## The Trust

The PCS Commodity Strategy Fund (the “Fund”) is a series of Northern Lights Fund Trust II, (the “Trust”) a Delaware statutory trust, organized on August 26, 2010.

The Trust is registered as an open-end management investment company. The Trust is governed by its Board of Trustees (the “Board” or “Trustees”). The Fund may issue an unlimited number of shares of beneficial interest. All shares of the Fund have equal rights and privileges. Each share of the Fund is entitled to one vote on all matters as to which shares are entitled to vote. In addition, each share of the Fund is entitled to participate equally with other shares (i) in dividends and distributions declared by the Fund and (ii) on liquidation to its proportionate share of the assets remaining after satisfaction of outstanding liabilities. Shares of the Fund are fully paid, non-assessable and fully transferable when issued and have no pre-emptive, conversion or exchange rights. Fractional shares have proportionately the same rights, including voting rights, as are provided for a full share.

The Fund’s investment objective, restrictions and policies are more fully described here and in the Prospectus. The Board may add classes to and reclassify the shares of the Fund, start other series and offer shares of a new fund under the Trust at any time.

The Fund has registered five classes of shares: Class A, Class C, Class N, Class I shares and Class R shares. Each share class represents an interest in the same assets of the Fund, has the same rights and is identical in all material respects except that (i) each class of shares may be subject to different (or no) sales loads, (ii) each class of shares may bear different (or no) distribution fees; (iii) each class of shares may have different shareholder features, such as minimum investment amounts; (iv) certain other class-specific expenses will be borne solely by the class to which such expenses are attributable, including transfer agent fees attributable to a specific class of shares, printing and postage expenses related to preparing and distributing materials to current shareholders of a specific class, registration fees paid by a specific class of shares, the expenses of administrative personnel and services required to support the shareholders of a specific class, litigation or other legal expenses relating to a class of shares, Trustees’ fees or expenses paid as a result of issues relating to a specific class of shares and accounting fees and expenses relating to a specific class of shares and (v) each class has exclusive voting rights with respect to matters relating to its own distribution arrangements. Each share of the Fund is entitled to one vote on all matters as to which shares are entitled to vote. In addition, each share of the Fund is entitled to participate equally with other shares on a class-specific basis (i) in dividends and distributions declared by the Fund and (ii) on liquidation to its proportionate share of the assets remaining after satisfaction of outstanding liabilities. Shares of the Funds are fully paid, non-assessable and fully transferable when issued and have no pre-emptive, conversion or exchange rights. Fractional shares have proportionately the same rights, including voting rights, as are provided for a full share. Currently, only Class A, Class C and Class I shares are being offered.

Under the Trust’s Agreement and Declaration of Trust, each Trustee will continue in office until the termination of the Trust or his/her earlier death, incapacity, resignation or removal. Shareholders can remove a Trustee to the extent provided by the Investment Company Act of 1940, as amended (the “1940 Act”) and the rules and regulations promulgated thereunder. Vacancies may be filled by a majority of the remaining Trustees, except insofar as the 1940 Act may require the election by shareholders. As a result, normally no annual or regular meetings of shareholders will be held unless matters arise requiring a vote of shareholders under the Agreement and Declaration of Trust or the 1940 Act.

Price Asset Management, LLC (the “Adviser”) serves as the investment adviser to the Fund.

## **Investment Policies, Strategies and Associated Risks**

The investment objective of the PCS Commodity Strategy Fund is to seek to provide long term total return. The investment objectives of the Fund and the descriptions of the Fund's principal investment strategies are set forth under "Investment Strategies, Related Risks and Disclosure of Portfolio Holdings" in the Prospectus. The Fund's investment objective is not fundamental and may be changed without the approval of shareholders. Shareholders will be given 60 days' prior notice of any such changes.

The following pages contain more detailed information about the types of instruments in which the Fund may invest, strategies the Adviser may employ in pursuit of the Fund's investment objective and a summary of related risks.

### ***Other Investment Companies***

The Fund may invest in shares of other investment companies, including money market mutual funds, other mutual funds or exchange traded funds ("ETFs"). The Fund's investments in money market mutual funds may be used for cash management purposes and to maintain liquidity in order to satisfy redemption requests or pay unanticipated expenses. The Fund limits its investments in securities issued by other investment companies in accordance with the 1940 Act or with certain terms and conditions of applicable exemptive orders issued by the SEC and approved by the Board of Trustees. Section 12(d)(1) of the 1940 Act precludes the Fund from acquiring (i) more than 3% of the total outstanding shares of another investment company; (ii) shares of another investment company having an aggregate value in excess of 5% of the value of the total assets of the Fund; or (iii) shares of another registered investment company and all other investment companies having an aggregate value in excess of 10% of the value of the total assets of the Fund. However, Section 12(d)(1)(F) of the 1940 Act provides that the provisions of paragraph 12(d)(1) shall not apply to securities purchased or otherwise acquired by the Fund if (i) immediately after such purchase or acquisition not more than 3% of the total outstanding shares of such investment company is owned by the Fund and all affiliated persons of the Fund; and (ii) the Fund has not offered or sold, and is not proposing to offer or sell its shares through a principal underwriter or otherwise at a public or offering price that includes a sales load of more than 1 1/2%. SEC Rule 12d1-3 provides, however, that the Fund may rely on the Section 12(d)(1)(F) exemption and charge a sales load in excess of 1 1/2% provided the sales load and any service fee charged does not exceed limits set forth in applicable Financial Industry Regulatory Authority, Inc. ("FINRA") rules.

If the Fund invests in investment companies, including ETFs, pursuant to Section 12(d)(1)(F), it must comply with the following voting restrictions: when the Fund exercises voting rights, by proxy or otherwise, with respect to investment companies owned by the Fund, the Fund will either seek instruction from the Fund's shareholders with regard to the voting of all proxies and vote in accordance with such instructions, or vote the shares held by the Fund in the same proportion as the vote of all other holders of such security. In addition, an investment company purchased by the Fund pursuant to Section 12(d)(1)(F) shall not be required to redeem its shares in an amount exceeding 1% of such investment company's total outstanding shares in any period of less than thirty days. In addition to the advisory and operational fees the Fund bears directly in connection with its own operation, the Fund also bears its pro rata portion of the advisory and operational expenses incurred indirectly through investments in other investment companies. In addition, ETFs are subject to the following risks that do not apply to conventional mutual funds: (1) the market price of the ETF's shares may trade at a discount to their net asset value; (2) an active trading market for an ETF's shares may not develop or be maintained; or (3) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. Additionally, ETFs have management fees, which increase their cost.

### *Closed-End Investment Companies*

The Fund may invest its assets in "closed-end" investment companies (or "closed-end funds"), subject to the investment restrictions set forth above. Shares of closed-end funds are typically offered to the public in a one-time initial public offering by a group of underwriters who retain a spread or underwriting commission of between 4% and 6% of the initial public offering price. Such securities are then listed for trading on the New York Stock Exchange, the American Stock Exchange, the National Association of Securities Dealers Automated Quotation System (commonly known as "NASDAQ") and, in some cases, may be traded in other over-the-counter markets. Because the shares of closed-end funds cannot be redeemed upon demand to the issuer like the shares of an open-end investment company (such as the Fund), investors seek to buy and sell shares of closed-end funds in the secondary market.

The Fund generally will purchase shares of closed-end funds only in the secondary market. The Fund will incur normal brokerage costs on such purchases similar to the expenses. The Fund would incur for the purchase of securities of any other type of issuer in the secondary market. The Fund may, however, also purchase securities of a closed-end fund in an initial public offering when, in the opinion of the Adviser or Sub-Adviser, based on a consideration of the nature of the closed-end fund's proposed investments, the prevailing market conditions and the level of demand for such securities, they represent an attractive opportunity for growth of capital. The initial offering price typically will include a dealer spread, which may be higher than the applicable brokerage cost if the Fund purchased such securities in the secondary market.

The shares of many closed-end funds, after their initial public offering, frequently trade at a price per share, which is less than the net asset value per share, the difference representing the "market discount" of such shares. This market discount may be due in part to the investment objective of long-term appreciation, which is sought by many closed-end funds, as well as to the fact that the shares of closed-end funds are not redeemable by the holder upon demand to the issuer at the next determined net asset value but rather are subject to the principles of supply and demand in the secondary market. A relative lack of secondary market purchasers of closed-end fund shares also may contribute to such shares trading at a discount to their net asset value.

The Fund may invest in shares of closed-end funds that are trading at a discount to net asset value or at a premium to net asset value. There can be no assurance that the market discount on shares of any closed-end fund purchased by the Fund will ever decrease. In fact, it is possible that this market discount may increase and the Fund may suffer realized or unrealized capital losses due to further decline in the market price of the securities of such closed-end funds, thereby adversely affecting the net asset value of the Fund's shares. Similarly, there can be no assurance that any shares of a closed-end fund purchased by the Fund at a premium will continue to trade at a premium or that the premium will not decrease subsequent to a purchase of such shares by the Fund.

Closed-end funds may issue senior securities (including preferred stock and debt obligations) for the purpose of leveraging the closed-end fund's common shares in an attempt to enhance the current return to such closed-end fund's common shareholders. The Fund's investment in the common shares of closed-end funds that are financially leveraged may create an opportunity for greater total return on its investment, but at the same time may be expected to exhibit more volatility in market price and net asset value than an investment in shares of investment companies without a leveraged capital structure.

### ***Open-End Investment Companies***

The Fund and any "affiliated persons," as defined by the 1940 Act, may purchase in the aggregate only up to 3% of the total outstanding securities of any underlying fund. Accordingly, when affiliated persons hold shares of any of the underlying fund, the Fund's ability to invest fully in shares of those funds is restricted, and the Adviser or Sub-Adviser must then, in some instances, select alternative investments that would not have been its first preference. The 1940 Act also provides that an underlying fund whose shares are purchased by the Fund will be obligated to redeem shares held by the Fund only in an amount up to 1% of the underlying fund's outstanding securities during any period of less than 30 days. Shares held by the Fund in excess of 1% of an underlying fund's outstanding securities therefore, will be considered not readily marketable securities, which, together with other such securities, may not exceed 15% of the Fund's total assets.

Under certain circumstances an underlying fund may determine to make payment of a redemption by the Fund wholly or partly by a distribution in kind of securities from its portfolio, in lieu of cash, in conformity with the rules of the SEC. In such cases, the Fund may hold securities distributed by an underlying fund until the Adviser or Sub-Adviser determines that it is appropriate to dispose of such securities.

Investment decisions by the investment advisers of the underlying fund(s) are made independently of the Fund and its Adviser or Sub-Adviser. Therefore, the investment adviser of one underlying fund may be purchasing shares of the same issuer whose shares are being sold by the investment adviser of another such fund. The result would be an indirect expense to the Fund without accomplishing any investment purpose.

