduced sales charge, the right of accumulation allows you to include prior purchases of Class A shares of the Fund as part of your current investment as well as reinvested dividends. To qualify for this option, you must be either:

- an individual;
- an individual and spouse purchasing shares for your own account or trust or custodial accounts for your minor children; or
- a fiduciary purchasing for any one trust, estate or fiduciary account, including employee benefit plans created under Sections 401, 403 or 457 of the Internal Revenue Code, including related plans of the same employer.

If you plan to rely on this right of accumulation, you must notify the Fund's distributor, Northern Lights Distributors, LLC at the time of your purchase. You will need to give the distributor your account numbers. Existing holdings of family members or other related accounts of a shareholder may be combined for the purposes of determining eligibility. If applicable, you will need to provide the account numbers of your spouse and your minor children as well as the ages of your minor children.

Letter of Intent

The letter of intent allows you to count all investments within a 13-month period in Class A shares of the Fund as if you were making them all at once for the purposes of calculating the applicable reduced sales charges. The minimum initial investment under a letter of intent is 5% of the total letter of intent amount. The letter of intent does not preclude the Fund from discontinuing sales of its shares. You may include a purchase not originally made pursuant to a letter of intent under a letter of intent entered into within 90 days of the original purchase. To determine the applicable sales charge reduction, you may also include (1) the cost of shares of the Fund which were previously purchased at a price including a front-end sales charge during the 90-day period prior to the distributor receiving the letter of intent, and (2) the historical cost of shares of other funds you currently own acquired in exchange for shares the Fund purchased during that period at a price including a front-end sales charge. You may combine purchases and exchanges by family members (limited to spouse and children, under the age of 21, living in the same household). You should retain any records necessary to substantiate historical costs because the Fund, the transfer agent and any financial intermediaries may not maintain this information. Shares acquired through reinvestment of dividends are not aggregated to achieve the stated investment goal.

Purchasing Shares: You may purchase shares of the Fund by sending a completed application form to the following address:

via Regular Mail
Beech Hill Total Return Fund
c/o Ultimus Fund Solutions, LLC
P.O. Box 541150
Omaha, Nebraska 68154

or Overnight Mail
Beech Hill Total Return Fund
c/o Ultimus Fund Solutions, LLC
4221 North 203rd Street, Suite 100
Elkhorn, Nebraska 68022-3474

The USA PATRIOT Act requires financial institutions, including the Fund, to adopt certain policies and programs to prevent money-laundering activities, including procedures to verify the identity of customers opening new accounts. As requested on the Application, you should supply your full name, date of birth, social security number and permanent street address. Mailing addresses containing a P.O. Box will not be accepted. This information will assist the Fund in verifying your identity. Until such verification is made, the Fund may temporarily limit additional share purchases. In addition, the Fund may limit additional share purchases or close an account if it is unable to verify a shareholder's identity. As required by law, the Fund may employ various procedures, such as comparing the information to fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct.

Purchase through Brokers: You may invest in the Fund through brokers or agents who have entered into selling agreements with the Fund's distributor. The brokers and agents are authorized to receive purchase and redemption orders on behalf of the Fund. Some brokers are authorized to designate other intermediaries to receive purchase and redemption orders on the Fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or its designee receives the order. The broker or agent may set their own initial and subsequent investment minimums. You may be charged a fee if you use a broker or agent to buy or redeem shares of the Fund. Finally, various servicing agents use procedures and impose restrictions that may be in addition to, or different from those applicable to investors purchasing shares directly from the Fund. You should carefully read the program materials provided to you by your servicing agent.

Purchase by Wire: If you wish to wire money to make an investment in the Fund, please call the Fund at 1-877-760-0005 for wiring instructions and to notify the Fund that a wire transfer is coming. Any commercial bank can transfer same-day funds via wire. The Fund will normally accept wired funds for investment on the day received if they are received by the Fund's designated bank before the close of regular trading on the NYSE. Your bank may charge you a fee for wiring same-day funds.

Automated Clearing House (ACH) Purchase

Current shareholders may purchase additional shares via Automated Clearing House ("ACH"). To have this option added to your account, please send a letter to the Fund requesting this option and supply a voided check for the bank account. Only bank accounts held at domestic institutions that are ACH members may be used for these transactions.