### ***Exchange-Traded Funds ("ETF")***

ETFs are generally passive funds that track their related index and have the flexibility of trading like a security. They are managed by professionals and provide the investor with diversification, cost and tax efficiency, liquidity, are useful for hedging, have the ability to go long and short, and some provide quarterly dividends. Additionally, some ETFs are unit investment trusts (UITs). ETFs typically have two markets. The primary market is where institutions swap "creation units" in block-multiples of, for example, 50,000 shares for in-kind securities and cash in the form of dividends. The secondary market is where individual investors can trade as little as a single share during trading hours on the exchange. This is different from open-ended mutual funds that are traded after hours once the net asset value (NAV) is calculated. ETFs share many similar risks with open-end and closed-end funds.

### ***Exchange-Traded Notes ("ETN")***

Similar to ETFs, owning an ETN generally reflects the risks of owning the assets that comprise the underlying market benchmark or strategy that the ETN is designed to reflect. ETNs also are subject to counterparty and fixed-income risk. ETNs are a type of unsecured, unsubordinated debt security that have characteristics and risks similar to those of fixed income securities and trade on a major exchange similar to shares of ETFs. This type of debt security differs, however, from other types of bonds and notes because ETN returns are based upon the performance of a market index minus applicable fees, no period coupon payments are distributed, and no principal protections exist. The purpose of ETNs is to create a type of security that combines the aspects of both bonds and ETFs. The value of an ETN may be influenced by time to maturity, level of supply and demand for the ETN, volatility and lack of liquidity in underlying commodities or securities markets, changes in the applicable interest rates, changes in the issuer's credit rating and economic, legal, political or geographic events that affect the referenced commodity or security. The fund's decision to sell its ETN holdings also may be limited by the availability of a secondary market. If the fund must sell some or all of its ETN holdings and the secondary market is weak, it may have to sell such holdings at a discount. If the fund holds its investment in an ETN until maturity, the issuer will give the fund a cash amount that would be equal to principal amount (subject to the day's index factor). ETNs also are subject to counterparty credit risk and fixed income risk.

### ***Foreign Currencies***

The Fund may purchase and sell foreign currency on a spot basis and enter into forward currency contracts in order to possess the foreign currency required by the Index's rules and to provide margin support for foreign exchange futures contracts denominated in currency other than U.S. dollars. A forward currency contract is an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. For example, the Fund might purchase a particular currency or enter into a forward currency contract to preserve the U.S. dollar price of securities or futures it intends to or has contracted to purchase. Alternatively, it might sell a particular currency on either a spot or forward basis to hedge against an anticipated decline in the dollar value of securities it intends to or has contracted to sell.

### ***Swap Agreements***

The Fund may enter into swap agreements for purposes of attempting to gain exposure to equity or debt securities without actually purchasing those securities, or to hedge a position. Swap agreements are two-party contracts entered into primarily by institutional investors for periods ranging from a day to more than one year. In a standard "swap" transaction, two parties agree to exchange the returns (or differentials in rates of return) earned or realized on particular predetermined investments or instruments. The gross returns to be exchanged or "swapped" between the parties are calculated with respect to a "notional amount," i.e., the return on or increase in value of a particular dollar amount invested in a "basket" of securities representing a particular index.

Most swap agreements entered into by the Fund calculate the obligations of the parties to the agreement on a "net basis." Consequently, the Fund's current obligations (or rights) under a swap agreement will generally be equal only to the net amount to be paid or received under the agreement based on the relative values of the positions held by each party to the agreement (the "net amount"). Payments may be made at the conclusion of a swap agreement or periodically during its term.

Swap agreements do not involve the delivery of securities or other underlying assets. Accordingly, if a swap is entered into on a net basis, if the other party to a swap agreement defaults, the Fund's risk of loss consists of the net amount of payments that the Fund is contractually entitled to receive, if any.

The net amount of the excess, if any, of the Fund's obligations over its entitlements with respect to a swap agreement entered into on a net basis will be accrued daily and an amount of cash or liquid asset having an aggregate net asset value at least equal to the accrued excess will be maintained in an account with the Custodian. The Fund will also establish and maintain such accounts with respect to its total obligations under any swaps that are not entered into on a net basis. Obligations under swap agreements so covered will not be construed to be "senior securities" for purposes of the Fund's investment restriction concerning senior securities.

Because they are two-party contracts and because they may have terms of greater than seven days, swap agreements may be considered to be illiquid for the Fund's illiquid investment limitations. The Fund will not enter into any swap agreement unless the Adviser or a Sub-Adviser, as the case may be, believes that the other party to the transaction is creditworthy. The Fund bears the risk of loss of the amount expected to be received under a swap agreement in the event of the default or bankruptcy of a swap agreement counter-party.

The Fund may enter into a swap agreement in circumstances where the Adviser or a Sub-Adviser, as the case may be, believes that it may be more cost effective or practical than buying the securities represented by such index or a futures contract or an option on such index. The counter-party to any swap agreement will typically be a bank, investment banking firm or broker/dealer. The counter-party will

generally agree to pay the Fund the amount, if any, by which the notional amount of the swap agreement would have increased in value had it been invested in the particular stocks represented in the index, plus the dividends that would have been received on those stocks. The Fund will agree to pay to the counterparty a floating rate of interest on the notional amount of the swap agreement plus the amount, if any, by which the notional amount would have decreased in value had it been invested in such stocks. Therefore, the return to the Fund on any swap agreement should be the gain or loss on the notional amount plus dividends on the stocks less the interest paid by the Fund on the notional amount.

The swap market has grown substantially in recent years with a large number of banks and investment banking firms acting both as principals and as agents utilizing standardized swap documentation. As a result, the swap market has become relatively liquid in comparison with the markets for other similar instruments that are traded in the OTC market.

### ***Fixed Income Securities***

The Fund may invest in a wide range of fixed income securities, which may include obligations of any rating maturity, and in mutual funds and ETFs that invest in such securities.

The Fund may invest in investment grade corporate debt securities and lower-rated corporate debt securities (commonly known as “junk bonds”). Lower-rated or high yield debt securities include corporate high yield debt securities, zero-coupon securities, payment-in kind securities and strips. Investment grade corporate bonds are those rated BBB or better by Standard & Poor’s Rating Service (“S&P”) or Baa or better by Moody’s Investors Service (“Moody’s”). Securities rated BBB by S&P are considered investment grade, but Moody’s considers securities rated Baa to have speculative characteristics. The Fund may also invest in unrated securities.

Corporate Debt Securities. Corporate debt securities are fixed income securities issued by businesses to finance their operations, although corporate debt instruments may also include bank loans to companies. Notes, bonds, debentures and commercial paper are the most common types of corporate debt securities, with the primary difference being their maturities and secured or unsecured status. Commercial paper has the shortest term and is usually unsecured.

The broad category of corporate debt securities includes debt issued by domestic or foreign companies of all kinds, including those with small-, mid- and large-capitalizations. Corporate debt may be rated investment-grade or below investment-grade and may carry variable or floating rates of interest.

Because of the wide range of types and maturities of corporate debt securities, as well as the range of creditworthiness of its issuers, corporate debt securities have widely varying potentials for return and risk profiles. For example, commercial paper issued by a large established domestic corporation that is rated investment-grade may have a modest return on principal, but carries relatively limited risk. On the other hand, a long-term corporate note issued by a small foreign corporation from an emerging market country that has not been rated may have the potential for relatively large returns on principal, but carries a relatively high degree of risk.

Corporate debt securities carry both credit risk and interest rate risk. Credit risk is the risk that the Fund could lose money if the issuer of a corporate debt security is unable to pay interest or repay principal when it is due. Some corporate debt securities that are rated below investment-grade are generally considered speculative because they present a greater risk of loss, including default, than higher quality debt securities. The credit risk of a particular issuer’s debt security may vary based on its priority for repayment. For example, higher ranking (senior) debt securities have a higher priority than lower ranking (subordinated) securities. This means that the issuer might not make payments on subordinated securities while continuing to make payments on senior securities. In addition, in the event of bankruptcy, holders of higher-ranking senior securities may receive amounts otherwise payable to the

holders of more junior securities. Interest rate risk is the risk that the value of certain corporate debt securities will tend to fall when interest rates rise. In general, corporate debt securities with longer terms tend to fall more in value when interest rates rise than corporate debt securities with shorter terms.

Zero-Coupon Securities. Zero-coupon securities make no periodic interest payments, but are sold at a deep discount from their face value. The buyer recognizes a rate of return determined by the gradual appreciation of the security, which is redeemed at face value on a specified maturity date. The discount varies depending on the time remaining until maturity, as well as market interest rates, liquidity of the security and the issuer's perceived credit quality. If the issuer defaults, the holder may not receive any return on its investment. Because zero-coupon securities bear no interest and compound semiannually at the rate fixed at the time of issuance, their value generally is more volatile than the value of other fixed-income securities. Since zero-coupon bondholders do not receive interest payments, when interest rates rise, zero-coupon securities fall more dramatically in value than bonds paying interest on a current basis. When interest rates fall, zero-coupon securities rise more rapidly in value because the bonds reflect a fixed rate of return. An investment in zero-coupon and delayed interest securities may cause the Fund to recognize income and make distributions to shareholders before it receives any cash payments on its investment.

Unrated Debt Securities. Unrated debt, while not necessarily lower in quality than rated securities, may not have as broad a market. Because of the size and perceived demand for the issue, among other factors, certain issuers may decide not to pay the cost of getting a rating for their bonds. The creditworthiness of the issuer, as well as any financial institution or other party responsible for payments on the security, will be analyzed to determine whether to purchase unrated bonds.

### ***Borrowing***

The Fund will not borrow money for investment purposes but it may borrow funds to meet redemptions or for other emergency purposes, which is a form of leveraging. Leveraging investments, by purchasing securities with borrowed money, is a speculative technique that increases investment risk while increasing investment opportunity. Leverage will magnify changes in the Fund's net asset value and on the Fund's investments. Although the principal of such borrowings will be fixed, the Fund's assets may change in value during the time the borrowing is outstanding. Leverage also creates interest expenses for the Fund. To the extent the income derived from securities purchased with borrowed funds exceeds the interest the Fund will have to pay, the Fund's net income will be greater than it would be if leverage were not used. Conversely, if the income from the assets obtained with borrowed funds is not sufficient to cover the cost of leveraging, the net income of the Fund will be less than it would be if leverage were not used, and therefore the amount available for distribution to shareholders as dividends will be reduced. The use of derivatives in connection with leverage creates the potential for significant loss.

Such borrowings may be on a secured or unsecured basis at fixed or variable rates of interest. The 1940 Act requires the Fund to maintain continuous asset coverage of not less than 300% with respect to all borrowings. If such asset coverage should decline to less than 300% due to market fluctuations or other reasons, the Fund may be required to dispose of some of its portfolio holdings within three days in order to reduce the Fund's debt and restore the 300% asset coverage, even though it may be disadvantageous from an investment standpoint to dispose of assets at that time.

The Fund also may be required to maintain minimum average balances in connection with such borrowing or to pay a commitment or other fee to maintain a line of credit. Either of these requirements would increase the cost of borrowing over the stated interest rate.

Borrowing by the Fund creates an opportunity for increased net income, but at the same time, creates special risk considerations. For example, leveraging may exaggerate the effect on net asset value of any increase or decrease in the market value of the Fund's portfolio.

## ***Futures***

General. The Fund will use certain futures contracts (sometimes referred to as “futures”).

The use of futures is subject to applicable regulations of the SEC, the several exchanges upon which they are traded and the Commodity Futures Trading Commission (the “CFTC”). In addition, the Fund’s ability to use futures will be limited by tax considerations. Pursuant to a claim for exemption filed with the National Futures Association (“NFA”) on behalf of the Fund, the Fund is not deemed to be a commodity pool operator or a commodity pool under the Commodity Exchange Act and is not subject to registration or regulation as such under the Commodity Exchange Act. In addition to the instruments, strategies and risks described below and in the Prospectus, the Fund’s Adviser or Sub-Advisers may discover additional opportunities in connection with futures and other similar or related techniques. These new opportunities may become available as the Adviser or Sub-Advisers develop new techniques, as regulatory authorities broaden the range of permitted transactions. The Adviser or Sub-Advisers may utilize these opportunities to the extent that they are consistent with the Fund’s investment objective and permitted by the Fund’s investment limitations and applicable regulatory authorities. The Prospectus or this SAI will be supplemented to the extent that new products or techniques involve materially different risks than those described below or in the Prospectus.

Futures Contracts. A futures contract obligates the seller to deliver (and the purchaser to take delivery of) the specified security on the expiration date of the contract.

Whether the Fund realizes a gain or loss from futures activities depends upon movements in the underlying security or index. The Fund purchases and sells futures contracts and options on futures contracts that are traded on a U.S. exchange or board of trade and certain foreign exchanges.

No price is paid upon entering into a futures contract. Instead, at the inception of a futures contract the Fund is required to deposit “initial margin” in an amount generally equal to approximately 10% or less of the contract value. Unlike margin in securities transactions, initial margin does not represent a borrowing, but rather is in the nature of a performance bond or good-faith deposit that is returned to the Fund at the termination of the transaction if all contractual obligations have been satisfied. Under certain circumstances, such as periods of high volatility, the Fund may be required by an exchange to increase the level of its initial margin payment, and initial margin requirements might be increased generally in the future by regulatory action.

Subsequent “variation margin” payments are made to and from the futures commission merchant daily as the value of the futures position varies, a process known as “marking-to-market.” Variation margin does not involve borrowing, but rather represents a daily settlement of the Fund’s obligations to or from a futures commission merchant. When the Fund purchases or sells a futures contract, it is subject to daily variation margin calls that could be substantial in the event of adverse price movements. If the Fund has insufficient cash to meet daily variation margin requirements, it might need to sell securities at a time when such sales are disadvantageous.

Purchasers and sellers of futures contracts can enter into offsetting closing transactions by selling or purchasing, respectively, an instrument identical to the instrument purchased or sold. Positions in futures may be closed only on an exchange or board of trade that provides a secondary market. However, there can be no assurance that a liquid secondary market will exist for a particular contract at a particular time. In such event, it may not be possible to close a futures contract position.

Under certain circumstances, futures exchanges may establish daily limits on the amount that the price of a futures contract can vary from the previous day’s settlement price. Once that limit is reached, no trades

may be made that day at a price beyond the limit. Daily price limits do not limit potential losses because prices could move to the daily limit for several consecutive days with little or no trading, thereby preventing liquidation of unfavorable positions.

If the Fund were unable to liquidate a futures contract due to the absence of a liquid secondary market or the imposition of price limits, it could incur substantial losses. The Fund would continue to be subject to market risk with respect to the position. In addition, except in the case of purchased options, the Fund would continue to be required to make daily variation margin payments and might be required to maintain cash or liquid assets in an account.

*Risks of Futures Contracts.* The ordinary spreads between prices in the cash and futures markets, due to differences in the natures of those markets, are subject to the following factors, which may create distortions. First, all participants in the futures market are subject to margin deposit and maintenance requirements. Rather than meeting additional margin deposit requirements, investors may close futures contracts through offsetting transactions, which could distort the normal relationships between the cash and futures markets. Second, the liquidity of the futures market depends on participants entering into offsetting transactions rather than making or taking delivery. To the extent participants decide to make or take delivery, liquidity in the futures market could be reduced, thus producing distortion. Third, from the point of view of speculators, the deposit requirements in the futures market are less onerous than margin requirements in the securities market. Therefore, increased participation by speculators in the futures market may cause temporary price distortions.

#### ***Temporary and Cash Investments***

Under normal market conditions, the Fund will stay fully invested according to its principal investment strategies as noted above. The Fund, however, may temporarily depart from its principal investment strategies by making short-term investments in cash, cash equivalents, and high-quality, short-term debt securities and money market instruments for temporary defensive purposes in response to adverse market, economic or political conditions. This may result in the Fund not achieving its investment objectives during that period.

For longer periods of time, the Fund may hold a substantial cash position. If the market advances during periods when the Fund is holding a large cash position, the Fund may not participate to the extent it would have if the Fund had been more fully invested. To the extent that the Fund uses a money market fund for its cash position, there will be some duplication of expenses because the Fund would bear its pro rata portion of such money market fund's advisory fees and operational expenses.

The Fund may invest in any of the following securities and instruments:

*Money Market Mutual Funds.* The Fund may invest in money market mutual funds in connection with its management of daily cash positions or as a temporary defensive measure. Generally, money market mutual funds seek to earn income consistent with the preservation of capital and maintenance of liquidity. They primarily invest in high quality money market obligations, including securities issued or guaranteed by the U.S. Government or its agencies and instrumentalities, bank obligations and high-grade corporate instruments. These investments generally mature within 397 days from the date of purchase. An investment in a money market mutual fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any government agency. The Fund's investments in money market mutual funds may be used for cash management purposes and to maintain liquidity in order to satisfy redemption requests or pay unanticipated expenses.

Your cost of investing in the Fund will generally be higher than the cost of investing directly in the underlying money market mutual fund shares. You will indirectly bear fees and expenses charged by the underlying money market mutual funds in addition to the Fund's direct fees and expenses. Furthermore,

the use of this strategy could affect the timing, amount and character of distributions to you and therefore may increase the amount of taxes payable by you.

*Bank Certificates of Deposit, Bankers' Acceptances and Time Deposits.* The Fund may acquire certificates of deposit, bankers' acceptances and time deposits. Certificates of deposit are negotiable certificates issued against monies deposited in a commercial bank for a definite period of time and earning a specified return. Bankers' acceptances are negotiable drafts or bills of exchange, normally drawn by an importer or exporter to pay for specific merchandise, which are "accepted" by a bank, meaning in effect that the bank unconditionally agrees to pay the face value of the instrument on maturity. Certificates of deposit and bankers' acceptances acquired by the Fund will be dollar-denominated obligations of domestic or foreign banks or financial institutions which at the time of purchase have capital, surplus and undivided profits in excess of \$100 million (including assets of both domestic and foreign branches), based on latest published reports, or less than \$100 million if the principal amount of such bank obligations are fully insured by the U.S. Government.

Domestic banks and foreign banks are subject to different governmental regulations with respect to the amount and types of loans that may be made and interest rates that may be charged. In addition, the profitability of the banking industry depends largely upon the availability and cost of funds for the purpose of financing lending operations under prevailing money market conditions. General economic conditions as well as exposure to credit losses arising from possible financial difficulties of borrowers play an important part in the operations of the banking industry.

As a result of federal and state laws and regulations, domestic banks are, among other things, required to maintain specified levels of reserves, limited in the amount which they can loan to a single borrower and subject to other regulations designed to promote financial soundness. However, such laws and regulations do not necessarily apply to foreign bank obligations that the Fund may acquire.

In addition to purchasing certificates of deposit and bankers' acceptances, to the extent permitted under the investment objective and policies stated above and in the Prospectus, the Fund may make interest-bearing time or other interest-bearing deposits in commercial or savings banks. Time deposits are non-negotiable deposits maintained at a banking institution for a specified period of time at a specified interest rate.

*Savings Association Obligations.* The Fund may invest in certificates of deposit (interest-bearing time deposits) issued by savings banks or savings and loan associations that have capital, surplus and undivided profits in excess of \$100 million, based on latest published reports, or less than \$100 million if the principal amount of such obligations is fully insured by the U.S. Government.

*Commercial Paper, Short-Term Notes and Other Corporate Obligations.* The Fund may invest a portion of its assets in commercial paper and short-term notes. Commercial paper consists of unsecured promissory notes issued by corporations. Issues of commercial paper and short-term notes will normally have maturities of less than nine months and fixed rates of return, although such instruments may have maturities of up to one year.

Commercial paper and short-term notes will consist of issues rated at the time of purchase "A-2" or higher by S&P, "Prime-1" or "Prime-2" by Moody's, or similarly rated by another nationally recognized statistical rating organization or, if unrated, will be determined by the Adviser or a Sub-Adviser, as the case may be, to be of comparable quality.

Corporate obligations include bonds and notes issued by corporations to finance longer-term credit needs than supported by commercial paper. While such obligations generally have maturities of ten years

or more, the Fund may purchase corporate obligations which have remaining maturities of one year or less from the date of purchase and which are rated “A” or higher by S&P or “A” or higher by Moody’s.

### ***U.S. Government Obligations***

The Fund may invest in various types of U.S. Government obligations. U.S. Government obligations include securities issued or guaranteed as to principal and interest by the U.S. Government, its agencies or instrumentalities, such as the U.S. Treasury. Payment of principal and interest on U.S. Government obligations may be backed by the full faith and credit of the United States or may be backed solely by the issuing or guaranteeing agency or instrumentality itself. In the latter case, the investor must look principally to the agency or instrumentality issuing or guaranteeing the obligation for ultimate repayment, which agency or instrumentality may be privately owned. There can be no assurance that the U.S. Government would provide financial support to its agencies or instrumentalities (including government-sponsored enterprises) where it is not obligated to do so.