You may not use ACH transactions for your initial purchase of Fund shares. ACH purchases will be effective at the closing price per share on the business day after the order is placed. The Fund may alter, modify or terminate this purchase option at any time.

Shares purchased by ACH will not be available for redemption until the transactions have cleared. Shares purchased via ACH transfer may take up to 15 days to clear.

Automatic Investment Plan: You may participate in the Fund's Automatic Investment Plan, an investment plan that automatically moves money from your bank account and invests it in the Fund through the use of electronic funds transfers or automatic bank drafts. You may elect to make subsequent investments by transfers of a minimum of \$100 on specified days of each month into your established Fund account. Please contact the Fund at 1-877-760-0005 for more information about the Fund's Automatic Investment Plan.

Minimum and Additional Investment Amounts: The minimum initial investment in Class A and C shares is \$500, and the minimum subsequent investment is \$250. There is no minimum investment requirement when you are buying shares by reinvesting dividends and distributions from the Fund. The Fund reserves the right to waive any investment minimum requirement.

The Fund, however, reserves the right, in its sole discretion, to reject any application to purchase shares. Applications will not be accepted unless they are accompanied by a check drawn on a U.S. bank, thrift institutions, or credit union in U.S. funds for the full amount of the shares to be purchased. After you open an account, you may purchase additional shares by sending a check together with written instructions stating the name(s) on the account and the account number, to the above address. Make all checks payable to the Fund. The Fund will not accept payment in cash, cashier's checks or money orders. Also, to prevent check fraud, the Fund will not accept third party checks, U.S. Treasury checks, credit card checks or starter checks for the purchase of shares. Redemptions of Shares of the Fund purchased by check may be subject to a hold period until the check has been cleared by the issuing bank. To avoid such holding periods, Shares may be purchased through a broker or by wire, as described in this section.

Note: If your check or electronic payment does not clear, you will be responsible for any loss incurred by the funds and Ultimus Fund Solutions, LLC, the Fund's transfer agent, will charge a \$25 fee to defray bank charges.

When Order is Processed: All shares will be purchased at the NAV per share (plus applicable sales charges, if any) next determined after the Fund receives your application or request in good order. All requests received in good order by the Fund before 4:00 p.m. (Eastern time) will be processed on that same day. Requests received after 4:00 p.m. will be processed on the next business day.

Good Order: When making a purchase request, make sure your request is in good order. "Good order" means your purchase request includes:

- the name of the Fund
- the dollar amount of shares to be purchased
- a completed purchase application or investment stub
- check payable to the "Beech Hill Total Return Fund."

Retirement Plans: You may purchase shares of the Fund for your individual retirement plans. Please call the Funds at 1-877-760-0005 for the most current listing and appropriate disclosure documentation on how to open a retirement account.

HOW TO REDEEM SHARES

Redeeming Shares: You may redeem all or any portion of the shares credited to your account by submitting a written request for redemption to:

via Regular Mail
Beech Hill Total Return Fund
c/o Ultimus Fund Solutions, LLC
P.O. Box 541150
Omaha, Nebraska 68154

or Overnight Mail
Beech Hill Total Return Fund
c/o Ultimus Fund Solutions, LLC
4221 North 203rd Street, Suite 100
Elkhorn, Nebraska 68022-3474

The Fund typically expects that it will take up to 7 days following the receipt of your redemption request to pay out redemption proceeds by check or electronic transfer. The Fund typically expects to pay redemptions from cash, cash equivalents, proceeds from the sale of Fund shares, any lines of credit, and then from the sale of portfolio securities. These redemption payment methods will be used in regular and stressed market conditions.

Redemptions by Telephone: The telephone redemption privilege is automatically available to all new accounts. If you do not want the telephone redemption privilege, you must indicate this in the appropriate area on your account application or you must write to the Fund and instruct it to remove this privilege from your account. The proceeds, which are equal to number of shares times NAV less any applicable deferred sales charges or redemption fees, will be sent by mail to the address designated on your account or sent electronically, via ACH or wire, directly to your existing account in a bank or brokerage firm in the United States as designated on your application. If you own an IRA, you will be asked whether or not the Fund should withhold federal income tax. To redeem by telephone, call 1-877-760-0005.