### ***Illiquid Securities***

As a non-principal strategy, the Fund may invest up to 15% of its net assets in securities that are illiquid at the time of purchase, which means that there may be legal or contractual restrictions on their disposition, or that there are no readily available market quotations for such a security. Illiquid securities present the risks that the Fund may have difficulty valuing these holdings and/or may be unable to sell these holdings at the time or price desired. There are generally no restrictions on the Fund’s ability to invest in restricted securities (that is, securities that are not registered pursuant to the Securities Act), except to the extent such securities may be considered illiquid. Securities issued pursuant to Rule 144A of the Securities Act will be considered liquid if determined to be so under procedures adopted by the Board of Trustees. The Adviser is responsible for making the determination as to the liquidity of restricted securities (pursuant to the procedures adopted by the Board of Trustees). The Fund will determine a security to be illiquid if it cannot be sold or disposed of in the ordinary course of business within seven days at the value at which the Fund has valued the security. Factors considered in determining whether a security is illiquid may include, but are not limited to: the frequency of trades and quotes for the security; the number of dealers willing to purchase and sell the security and the number of potential purchasers; the number of dealers who undertake to make a market in the security; the nature of the security, including whether it is registered or unregistered, and the market place; whether the security has been rated by a nationally recognized statistical rating organization (“NRSRO”); the period of time remaining until the maturity of a debt instrument or until the principal amount of a demand instrument can be recovered through demand; the nature of any restrictions on resale; and with respect to municipal lease obligations and certificates of participation, there is reasonable assurance that the obligation will remain liquid throughout the time the obligation is held and, if unrated, an analysis similar to that which would be performed by an NRSRO is performed. If a restricted security is determined to be liquid, it will not be included within the category of illiquid securities, which may not exceed 15% of the Fund’s net assets. Investing in Rule 144A securities could have the effect of increasing the level of the Fund’s illiquidity to the extent that the Fund, at a particular point in time may be unable to find qualified institutional buyers interested in purchasing the securities. The Fund is permitted to sell restricted securities to qualified institutional buyers.

### ***Wholly-Owned Subsidiary***

The Fund may invest up to 25% of its total assets in a wholly-owned and controlled Cayman Islands subsidiary (the “Subsidiary”), which is expected to invest primarily in commodity and financial futures and option contracts. As a result, the Fund may be considered to be investing indirectly in these investments through the Subsidiary. For that reason, and for the sake of convenience, references in this Statement of Additional Information to the Fund may also include the Subsidiary.

The Subsidiary will not be registered under the 1940 Act but, will be subject to certain of the investor protections of that Act, as noted in this Statement of Additional Information. The Adviser has, on

behalf of the Subsidiary, filed a notice with the CFTC and the NFA claiming exemption from the CFTC's reporting requirements in accordance with Part 4 of the CFTC Regulations pursuant to no-action relief for certain subsidiaries of registered investment companies. Under this no-action letter guidance, the CFTC provides relief relating to CFTC disclosure and reporting requirements for commodity pools, such as the Subsidiary, that are wholly-owned subsidiaries of registered investment companies (such as the Fund). The Adviser also claims exemption from the CFTC's disclosure and reporting requirements in accordance with Part 4 of the CFTC Regulations, which provide relief relating to CFTC disclosure and reporting requirements for commodity pools, such as the Subsidiary, that are operated by a CPO that is the same as, controls, is controlled by or is under common control with the CPO of an offered pool (such as the Fund).

Changes in the laws of the United States and/or the Cayman Islands, under which the Fund and the Subsidiary, respectively, are organized, could result in the inability of the Fund and/or the Subsidiary to operate as described in this Statement of Additional Information and could negatively affect the Fund and its shareholders. For example, the Cayman Islands does not currently impose any income, corporate or capital gains tax, estate duty, inheritance tax, gift tax or withholding tax on the Subsidiary. If Cayman Islands law changes such that the Subsidiary must pay Cayman Islands taxes, Fund shareholders would likely suffer decreased investment returns.

## **Additional Risks**

### ***Risk of Potential Government Regulation of Derivatives***

It is possible that government regulation of various types of derivative instruments, including futures and swap agreements, may limit or prevent the Fund from using such instruments as part of its investment strategy, and could ultimately prevent the Fund from being able to achieve its investment goals. For example, some legislative and regulatory proposals, such as those in the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act") (which was passed into law in July 2010), would upon implementation impose limits on the maximum position that could be held by a single trader in certain contracts and would subject some derivatives transactions to new forms of regulation that could create barriers to some types of investment activity. Other provisions would require many swaps to be cleared and traded on an exchange, expand entity registration requirements, impose business conduct requirements on dealers that enter into swaps with a pension plan, endowment, retirement plan or government entity, and require banks to move some derivatives trading units to a non-guaranteed affiliate separate from the deposit-taking bank or divest them altogether. While many provisions of the Dodd-Frank Act must be implemented through future rulemaking, and any regulatory or legislative activity may not necessarily have a direct, immediate effect upon the Fund, it is possible that, upon implementation of these measures or any future measures, they could potentially limit or completely restrict the ability of the Fund to use these instruments as a part of its investment strategy, increase the costs of using these instruments or make them less effective.

### ***Volatility Risk***

The Fund may have investments that appreciate or decrease significantly in value over short periods of time. This may cause the Fund's net asset value per share to experience significant appreciations or decreases in value over short periods of time.

### ***High Portfolio Turnover Risk***

In accordance with industry practice, derivative instruments and instruments with a maturity of one year or less at the time of acquisition are excluded from the calculation of the portfolio turnover rate, resulting in an expected portfolio turnover rate of 0% for the Fund. However, if these instruments were included

in the calculation, the Fund's strategy would result in frequent portfolio trading and a high portfolio turnover rate (typically greater than 300%). By investing on a shorter-term basis through its investment in one or more wholly-owned and controlled Subsidiary, the Fund may trade more frequently and incur higher levels of brokerage fees and commissions, and cause higher levels of current tax liabilities to shareholders in the Fund.

### ***Interest Rate Risk***

A portion of the Fund's assets may be invested in short-term interest rate instruments or securities to increase returns. If interest rates increase, the Fund may earn interest at rates below prevailing market rates.

### **Fundamental Investment Limitations**

The Trust (on behalf of the Fund) has adopted the following restrictions as fundamental policies, which may not be changed without the favorable vote of the holders of a "majority of the outstanding voting securities of the Fund," as defined in the 1940 Act. Under the 1940 Act, the "vote of the holders of a majority of the outstanding voting securities" means the vote of the holders of the lesser of (i) 67% of the shares of the Fund represented at a meeting at which the holders of more than 50% of its outstanding shares are represented or (ii) more than 50% of the outstanding shares of the Fund.

The Fund may not:

1. Issue senior securities. This limitation is not applicable to activities that may be deemed to involve the issuance or sale of a senior security by the Fund, provided that the Fund's engagement in such activities is consistent with or permitted by the 1940 Act, as amended, the rules and regulations promulgated thereunder or interpretations of the SEC or its staff;
2. Borrow money, except (a) from a bank, provided that immediately after such borrowing there is an asset coverage of 300% for all borrowings of the Fund; or (b) from a bank or other persons for temporary purposes only, provided that such temporary borrowings are in an amount not exceeding 5% of the Fund's total assets at the time when the borrowing is made. This limitation does not preclude the Fund from entering into reverse repurchase transactions, provided that the Fund has an asset coverage of 300% for all borrowings and repurchase commitments of the Fund pursuant to reverse repurchase transactions;
3. Purchase securities on margin, participate on a joint or joint and several basis in any securities trading account, or underwrite securities. (Does not preclude the Fund from obtaining such short-term credit as may be necessary for the clearance of purchases and sales of its portfolio securities, and except to the extent that the Fund may be deemed an underwriter under the Securities Act of 1933, by virtue of disposing of portfolio securities);
4. Purchase or sell real estate or interests in real estate. This limitation is not applicable to investments in marketable securities that are secured by or represent interests in real estate or real estate acquired as a result of such investments. This limitation does not preclude the Fund from investing in mortgage-related securities or investing in companies engaged in the real estate business or that have a significant portion of their assets in real estate (including real estate investment trusts);
5. Invest 25% or more of the market value of its assets in the securities of companies engaged in any one industry. (Does not apply to investment in the securities of the U.S. Government, its agencies or instrumentalities.);
6. Purchase or sell commodities (unless acquired as a result of ownership of securities or other investments), except that the Fund may purchase and sell futures contracts and options to the full extent permitted under the 1940 Act, buy or sell foreign currency contracts in accordance with any rules of the Commodity Futures Trading Commission, invest in securities or other

- instruments backed by commodities, and invest in companies that are engaged in a commodities business or have a significant portion of their assets in commodities; or
7. Make loans to others, except (a) through the purchase of debt securities in accordance with its investment objectives and policies, (b) to the extent the entry into a repurchase agreement is deemed to be a loan, and (c) by loaning portfolio securities.

The following lists the non-fundamental investment restrictions applicable to the Fund. These restrictions can be changed by the Board of Trustees, but the change will only be effective after notice is given to shareholders of the Fund.

The Fund may not:

1. Invest in securities of other investment companies except as permitted under the 1940 Act or the rules thereunder;
2. Invest 15% or more of the value of its net assets, computed at the time of investment, in illiquid securities. Illiquid securities are those securities without readily available market quotations, including repurchase agreements having a maturity of more than seven days. Illiquid securities may include restricted securities not determined by the Board of Trustees to be liquid, non-negotiable time deposits, over-the-counter options and repurchase agreements providing for settlement in more than seven days after notice; or
3. Invest in other investment companies advised by the same investment adviser as the Fund or in investment companies advised by affiliates of such adviser.

Except with respect to borrowing and illiquid securities, if a percentage or rating restriction on investment or use of assets set forth herein or in the Prospectus is adhered to at the time a transaction is effected, later changes in percentage resulting from any cause other than actions by the Fund will not be considered a violation.

The Subsidiary will also follow the Fund's fundamental and non-fundamental investment restrictions, described above, with respect to its investments on a consolidated basis. The Fund will look through the Subsidiary for purposes of compliance with diversification, leverage and concentration requirements and restrictions.

## **Management of the Fund**

### **Board of Trustees**

The management and affairs of the Fund are supervised by the Board of Trustees. The Board of Trustees consists of five individuals, four (4) of whom are not "interested persons" (as defined under the 1940 Act) of the Trust and the Adviser ("Independent Trustees"). The Trustees are fiduciaries for the Fund's shareholders and are governed by the laws of the State of Delaware in this regard. The Board of Trustees establishes policies for the operation of the Fund and appoints the officers who conduct the daily business of the Fund.

### **Board Leadership Structure**

The Trust is led by Mr. Brian Nielsen, who has served as the Chairman of the Board since 2011. Mr. Nielsen is an interested person by virtue of his affiliation with Gemini Fund Services, LLC, (the Trust's Administrator, Fund Accountant, and Transfer Agent) and Northern Lights Distributors, LLC (the Fund's Distributor), Northern Lights Compliance Services, LLC (the Fund's Compliance provider) and Blu Giant, LLC (the Fund's Edgar and printing service provider). The Board of Trustees is comprised of Mr. Nielsen and four (4) Independent Trustees. Under certain 1940 Act governance guidelines that apply to the Trust, the Independent Trustees will meet in executive session, at least quarterly. Under the

Trust's Agreement and Declaration of Trust and By-Laws, the Chairman of the Board is responsible for (a) presiding at board meetings, (b) calling special meetings on an as-needed basis, (c) execution and administration of Trust policies including (i) setting the agendas for board meetings and (ii) providing information to board members in advance of each board meeting and between board meetings. The Trust believes that (i) its Chairman, Brian Nielsen (ii) Keith Rhoades, the independent chair of the Audit Committee, and, (iii) as an entity, the full Board of Trustees, provide effective leadership that is in the best interests of the Trust, its funds and each shareholder. The Independent Trustees have selected Anthony Lewis as the Lead Independent Trustee.

In accordance with the fund governance standards prescribed by the SEC under the 1940 Act, the Independent Trustees on the Nominating Committee select and nominate all candidates for Independent Trustee positions. Each Trustee was appointed to serve on the Board of Trustees because of his experience, qualifications, attributes and/or skills as set forth below. The Board of Trustees reviews its leadership structure regularly. The Board of Trustees believes that the structure described above facilitates the orderly and efficient flow of information to the Trustees from the officers of the Trust, the advisers of the funds that comprise the Trust and other service providers, and facilitates the effective evaluation of the risks and other issues, including conflicts of interest, that may impact the Trust as a whole as well as the funds individually. The Board of Trustees believes that the orderly and efficient flow of information and the ability of the Board of Trustees to bring each Trustee's experience and skills to bear in overseeing the Trust's operations is important given the characteristics and circumstances of the Trust, including: the unaffiliated nature of each investment adviser and the fund(s) managed by such adviser; the number of funds that comprise the Trust; the variety of asset classes that those funds reflect; the net assets of the Trust; the committee structure of the Trust; and the independent distribution arrangements of each of the Trust's series. For these reasons, the Board of Trustees believes that its leadership structure is appropriate.

### **Board Responsibilities**

The Board of Trustees' role is one of oversight rather than day-to-day management of any of the Trust's series. The Trust's Audit Committee assists with this oversight function. The Board of Trustees' oversight extends to the Trust's risk management processes. Those processes are overseen by Trust officers, including the President, the Treasurer, the Secretary and Chief Compliance Officer ("CCO"), who regularly report to the Board of Trustees on a variety of matters at Board meetings.

### **Board Risk Oversight**

The Board of Trustees is comprised of Mr. Nielsen and four (4) Independent Trustees with a standing independent Audit Committee with a separate chair. The Board is responsible for overseeing risk management, and the full Board regularly engages in discussions of risk management and receives compliance reports that inform its oversight of risk management from its Chief Compliance Officer at quarterly meetings and on an ad hoc basis, when and if necessary. The Audit Committee considers financial and reporting risk within its area of responsibilities. Generally, the Board believes that its oversight of material risks is adequately maintained through the compliance-reporting chain where the Chief Compliance Officer is the primary recipient and communicator of such risk-related information.

Investment advisers managing the Trust's series report to the Board of Trustees, on a regular and as-needed basis, on actual and possible risks affecting the Trust's series. These investment advisers report to the Board of Trustees on various elements of risk, including investment, credit, liquidity, valuation, operational and compliance risks, as well as any overall business risks that could impact the Trust's series.

The Board of Trustees has appointed the CCO, who reports directly to the Board of Trustees and who participates in its regular meetings. In addition, the CCO presents an annual report to the Board of Trustees in accordance with the Trust's compliance policies and procedures. The CCO, together with the Trust's Treasurer and Secretary, regularly discusses risk issues affecting the Trust and its series during

Board of Trustee meetings. The CCO also provides updates to the Board of Trustees on the operation of the Trust's compliance policies and procedures and on how these procedures are designed to mitigate risk. Finally, the CCO and/or other officers of the Trust report to the Board of Trustees in the event that any material risk issues arise in between Board meetings.

**Trustee Qualifications**

Generally, the Trust believes that each Trustee is competent to serve because of their individual overall merits including: (i) experience, (ii) qualifications, (iii) attributes and (iv) skills. Mr. Nielsen has over ten years of business experience in the investment management and brokerage business and possesses a strong understanding of the regulatory framework under which investment companies must operate. Since 2010, Thomas Sarkany has been the President of TTS Consultants, LLC, a financial services firm and from 1994 through 2010, held various roles at Value Line, Inc. (a publicly held company providing financial research, publications and money management services to retail and institutional investors), including Director of Marketing and Asset Management, Director of Index Licensing, and member of the Board of Directors. Anthony Lewis has been Chairman and CEO of The Lewis Group USA, an executive consulting firm, for the past ten years, and also serves as a Director, the Chairman of the Compensation Committee, and a Member of the Audit Committee of Torotel Inc. Keith Rhoades served as the Director then Senior Director of General Ledger/Financial Research for Union Pacific Railroad, and Randy Skalla has served as the President of L5 Enterprises, Inc. since 2001 and from 2001 through 2017 was a member of the Orizon Investment Counsel Board. The Trust does not believe any one factor is determinative in assessing a Trustee's qualifications, but that the collective experience of each Trustee makes them each highly qualified.

The Board of Trustees has established three standing board committees – the Audit Committee, the Compensation Committee, and the Nominating Committee. All Independent Trustees are members of the Audit Committee and the Nominating Committee. Inclusion of all Independent Trustees as members of the Audit Committee and the Nominating Committee allows all such Trustees to participate in the full range of the Board of Trustees' oversight duties, including oversight of risk management processes.

**Trustees and Officers**

The Trustees and the officers of the Trust are listed below with their addresses, present positions with the Trust and principal occupations over at least the last five years. Unless otherwise noted, the address of each Trustee and Officer is 17605 Wright Street, Omaha, NE 68130.

**Independent Trustees**

Name, Address and Year of Birth	Position/Term of Office*	Principal Occupation During the Past Five Years	Number of Portfolios in Fund Complex*** Overseen by Trustee	Other Directorships held by Trustee During the Past Five Years
Thomas T. Sarkany 1946	Trustee since October 2011	President, TTS Consultants, LLC (since 2010) (financial services).	1	Director, Aquila Distributors, Trustee, Arrow ETF Trust; Trustee, Arrow Investments Trust; Trustee, Northern Lights Fund Trust IV

\* The term of office for each Trustee and Officer listed above will continue indefinitely.

\*\* Brian Nielsen is an “interested person” of the Trust as that term is defined under the 1940 Act, because of his affiliation with Gemini Fund Services, LLC, (the Trust’s Administrator, Fund Accountant, and Transfer Agent) and Northern Lights Distributors, LLC (the Fund’s Distributor), Northern Lights Compliance Services, LLC (the Fund’s Compliance provider) and Blu Giant, LLC (the Fund’s Edgar and printing service provider).

\*\*\* As of August 31, 2018, the Trust was comprised of 22 active portfolios managed by unaffiliated investment advisers. The term “Fund Complex” applies only to the Fund. The Fund does not hold itself out as related to any other series within the Trust for investment purposes, nor does it share the same investment adviser with any other series.

## Board Committees

Audit Committee. The Board has an Audit Committee, which is comprised of the independent members of the Board of Trustees. The Audit Committee reviews financial statements and other audit-related matters for the Fund. The Audit Committee also holds discussions with management and with the Fund’s independent auditor concerning the scope of the audit and the auditor’s independence and will meet at least four times annually. During the fiscal year ended August 31, 2018 the Audit Committee met ten times.

Nominating Committee. The Board has a Nominating Committee, which is comprised of the independent members of the Board of Trustees. The Nominating Committee is responsible for seeking and reviewing candidates for consideration as nominees for the position of trustee and meets only as necessary. The Nominating Committee generally will not consider shareholder nominees.

Compensation Committee. The Board has a Compensation Committee, which is comprised of the independent members of the Board of Trustees. The role of the Compensation Committee is to oversee the evaluation of, and review and approve compensation for, the independent members of the Board of Trustees. The Compensation Committee will generally meet annually.

## Other Committees of the Trust

Valuation Committee. The Trust has a Valuation Committee. The Valuation Committee is responsible for the following: (1) monitoring the valuation of Fund securities and other investments; and (2) as required, when the Board of Trustees is not in session, determining the fair value of illiquid securities and other holdings after consideration of all relevant factors, which determinations are reported to the Board. The Valuation Committee shall, at all times, consist of no less than three members, including the Trust’s President and Treasurer, and may include such number of alternate members that are officers of the Trust’s Administrator or the investment adviser of a series of the Trust as the Board of Trustees or the members of the Valuation Committee may from time to time designate. The Valuation Committee meets as necessary when a price for a portfolio security is not readily available.

## Trustee Compensation

Effective January 1, 2019, each Trustee will receive a quarterly fee of \$21,250 (the “Trustee Fee”) to be paid at the beginning of each calendar quarter, allocated among each of the various portfolios comprising the Trust. Each Trustee will also receive reimbursement for any reasonable expenses incurred attending the regular quarterly meetings of the Trust. In addition to the Trustee Fee, the Audit Committee Chairman will receive an additional quarterly fee of \$4,000 and the Chairman of the Trust will receive an additional quarterly fee of \$5,250. For special in-person meetings, each Trustee will receive a \$2,500

special in-person meeting fee, as well as reimbursement for any reasonable expenses incurred attending the special in-person meeting, which fees will generally be paid by the Adviser requesting the special in-person meeting. None of the executive officers will receive compensation from the Trust.

Prior to January 1, 2019, each Trustee received a quarterly fee of \$20,000 (the “Trustee Fee”) paid at the beginning of each calendar quarter, allocated among each of the various portfolios comprising the Trust. Each Trustee also received reimbursement for any reasonable expenses incurred attending the regular quarterly meetings of the Trust. In addition to the Trustee Fee, the Audit Committee Chairman received an additional quarterly fee of \$3,750 and the Chairman of the Trust received an additional quarterly fee of \$5,000. For special in-person meetings, each Trustee received a \$2,500 special in-person meeting fee, as well as reimbursement for any reasonable expenses incurred attending the special in-person meeting, which fees were generally be paid by the Adviser requesting the special in-person meeting. None of the executive officers received compensation from the Trust.

The table below details the amount of compensation the Trustees received from the Fund during the year ended August 31, 2018.

Name	The Fund	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation From the Fund Complex Paid to Trustees ***
Thomas T. Sarkany	\$3,367	None	None	\$3,367
Anthony Lewis	\$3,367	None	None	\$3,367
Keith Rhoades*	\$4,008	None	None	\$4,008
Randy Skalla	\$3,367	None	None	\$3,367
Brian Nielsen**	\$2,084	None	None	\$2,084

\*Mr. Rhoades also serves as Chairman of the Audit Committee.

\*\*Brian Nielsen is deemed to be an ‘interested person’ as defined in the 1940 Act as a result of his affiliation with Gemini Fund Services, LLC (the Trust’s Administrator, Transfer Agent and Fund Accountant), Northern Lights Distributors, LLC (the Fund’s Distributor) and Northern Lights Compliance Services, LLC (the Trust’s compliance service provider) and Blu Giant, LLC (the Fund’s Edgar and printing service provider). Mr. Nielsen also serves as the Chairman of the Trust.