During periods of high market activity, you may encounter higher than usual wait times. Please allow sufficient time to ensure that you will be able to complete your telephone transaction prior to market close. Neither the Fund nor its transfer agent will be held liable if you are unable to place your trade due to high call volume.

The Fund reserves the right to suspend the telephone redemption privileges with respect to your account if the name(s) or the address on the account has been changed within the previous 30 days. Neither the Fund, the transfer agent, nor their respective affiliates will be liable for complying with telephone instructions they reasonably believe to be genuine or for any loss, damage, cost or expenses in acting on such telephone instructions and you will be required to bear the risk of any such loss. The Fund or the transfer agent, or both, will employ reasonable procedures to determine that telephone instructions are genuine. If the Fund and/or the transfer agent do not employ these procedures, they may be liable to you for losses due to unauthorized or fraudulent instructions. These procedures may include, among others, requiring forms of personal identification prior to acting upon telephone instructions, providing written confirmation of the transactions and/or tape recording telephone instructions.

Redemptions through Broker: If shares of the Fund are held by a broker-dealer, financial institution or other servicing agent, you must contact that servicing agent to redeem shares of the Fund. The servicing agent may charge a fee for this service.

Redemptions by Wire: You may request that your redemption proceeds be wired directly to your bank account. The Fund's transfer agent imposes a \$15 fee for each wire redemption and deducts the fee directly from your account. Your bank may also impose a fee for the incoming wire.

Systematic Withdrawal Plan: If your individual account, IRA or other qualified plan account has a current account value of at least \$50,000, you may participate in the Fund's *Systematic* Withdrawal Plan, an investment plan that automatically moves money to your bank account from the Fund through the use of electronic funds transfers. You may elect to make subsequent withdrawals by transfers of a minimum of \$100 on specified days of each month into your established bank account. Please contact the Fund at 1-877-760-0005 for more information about the Fund's *Systematic* Withdrawal Plan.

Redemptions in Kind: The Fund reserves the right to honor requests for redemption or repurchase orders made by a shareholder during any 90-day period by making payment in whole or in part in portfolio securities ("redemption in kind") if the amount of such a request is large enough to affect operations (if the request is greater than the lesser of \$250,000 or 1% of the Fund's net assets at the beginning of the 90-day period). The securities will be chosen by the Fund and valued using the same procedures as used in calculating the Fund's NAV. A shareholder may incur transaction expenses in converting these securities to cash.

When Redemptions are Sent: Once the Fund receives your redemption request in "good order" as described below, it will issue a check based on the next determined NAV following your redemption request. If you purchase shares using a check and soon after request a redemption, your redemption proceeds, which are payable at the next determined NAV following the receipt your redemption request in "good order", as described below, will not be sent until the check used for your purchase has cleared your bank.

Good Order: Your redemption request will be processed if it is in “good order.” To be in good order, the following conditions must be satisfied:

- The request should be in writing, unless redeeming by telephone, indicating the number of shares or dollar amount to be redeemed;
- The request must identify your account number;
- The request should be signed by you and any other person listed on the account, exactly as the shares are registered; and
- If you request that the redemption proceeds be sent to a person, bank or an address other than that of record or paid to someone other than the record owner(s), or if the address was changed within the last 30 days, or if the proceeds of a requested redemption exceed \$50,000, the signature(s) on the request must be medallion signature guaranteed by an eligible signature guarantor.

When You Need Medallion Signature Guarantees: If you wish to change the bank or brokerage account that you have designated on your account, you may do so at any time by writing to the Fund with your signature guaranteed. A medallion signature guarantee assures that a signature is genuine and protects you from unauthorized account transfers. You will need your signature guaranteed if:

- you request a redemption to be made payable to a person not on record with the Fund;
- you request that a redemption be mailed to an address other than that on record with the Fund;
- the proceeds of a requested redemption exceed \$50,000;
- any redemption is transmitted by federal wire transfer to a bank other than the bank of record; or
- your address was changed within 30 days of your redemption request.

Signatures may be guaranteed by any eligible guarantor institution (including banks, brokers and dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations). Further documentation will be required to change the designated account if shares are held by a corporation, fiduciary or other organization. *A notary public cannot guarantee signatures.*

Retirement Plans: If you own an IRA or other retirement plan, you must indicate on your redemption request whether the Fund should withhold federal income tax. Unless you elect in your redemption request that you do not want to have federal tax withheld, the redemption will be subject to withholding.