\*\*\*There are currently numerous series comprising the Trust. The term “Fund Complex” refers only to the Fund, and not to any other series of the Trust. For the fiscal year ended August 31, 2018, aggregate independent Trustees’ fees were \$385,000.

### Trustee Ownership

The following table indicates the dollar range of equity securities that each Trustee beneficially owned in the Fund and other series of the Trust as of December 31, 2017.

Name of Trustee	Dollar Range of Equity Securities in the Fund	Aggregate Dollar Range of Equity Securities in All Registered Investment Companies Overseen by Trustee in Family of Investment Companies
Thomas T. Sarkany	None	None
Anthony Lewis	None	None
Keith Rhoades	None	None
Randal Skalla	None	None
Brian Nielsen*	None	None

\* This Trustee is deemed to be an ‘interested person’ as defined in the 1940 Act as a result of his affiliation with Gemini Fund Services, LLC (the Trust’s Administrator, Transfer Agent and Fund Accountant), Northern Lights Distributors, LLC (the Funds’ Distributor), Northern Lights Compliance Services, LLC (the Trust’s compliance service provider) and Blu Giant, LLC (the Fund’s Edgar and printing service provider).

### Control Persons and Principal Shareholders

A principal shareholder is any person who owns of record or beneficially 5% or more of the outstanding shares of the Fund. A control person is one who owns beneficially or through controlled companies more than 25% of the voting securities of the Fund or acknowledges the existence of control. A controlling person possesses the ability to control the outcome of matters submitted for shareholder vote by the Fund. As of the date of this SAI, there were no principal or control shareholders as there were no shares of the Fund outstanding. As of December 3, 2018 the following persons owned, beneficially or of record, 5% or more of a class of shares of the Fund.

<u>Name of Shareholder</u>	<u>% Of Share Class Owned</u>

### **Investment Adviser**

Price Asset Management, LLC (the “Adviser”), located at 141 W Jackson Blvd, Suite 1320A, Chicago, IL, 60604, serves as investment adviser to the Fund. The Adviser is 68% owned by Peak View Capital (“Peak View”), 19.2% by Alan Konn, and 12.8% by ARK Investors Fund, LLC. Peak View is an investment vehicle whose voting interests are currently owned 75% by John Reese and 25% by David Schink, and Mr. Reese and Mr. Schink are its managers. ARK Investors Fund, LLC is an investment vehicle whose voting interests are currently owned 100% by Alan Konn.

Pursuant to an investment advisory agreement (the “Advisory Agreement”) with the Trust, on behalf of the Fund, the Adviser, subject to the supervision of the Board of the Trustees, and in conformity with the stated policies of the Fund, manages the portfolio investment operations of the Fund. The Adviser has overall supervisory responsibilities for the general management and investment of the Fund’s securities portfolio, as detailed below, which are subject to review and approval by the Board of Trustees. Pursuant to the terms of the Advisory Agreement, the Adviser provides the Fund with such investment advice and supervision as it deems necessary for the proper supervision of the Fund’s investments.

After an initial period of two years, the Advisory Agreement will continue in effect from year to year only if such continuance is specifically approved at least annually by the Board of Trustees or by vote of a majority of the Fund’s outstanding voting securities and by a majority of the trustees who are not parties to the Advisory Agreement or interested persons of any such party, at a meeting called for the purpose of voting on the Advisory Agreement. The Advisory Agreement is terminable without penalty by the Trust on behalf of the Fund upon 60 days’ prior written notice when authorized either by a majority vote of the applicable Fund’s shareholders or by a vote of a majority of the Board of Trustees, or by the Adviser upon 60 days’ prior written notice, and will automatically terminate in the event of its “assignment” (as defined in the 1940 Act). The Advisory Agreement provides that the Adviser, under such agreement, shall not be liable for any error of judgment or mistake of law or for any loss arising out of any investment or for any act or omission in the execution of portfolio transactions for the Fund, except for willful misfeasance, bad faith or negligence in the performance of its duties, or by reason of reckless disregard of its obligations and duties thereunder.

Under the Advisory Agreement, the Adviser, under the supervision of the Board, agrees (directly or through a Sub-Adviser) to invest the assets of the Fund in accordance with applicable law and the investment objective, policies and restrictions set forth in the Fund's current Prospectus and Statement of Additional Information, and subject to such further limitations as the Trust may from time to time impose by written notice to the Adviser. The Adviser shall act as the investment advisor to the Fund and, as such shall (directly or through a sub-advisor) (i) obtain and evaluate such information relating to the economy, industries, business, securities markets and securities as it may deem necessary or useful in discharging its responsibilities here under, (ii) formulate a continuing program for the investment of the assets of the Fund in a manner consistent with its investment objective, policies and restrictions, and (iii) determine from time to time securities to be purchased, sold or retained by the Fund, and implement those decisions, including the selection of entities with or through which such purchases or sales are to be effected; provided, that the Adviser (directly or through a sub-advisor) will place orders pursuant to its investment determinations either directly with the issuer or with a broker or dealer, and if with a broker or dealer, (a) will attempt to obtain the best price and execution of its orders, and (b) may nevertheless in its discretion purchase and sell portfolio securities from and to brokers who provide the Adviser with research, analysis, advice and similar services and pay such brokers in return a higher commission or spread than may be charged by other brokers. The Adviser also provides the Fund with all necessary office facilities and personnel for servicing the Fund's investments, compensates all officers, Trustees and employees of the Trust who are officers, directors or employees of the Adviser, and all personnel of the Fund or the Adviser performing services relating to research, statistical and investment activities. The Advisory Agreement was approved by the Board of the Trust, including by a majority of the Independent Trustees, at a meeting held on December 16, 2015 and most recently renewed by the Board at a meeting held on January 23-24, 2018.

In addition, the Adviser, directly subject to the supervision of the Board of Trustees, provides the management services necessary for the operation of the Fund and such additional administrative services as reasonably requested by the Board of Trustees. These services include providing such office space, office equipment and office facilities as are adequate to fulfill the Adviser's obligations under the Advisory Agreement; assisting the Trust in supervising relations with custodians, transfer and pricing agents, accountants, underwriters and other persons dealing with the Fund; assisting in preparing all general shareholder communications and conducting shareholder relations; assuring the Fund's records and the registration of the Fund's shares under federal securities laws and making necessary filings under state securities laws; developing management and shareholder services for the Fund; and furnishing reports, evaluations and analyses on a variety of subjects to the Trustees. Pursuant to the Advisory Agreement, the Fund pays the Adviser a management fee at the annual rate of 0.79% of the Fund's average daily net assets.

The fee is computed daily and payable monthly. The Adviser has agreed contractually to waive its management fee and to reimburse operating expenses (excluding any front-end or contingent deferred loads, brokerage fees and commissions, acquired fund fees and expenses, borrowing costs (such as interest and dividend expense on securities sold short), taxes and extraordinary expenses such as litigation) at least until December 31, 2019, such that net annual fund operating expenses of the Fund do not exceed the percentages in the table below. This operating expense limitation agreement can be terminated only by, or with the consent of, the Board of Trustees. The Adviser is permitted to receive reimbursement from the Fund for fees it waived and Fund expenses it paid, subject to the limitation that: (1) the reimbursement for fees and expenses will be made only if payable within three years from the date the fees and expenses were initially waived or reimbursed; and (2) the reimbursement may not be made if it would cause the expense limitation in effect at the time of the waiver or currently in effect, whichever is lower, to be exceeded. Fee waiver and reimbursement arrangements can decrease the Fund's expenses and increase its performance.

Share Class	Expense Cap
Class A	1.35%
Class C	2.10%
Class I	1.10%

Expenses not expressly assumed by the Adviser under the Advisory Agreement are paid by the Fund. Under the terms of the Advisory Agreement, the Fund is responsible for the payment of the following expenses among others: (a) the fees payable to the Adviser, (b) the fees and expenses of Trustees who are not affiliated persons of the Adviser or Distributor (as defined under the section entitled (“The Distributor”) (c) the fees and certain expenses of the Custodian (as defined under the section entitled “Custodian”) and Transfer and Dividend Disbursing Agent (as defined under the section entitled “Transfer Agent”), including the cost of maintaining certain required records of the Fund and of pricing the Fund’s shares, (d) the charges and expenses of legal counsel and independent accountants for the Fund, (e) brokerage commissions and any issue or transfer taxes chargeable to the Fund in connection with its securities transactions, (f) all taxes and corporate fees payable by the Fund to governmental agencies, (g) the fees of any trade association of which the Fund may be a member, (h) the cost of share certificates representing shares of the Fund, (i) the cost of fidelity and liability insurance, (j) the fees and expenses involved in registering and maintaining registration of the Fund and of its shares with the SEC, qualifying its shares under state securities laws, including the preparation and printing of the Fund’s registration statements and prospectuses for such purposes, (k) all expenses of shareholders and Trustees’ meetings (including travel expenses of trustees and officers of the Trust who are directors, officers or employees of the Adviser) and of preparing, printing and mailing reports, proxy statements and prospectuses to shareholders in the amount necessary for distribution to the shareholders, and (l) litigation and indemnification expenses and other extraordinary expenses not incurred in the ordinary course of the Trust’s business.

For the fiscal years ended August 31 the Fund paid the following advisory fees to the Adviser pursuant to the investment advisory agreement with the Fund, of which the Adviser waived or recouped the amount set forth in the table below.

Fiscal Years Ended	Advisory Fee	Recoupment (Waiver)	Expense Reimbursement	Advisory Fee after Waivers
August 31, 2016	\$76,984	(\$76,984)	(\$161,557)	\$0
August 31, 2017	\$172,862	(\$172,862)	(\$66,898)	\$0
August 31, 2018	\$353,740	(\$230,741)	\$0	\$122,999

### Portfolio Managers

The following section provides information regarding the Portfolio Managers, other accounts managed by the Portfolio Managers, compensation, material conflicts of interests, and any ownership of securities in the Fund.

*John D. Reese.* Mr. Reese is the chief executive officer of Price Asset Management, LLC where he oversees management, investment and marketing functions. Mr. Reese was born in 1955. Mr. Reese earned a B.A. in Economics from Westminster College in 1977. Mr. Reese is registered as a principal and associated person of Price Asset Management, Inc. and holds a Series 3 License. Prior to joining Price Asset Management, LLC in 2012, Mr. Reese was the founder and managing director of Peak View Capital LLC, a private investment firm focused on acquisitions in the asset management industry. Until 2010, Mr. Reese was executive managing director and senior vice-president of Wells Fargo Asset Management’s Evergreen Investments division, where he was principally responsible for the European Credit

Management Ltd. (ECM) investment subsidiary business in North America. Prior to the acquisition of ECM by Wachovia Bank in 2007, and Wachovia's acquisition by Wells Fargo in 2008, Mr. Reese was president of ECM, Inc., the US-based investment business of ECM from 2002, and a partner and member of the board of directors of the parent firm. From 1981 to 2001, Mr. Reese was employed by Merrill Lynch in a variety of capacities, including most recently as managing director in the Global Debt Markets division in New York.