Low Balances: If at any time your account balance falls below \$500, the Fund may notify you that, unless the account is brought up to at least \$500 within 30 days of the notice, your account could be closed. After the notice period, the Fund may redeem all of your shares and close your account by sending you a check to the address of record. Your account will not be closed if the account balance drops below \$500 due to a decline in NAV.

FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES

The Fund discourages and does not accommodate market timing. Frequent trading into and out of the Fund can harm all Fund shareholders by disrupting the Fund's investment strategies, increasing Fund expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders. The Fund is designed for long-term investors and is not intended for market timing or other disruptive trading activities. Accordingly, the Fund's Board has approved policies that seek to curb these disruptive activities while recognizing that shareholders may have a legitimate need to adjust their Fund investments as their financial needs or circumstances change. The Fund currently uses several methods to reduce the risk of market timing. These methods include:

- Committing staff to review, on a continuing basis, recent trading activity in order to identify trading activity that may be contrary to the Fund's "Market Timing Trading Policy";
- Rejecting or limiting specific purchase requests;
- Rejecting purchase requests from certain investors; and
- Assessing a redemption fee for short-term trading.

Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund seeks to make judgments and applications that are consistent with the interests of the Fund's shareholders.

Based on the frequency of redemptions in your account, the Adviser or transfer agent may in its sole discretion determine that your trading activity is detrimental to the Fund as described in the Fund's Market Timing Trading Policy and elect to reject or limit the amount, number, frequency or method for requesting future purchases or exchanges into the Fund. The Fund reserves the right to reject or restrict purchase requests for any reason, particularly when the shareholder's trading activity suggests that the shareholder may be engaged in market timing or other disruptive trading activities. Neither the Fund nor the Adviser will be liable for any losses resulting from rejected purchase orders. The Adviser may also bar an investor who has violated these policies (and the investor's financial advisor) from opening new accounts with the Fund.

Although the Fund attempts to limit disruptive trading activities, some investors use a variety of strategies to hide their identities and their trading practices. There can be no guarantee that the Fund will be able to identify or limit these activities. Omnibus account arrangements are common forms of holding shares of the Fund. While the Fund will encourage financial intermediaries to apply the Fund's Market Timing Trading Policy to their customers who invest indirectly in the Fund, the Fund is limited in its ability to monitor the trading activity or enforce the Fund's Market Timing Trading Policy with respect to customers of financial intermediaries. For example, should it occur, the Fund may not be able to detect market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, exchanges and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Fund's Market Timing Trading Policy to their customers through such methods as implementing short-term trading limitations or restrictions and monitoring trading activity for what might be market timing, the Fund may not be able to determine whether trading by customers of financial intermediaries is contrary to the Fund's Market Timing Trading Policy. Brokers maintaining omnibus accounts with the Fund have agreed to provide shareholder transaction information to the extent known to the broker to the Fund upon request. If the Fund or its transfer agent or shareholder servicing agent suspects there is market timing activity in the account, the Fund will seek full cooperation from the service provider maintaining the account to identify the underlying participant. At the request of the Adviser, the service providers may take immediate action to stop any further short-term trading by such participants.

TAX STATUS, DIVIDENDS AND DISTRIBUTIONS

Any sale or exchange of a Fund's shares may generate tax liability (unless you are a tax-exempt investor or your investment is in a qualified retirement account). When you redeem your shares you may realize a taxable gain or loss. This is measured by the difference between the proceeds of the sale and the tax basis for the shares you sold. (To aid in computing your tax basis, you generally should retain your account statements for the period that you hold shares in the Fund.)

The Fund intends to distribute substantially all of its net investment income quarterly and net capital gains annually in December. Both types of distributions will be reinvested in shares of the Fund unless you elect to receive cash. Dividends from net investment income (and any excess of net short-term capital gain over net long-term capital loss) are taxable to investors as ordinary income, while distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss) are generally taxable as long-term capital gain, regardless of your holding period for the shares. Any dividends or capital gain distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest dividends or capital gain distributions or receive them in cash. Certain dividends or distributions declared in October, November or December will be taxed to shareholders as if received in December if they are paid during the following January. Each year the Fund will inform you of the amount and type of your distributions. IRAs and other qualified retirement plans are exempt from federal income taxation until retirement proceeds are paid out to the participant.

Your redemptions, including exchanges, may result in a capital gain or loss for federal tax purposes. A capital gain or loss on your investment is the difference between the cost of your shares, including any sales charges, and the amount you receive when you sell them.

The Fund must report to the IRS and furnish to shareholders the cost basis information for shares purchased and sold. The Fund has chosen average cost as its standing (default) tax lot identification method for all shareholders, which means this is the method the Fund will use to determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing NAVs, and the entire position is not sold at one time. Shareholders may, however, choose a method other than the Fund's standing method at the time of their purchase or upon sale of covered shares. Shareholders should consult their tax advisors to determine the best IRS-accepted cost basis method for their tax situation and to obtain more information about how cost basis reporting applies to them. Shareholders also should carefully review the cost basis information provided to them by the Fund and make any additional basis, holding period or other adjustments that are required when reporting these amounts on their federal income tax returns.

On the account application, you will be asked to certify that your social security number or taxpayer identification number is correct and that you are not subject to backup withholding for failing to report income to the IRS. If you are subject to backup withholding or you did not certify your taxpayer identification number, the IRS requires the Fund to withhold a percentage of any dividend, redemption or exchange proceeds. The Fund reserves the right to reject any application that does not include a certified social security or taxpayer identification number. If you do not have a social security number, you should indicate on the purchase form that your application to obtain a number is pending. The Fund is required to withhold taxes if a number is not delivered to the Fund within seven days.

This summary is not intended to be and should not be construed to be legal or tax advice. You should consult your own tax advisers to determine the tax consequences of owning the Fund's shares.

DISTRIBUTION OF SHARES

Distributor: Northern Lights Distributors, LLC, 4221 North 203rd Street, Suite 100, Elkhorn, Nebraska 68022-3474, is the distributor for the shares of the Fund. Northern Lights Distributors, LLC is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. (“FINRA”). Shares of the Fund are offered on a continuous basis.

Distribution (12b-1) and Shareholder Servicing Fees: The Trust, with respect to the Fund, has adopted the Trust’s Master Distribution and Shareholder Servicing Plan for Class A shares (the “Plan”), pursuant to Rule 12b-1 of the 1940 Act which allows the Fund to pay the Fund’s distributor an annual fee for distribution and shareholder servicing expenses of 0.25% of the Fund’s average daily net assets attributable to Class A shares. Because these fees are paid out of the Fund’s assets on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

The Fund’s distributor and other entities are paid pursuant to the Plan for distribution and shareholder servicing provided and the expenses borne by the distributor and others in the distribution of Fund shares, including the payment of commissions for sales of the shares and incentive compensation to and expenses of dealers and others who engage in or support distribution of shares or who service shareholder accounts, including overhead and telephone expenses; printing and distribution of prospectuses and reports used in connection with the offering of the Fund’s shares to other than current shareholders; and preparation, printing and distribution of sales literature and advertising materials. In addition, the distributor or other entities may utilize fees paid pursuant to the Plan to compensate dealers or other entities for their opportunity costs in advancing such amounts, which compensation would be in the form of a carrying charge on any un-reimbursed expenses.

You should be aware that if you hold your shares for a substantial period of time, you may indirectly pay more than the economic equivalent of the maximum front-end sales charge allowed by the FINRA due to the recurring nature of distribution fees (the “12b-1 fees”).

Additional Compensation to Financial Intermediaries: The distributor, its affiliates, and the Adviser and their affiliates may each, at their own expense and out of their own legitimate profits, provide additional cash payments to financial intermediaries who sell shares of the Fund. Financial intermediaries include brokers, financial planners, banks, insurance companies, retirement or 401(k) plan administrators and others. These payments may be in addition to the 12b-1 fees and any sales charges that are disclosed elsewhere in this Prospectus. These payments are generally made to financial intermediaries that provide shareholder or administrative services, or marketing support. Marketing support may include access to sales meetings, sales representatives and financial intermediary management representatives, inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs. These payments also may be made as an expense reimbursement in cases where the financial intermediary provides shareholder services to Fund shareholders. The distributor may, from time to time, provide promotional incentives, including reallowance and/or payment of up to the entire sales charge, to certain investment firms. Such incentives may, at the distributor’s discretion, be limited to investment firms who allow their individual selling representatives to participate in such additional commissions.