*David F. Schink.* Mr. Schink is the chief operating officer and general counsel of Price Asset Management, LLC, where he is responsible for investment activities and operations and legal functions. Mr. Schink is a registered principal and associated person of Price Asset Management, LLC and holds a Series 3 license. Mr. Schink is also a managing partner of Peak View Capital LLC, which he joined in 2011. From 2004 to 2011, Mr. Schink was chief operating officer and general counsel of Contego Capital Partners, LLC, a Chicago-based registered investment advisor specializing in hedge fund investing where he was involved in strategic and day-to-day business affairs and was responsible for legal and regulatory risk management. From 2000 to 2004, Mr. Schink was an associate at Kirkland & Ellis, LLP, where he represented private equity funds, registered investment advisors and other investment vehicles in a variety of transactions, and from 1998 to 2000 he was an associate at Sidley & Austin, where he represented financial institutions in structuring and negotiating structured finance and secured lending transactions. Mr. Schink holds a B.A. from Hamilton College and a J.D. from Boston University School of Law.

*Alan Konn.* Mr. Konn is the Managing Director of the Institutional Client Group, Co-Chairman of Price Holdings Inc., and Managing Director of Price Asset Management, LLC. He holds FINRA Series 3, 7, 24 and 63 licenses and is an NFA principal. Mr. Konn joined the Price Group and became registered and a Member with Uhlmann Price Securities Inc. (UPS), our affiliated broker dealer, in early 2003. In his capacity as Managing Director of UPS, he is responsible for Price Asset Management's institutional client marketing. Prior to Price, Alan spent 17 years as an investment executive with William Blair & Co. where he worked as a portfolio manager assisting high net worth clients with asset allocation and investment strategies. Prior to that he was employed by First National Bank of Chicago in the corporate finance department. Alan has a BA in Psychology from Hamline University, and an MBA in Finance and Accounting from UCLA.

#### **Other Accounts Managed by the Portfolio Managers**

The table below identifies, for each Portfolio Manager of the Fund, the number of accounts managed (excluding the Fund) and the total assets in such accounts, within each of the following categories: registered investment companies, other pooled investment vehicles, and other accounts. To the extent that the advisory fees for any of these accounts are based on account performance, this information is reflected in separate tables below. Asset amounts are approximate as of the date of this SAI, and have been rounded.

The table below identifies, for each Portfolio Manager of the Fund, the number of accounts managed (excluding the Fund) and the total assets in such accounts, within each of the following categories: registered investment companies, other pooled investment vehicles, and other accounts. To the extent that the advisory fees for any of these accounts are based on account performance, this information is reflected in separate tables below. Asset amounts are as August 31, 2018 and have been rounded.

Portfolio Manager	Registered Investment Companies (excluding the Fund)		Other Pooled Investment Vehicles		Other Accounts	
	Number of Accounts	Total Assets in the Accounts	Number of Accounts	Total Assets in the Accounts	Number of Accounts	Total Assets in the Accounts
John D. Reese	0	\$0	5	\$31 million	0	\$0
David F. Schink	0	\$0	5	\$31 million	0	\$0
Alan Konn	0	\$0	5	\$31 million	125	\$85 million

### Material Conflicts of Interest

Actual or apparent material conflicts of interest may arise when a Portfolio Manager has day-to-day management responsibilities with respect to more than one investment account or in other circumstances. Portfolio Managers who manage other investment accounts in addition to the Fund may be presented with the potential conflicts described below.

The investment adviser has responsibility for managing multiple client accounts and, as such, potential conflicts of interest may arise. Those conflicts could include preferential treatment of one account over others in terms of allocation of resources or of investment opportunities. For instance, the adviser may receive fees from certain client accounts that are higher than the fee it receives from the Fund. Currently, the accounts for which the adviser has discretion (including the Fund) follow an investment strategy that utilizes a rules-based methodology, which dictates the trading activity for such accounts and thus reduces the potential for a conflict of interest.

In the future, Price Asset Management may have responsibility for accounts that follow different investment strategies. It has adopted certain compliance procedures which are designed to address these types of conflicts (i.e., allocation of resources or of investment opportunities) common among investment managers. However, there is no guarantee that such procedures will detect each and every situation in which a conflict arises.

### Portfolio Managers' Compensation

The Portfolio Managers' generally receive compensation that includes a base salary and a discretionary bonus. Discretionary bonuses paid to the Portfolio Managers are based on a variety of factors, including the profitability of the Adviser and certain other performance metrics determined by the Adviser's management team.

### Portfolio Managers' Ownership of the Fund

The following table shows the dollar range of equity securities beneficially owned by the portfolio managers of the Fund as of the fiscal period ended August 31, 2018.

Name of Portfolio Manager	Dollar Range of Equity Securities in Managed Fund
John D. Reese	0-\$10,000
David F. Schink	0-\$10,000
Alan Konn	Over \$50,000

## Other Service Providers

### Administrator

Pursuant to a Fund Services Agreement (the “Administration Service Agreement”), Gemini Fund Services, LLC (“GFS”), 80 Arkay Drive, Hauppauge, New York 11788 (the “Administrator”), acts as administrator for the Fund, subject to the supervision of the Board. GFS is primarily in the business of providing administrative, fund accounting and transfer agent services to retail and institutional mutual funds. GFS is an affiliate of the Distributor. GFS may provide persons to serve as officers of the Fund. Such officers may be directors, officers or employees of GFS or its affiliates.

The Administration Service Agreement was initially approved by the Board at a meeting held on April 24-25, 2014. The Agreement shall remain in effect for two years from the date of the Fund’s commencement of operations, and subject to annual approval of the Board for one-year periods thereafter. The Administration Service Agreement is terminable by the Board or GFS on 60 days’ prior written notice and may be assigned provided the non-assigning party provides prior written consent. This Agreement provides that in the absence of willful misfeasance, bad faith or gross negligence on the part of GFS or reckless disregard of its obligations thereunder, GFS shall not be liable for any action or failure to act in accordance with its duties thereunder.

Under the Administration Service Agreement, GFS provides facilitating administrative services, including: (i) providing services of persons competent to perform such administrative and clerical functions as are necessary to provide effective administration of the Fund; (ii) facilitating the performance of administrative and professional services to the Fund by others, including the Fund’s Custodian; (iii) preparing, but not paying for, the periodic updating of the Fund’s Registration Statement, Prospectuses and Statement of Additional Information in conjunction with Fund counsel, including the printing of such documents for the purpose of filings with the SEC and state securities administrators, and preparing reports to the Fund’s shareholders and the SEC; (iv) preparing in conjunction with Fund counsel, but not paying for, all filings under the securities or “Blue Sky” laws of such states or countries as are designated by the Distributor, which may be required to register or qualify, or continue the registration or qualification, of the Fund and/or its shares under such laws; (v) preparing notices and agendas for meetings of the Board and minutes of such meetings in all matters required by the 1940 Act to be acted upon by the Board; and (vi) monitoring daily and periodic compliance with respect to all requirements and restrictions of the 1940 Act, the Internal Revenue Code and the Prospectus.

For the services rendered to the Fund by the Administrator, the Fund pays the Administrator the greater of an annual minimum fee or an asset based fee, which scales downward based upon net assets for fund administration services. The Fund also pays the Administrator for any out-of-pocket expenses. For the fiscal years ended August 31 the Fund incurred the following fees for fund administration services.

<b>Fiscal Year Ended</b>	<b>Administration Fees</b>
August 31, 2016	\$32,000
August 31, 2017	\$40,908
August 31, 2018	\$48,825

### Fund Accounting

GFS, pursuant to the Fund Accounting Service Agreement, provides the Fund with accounting services, including: (i) daily computation of net asset value; (ii) maintenance of security ledgers and books and records as required by the 1940 Act; (iii) production of the Fund’s listing of portfolio securities and general ledger reports; (iv) reconciliation of accounting records; (v) calculation of yield and total return for the Fund; (vi) maintaining certain books and records described in Rule 31a-1 under the 1940 Act, and reconciling account information and balances among the Fund’s custodian or Adviser; and (vii)

monitoring and evaluating daily income and expense accruals, and sales and redemptions of shares of the Fund. For the services rendered to the Fund by the Administrator, the Fund pays the Administrator the greater of an annual minimum fee or an asset based fee, which scales downward based upon net assets for fund accounting services. The Fund also pays the Administrator for any out-of-pocket expenses. For the fiscal years ended August 31 the Fund incurred the following fees for fund accounting services.

<b>Fiscal Year Ended</b>	<b>Fund Accounting Fees</b>
August 31, 2016	\$25,667
August 31, 2017	\$28,823
August 31, 2018	\$29,631

#### **Transfer Agent**

GFS, 17605 Wright Street, Suite 2, Omaha, NE 68130, acts as transfer, dividend disbursing, and shareholder servicing agent for the Fund pursuant to a written agreement with the Fund. Under the agreement, GFS is responsible for administering and performing transfer agent functions, dividend distribution, shareholder administration, and maintaining necessary records in accordance with applicable rules and regulations. For the fiscal years ended August 31 the Fund incurred the following fees for transfer agency services.

<b>Fiscal Year Ended</b>	<b>Transfer Agency Fees</b>
August 31, 2016	\$57,229
August 31, 2017	\$59,773
August 31, 2018	\$64,628

#### **Custodian**

MUFG Union Bank serves as the custodian of the Fund’s assets pursuant to a Custody Agreement by and between the Custodian and the Trust on behalf of the Fund. The Custodian’s responsibilities include safeguarding and controlling the Fund’s cash and securities, handling the receipt and delivery of securities, and collecting interest and dividends on the Fund’s investments. Pursuant to the Custody Agreement, the Custodian also maintains original entry documents and books of record and general ledgers; posts cash receipts and disbursements; and records purchases and sales based upon communications from the Adviser. The Fund may employ foreign sub-custodians that are approved by the Board to hold foreign assets.

#### **Compliance Services**

Northern Lights Compliance Services, LLC (“NLCS”), 17605 Wright Street Omaha, NE 68130, an affiliate of GFS and the Distributor, provides a Chief Compliance Officer to the Trust as well as related compliance services pursuant to a consulting agreement between NLCS and the Trust. The Fund pays a compliance service fee to NLCS. For the fiscal years ended August 31 the Fund incurred the following fees for compliance services.