Householding: To reduce expenses, the Fund mails only one copy of the prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call the Fund at 1-877-760-0005 on days the Fund is open for business or contact your financial institution. The Fund will begin sending you individual copies thirty days after receiving your request.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Fund's financial performance for the period of the Fund's operations. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). The financial highlights for each of the years in the five-year period then ended December 31, 2022 has been derived from the financial statements audited by BBD, LLP, whose report, along with the Fund's financial statements, are included in the Fund's December 31, 2022 annual report, which is available upon request.

Per Share Data and Ratios for a Share of Beneficial Interest Outstanding Throughout Each Year Presented

	Class A				
	Year Ended December 31, 2022	Year Ended December 31, 2021	Year Ended December 31, 2020	Year Ended December 31, 2019	Year Ended December 31, 2018
Net asset value, beginning of year	\$ 15.69	\$ 14.26	\$ 13.09	\$ 11.34	\$ 12.90
Activity from investment operations:					
Net investment income (loss) ⁽¹⁾	(0.02)	0.01	0.09	0.12	0.11
Net realized and unrealized gain (loss) on investments	(3.04)	2.69	1.54	2.25	(1.44)
Total from investment operations	(3.06)	2.70	1.63	2.37	(1.33)
Less distributions from:					
Net investment income	(0.01)	(0.01)	(0.08)	(0.10)	(0.03)
Return of Capital	(0.00) ⁽⁵⁾	—	—	—	—
Net realized gain	—	(1.26)	(0.38)	(0.52)	(0.20)
Total distributions	(0.01)	(1.27)	(0.46)	(0.62)	(0.23)
Paid-in-Capital From Redemption Fees ⁽¹⁾	0.00 ⁽⁵⁾	0.00 ⁽⁵⁾	—	—	—
Net asset value, end of year	\$ 12.62	\$ 15.69	\$ 14.26	\$ 13.09	\$ 11.34
Total return ⁽²⁾	(19.52)%	19.09%	12.63%	21.11%	(10.38)%
Net assets, at end of year (000s)	\$ 15,093	\$ 18,430	\$ 15,274	\$ 7,994	\$ 7,587
Ratio of gross expenses to average net assets ⁽³⁾⁽⁴⁾	2.63%	2.57%	2.71%	2.68%	2.65%
Ratio of net expenses to average net assets ⁽⁴⁾	1.75%	1.75%	1.75%	1.75%	1.75%
Ratio of net investment income (loss) to average net assets ⁽⁴⁾⁽⁶⁾	-0.15%	0.05%	0.71%	0.99%	0.89%
Portfolio Turnover Rate	25%	29%	62%	48%	57%

(1) Per share amounts calculated using the average shares method, which more appropriately presents the per share data for the year.

(2) Total returns shown exclude the effect of applicable sales charges and redemption fees. Had the Advisor not waived a portion of its fees, total returns would have been lower.

(3) Represents the ratio of expenses to average net assets absent fee waivers and/or expense reimbursements by the Advisor.

(4) The ratios of expenses to average net assets and net investment income (loss) to average net assets do not reflect the expenses of the underlying investment companies in which the Fund invests.

(5) Amount represents less than \$0.01 per share.

(6) Recognition of net investment income (loss) by the Fund is affected by the timing and declaration of dividends by the underlying investment companies in which the Fund invests.

PRIVACY NOTICE

Rev. April 2021

FACTS

WHAT DOES NORTHERN LIGHTS FUND TRUST DO WITH YOUR PERSONAL INFORMATION?

Why?

Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some, but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

What?

The types of personal information we collect and share depends on the product or service that you have with us. This information can include:

- Social Security number and wire transfer instructions
- account transactions and transaction history
- investment experience and purchase history

When you are *no longer* our customer, we continue to share your information as described in this notice.

How?

All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Northern Lights Fund Trust chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information:	Does Northern Lights Fund Trust share information?	Can you limit this sharing?
For our everyday business purposes - such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus.	YES	NO