<b>Fiscal Year Ended</b>	<b>Compliance Consulting Fees</b>
August 31, 2016	\$18,745
August 31, 2017	\$23,013
August 31, 2018	\$27,018

### Legal Counsel

Alston & Bird, LLP, 950 F Street NW, Washington, D.C. 20004 serves as counsel to the Trust. Blank Rome LLP, 405 Lexington Avenue, New York, NY 10174, serves as counsel to the Independent Trustees.

### Independent Registered Public Accounting Firm

RSM US LLP serves as the independent registered public accounting firm of the Fund.

### Distribution of Fund Shares

Northern Lights Distributors, LLC, located at 17605 Wright Street, Omaha, NE 68130 (the "Distributor") serves as the principal underwriter and national distributor for the shares of the Fund pursuant to an underwriting agreement with the Trust (the "Underwriting Agreement"). The Distributor is registered as a broker-dealer under the Securities Exchange Act of 1934 and each state's securities laws and is a member of FINRA. The offering of the Fund's shares are continuous. The Underwriting Agreement provides that the Distributor, as agent in connection with the distribution of Fund shares, will use reasonable efforts to facilitate the sale of the Fund's shares.

The Underwriting Agreement has an initial term of 2 years and will continue in effect only if such continuance is specifically approved at least annually by the Board of Trustees or by vote of a majority of the Fund's outstanding voting securities and, in either case, by a majority of the trustees who are not parties to the Underwriting Agreement or "interested persons" (as defined in the 1940 Act) of any such party. The Underwriting Agreement is terminable without penalty by the Trust on behalf of the Fund on 60 days' notice when authorized either by a majority vote of the Fund's outstanding voting securities or by vote of a majority of the Board of Trustees, including a majority of the trustees who are not "interested persons" (as defined in the 1940 Act) of the Trust, or by the Distributor on 60 days' notice, and will automatically terminate in the event of its "assignment" (as defined in the 1940 Act).

The Distributor may enter into selling agreements with broker-dealers that solicit orders for the sale of shares of the Fund and may allow concessions to dealers that sell shares of the Fund.

The following table sets forth the total compensation received by the Distributor from the Fund during the fiscal year ended August 31, 2018.

<i>Fund</i>	<i>Net Underwriting Discounts and Commissions</i>	<i>Compensation on Redemptions and Repurchases</i>	<i>Brokerage Commissions</i>	<i>Other Compensation</i>
PCS Commodity Strategy Fund Class A Shares	\$4,068	\$0	\$0	\$0
PCS Commodity Strategy Fund Class C Shares	\$0	\$0	\$0	\$0

The Distributor also receives 12b-1 fees from the Funds as described under the following section entitled "Rule 12b-1 Plan".

### 12b-1 Distribution and Shareholder Servicing Plans

As noted in the Prospectus, the Trust has adopted Distribution and Shareholder Servicing Plans pursuant to Rule 12b-1 under the 1940 Act for each of the Fund's Class A shares and Class C shares (the "Plans") pursuant to which the Class A shares and Class C shares of the Fund are authorized to pay fees to the Distributor for providing distribution and/or shareholder services to the Fund. Under each Plan, Class

A shares of the Fund may pay a combined distribution and/or shareholder servicing fee at an annual rate of up to 0.25% of the average net assets of such share class as compensation for the Distributor providing account maintenance and/or distribution services to shareholders, and Class C shares of the Fund may pay a combined distribution and/or shareholder servicing fee at an annual rate of up to 1.00% of the average net assets of such share class as compensation for the Distributor providing account maintenance and/or distribution services to shareholders. Such fees are to be paid by the Fund monthly, or at such other intervals, as the Board shall determine. Such fees shall be based upon each share class's average daily net assets during the preceding month, and shall be calculated and accrued daily. The Fund may pay fees to the Distributor at a lesser rate, as agreed upon by the Board of the Trust and the Distributor. The Plan authorizes payments to the Distributor as compensation for providing account maintenance services to Fund shareholders, including arranging for certain securities dealers or brokers, administrators and others ("Recipients") to provide these services and paying compensation for these services.

The services to be provided by Recipients may include, but are not limited to, the following: assistance in the offering and sale of Fund shares and in other aspects of the marketing of the shares to clients or prospective clients of the respective recipients; answering routine inquiries concerning the Fund; assisting in the establishment and maintenance of accounts or sub-accounts in the Fund and in processing purchase and redemption transactions; making the Fund's investment plan and shareholder services available; and providing such other information and services to investors in shares of the Fund as the Distributor or the Trust, on behalf of the Fund, may reasonably request. The distribution services shall also include any advertising and marketing services provided by or arranged by the Distributor with respect to the Fund. The Adviser may be compensated by the Distributor for its distribution and marketing efforts.

The Distributor is required to provide a written report, at least quarterly to the Board of the Trust, specifying in reasonable detail the amounts expended pursuant to the Rule 12b-1 Plan and the purposes for which such expenditures were made. Further, the Distributor will inform the Board of any Rule 12b-1 fees to be paid by the Distributor to Recipients.

The initial term of the Rule 12b-1 Plan is one year and will continue in effect from year to year thereafter, provided such continuance is specifically approved at least annually by a majority of the Board of the Trust and a majority of the Trustees who are not "interested persons" of the Trust and do not have a direct or indirect financial interest in the Rule 12b-1 Plan ("Rule 12b-1 Trustees") by votes cast in person at a meeting called for the purpose of voting on the Rule 12b-1 Plan. The Rule 12b-1 Plan may be terminated at any time by the Trust or the Fund by vote of a majority of the Rule 12b-1 Trustees or by vote of a majority of the outstanding voting shares of the Fund.

The Rule 12b-1 Plan may not be amended to increase materially the amount of the Distributor's compensation to be paid by the Fund, unless such amendment is approved by the vote of a majority of the outstanding voting securities of the affected class of the Fund (as defined in the 1940 Act). All material amendments must be approved by a majority of the Board of the Trust and a majority of the Rule 12b-1 Trustees by votes cast in person at a meeting called for the purpose of voting on a Rule 12b-1 Plan. During the term of a Rule 12b-1 Plan, the selection and nomination of non-interested Trustees of the Trust will be committed to the discretion of current non-interested Trustees. The Distributor will preserve copies of the Rule 12b-1 Plan, any related agreements, and all reports, for a period of not less than six years from the date of such document and for at least the first two years in an easily accessible place.

Any agreement related to a Rule 12b-1 Plan will be in writing and provide that: (a) it may be terminated by the Trust or the applicable Fund at any time upon sixty days' written notice, without the payment of any penalty, by vote of a majority of the respective Rule 12b-1 Trustees, or by vote of a majority of the

outstanding voting securities of the Trust or Fund; (b) it will automatically terminate in the event of its assignment (as defined in the 1940 Act); and (c) it will continue in effect for a period of more than one year from the date of its execution or adoption only so long as such continuance is specifically approved at least annually by a majority of the Board and a majority of the Rule 12b-1 Trustees by votes cast in person at a meeting called for the purpose of voting on such agreement.

To the extent these asset-based fees and other payments made under the Distribution Plan to these financial intermediaries for the distribution services they provide to the Fund’s shareholders exceed the Distribution Fees available, these payments are made by the Adviser from its own resources, which may include its profits from the advisory fee it receives from the Fund. In addition, the Fund may participate in various “fund supermarkets” in which a mutual fund supermarket sponsor (usually a broker-dealer) offers many mutual funds to the sponsor’s customers without charging the customers a sales charge. In connection with its participation in such platforms, the Adviser may use all or a portion of the Distribution Fee to pay one or more supermarket sponsors a negotiated fee for distributing the Fund’s shares. In addition, in its discretion, the Adviser may pay additional fees to such intermediaries from its own assets.

During the fiscal year ended August 31, 2018 the Fund paid the following allocated distribution fees:

<b>12b-1 Expenditures Paid by PCS Commodity Strategy Fund Shares During the Fiscal Year Ended August 31, 2018</b>		
	<b>Total Dollars Allocated Class A Shares</b>	<b>Total Dollars Allocated Class C Shares</b>
Advertising/Marketing	None	None
Printing/Postage	None	None
Payment to distributor	\$7,357	\$4,656
Payment to dealers	\$1,019	\$632
Compensation to sales personnel	None	None
Other	\$35,048	\$21,686
<b>Total</b>	<b>\$43,424</b>	<b>\$26,974</b>

## **Portfolio Transactions and Brokerage**

Pursuant to the Advisory Agreement and each Sub-Advisory Agreement, the Adviser and Sub-Advisers determine which securities are to be purchased and sold by the Fund and which broker-dealers are eligible to execute the Fund’s portfolio transactions. Purchases and sales of securities in the OTC market will generally be executed directly with a “market-maker” unless, in the opinion of the Adviser, a better price and execution can otherwise be obtained by using a broker for the transaction.

Purchases of portfolio securities for the Fund will be effected through broker-dealers (including banks) that specialize in the types of securities that the Fund will be holding, unless better executions are available elsewhere. Dealers usually act as principal for their own accounts. Purchases from dealers will include a spread between the bid and the asked price. If the execution and price offered by more than one dealer are comparable, the order may be allocated to a dealer that has provided research or other services as discussed below.

In placing portfolio transactions, the Adviser will use reasonable efforts to choose broker-dealers capable of providing the services necessary to obtain the most favorable price and execution available. The full range and quality of services available will be considered in making these determinations, such as the size

of the order, the difficulty of execution, the operational facilities of the firm involved, the firm's risk in positioning a block of securities and other factors. In those instances where it is reasonably determined that more than one broker-dealer can offer the services needed to obtain the most favorable price and execution available, consideration may be given to those broker-dealers that furnish or supply research and statistical information to the Adviser that they may lawfully and appropriately use in their investment advisory capacities, as well as provide other brokerage services in addition to execution services. The Adviser considers such information, which is in addition to and not in lieu of the services required to be performed by it under its Advisory Agreement with the Fund, to be useful in varying degrees, but of indeterminable value.

While it is the Fund's general policy to first seek to obtain the most favorable price and execution available in selecting a broker-dealer to execute portfolio transactions for the Fund, weight is also given to the ability of a broker-dealer to furnish brokerage and research services to the Fund or to the Adviser, even if the specific services are not directly useful to the Fund and may be useful to the Adviser in advising other clients. In negotiating commissions with a broker or evaluating the spread to be paid to a dealer, the Fund may therefore pay a higher commission or spread than would be the case if no weight were given to the furnishing of these supplemental services, provided that the amount of such commission or spread has been determined in good faith by the Adviser to be reasonable in relation to the value of the brokerage and/or research services provided by such broker-dealer. The standard of reasonableness is to be measured in light of the Adviser's overall responsibilities to the Fund.

Investment decisions for the Fund may or may not be made independently from those of other client accounts of the Adviser. In certain instances, investment decisions will be made similar to other accounts managed. In the case where the Fund uses similar strategies, applicable procedures will be taken to ensure trading allocations will be handled fairly and abide by all appropriate rules and regulations. Nevertheless, it is possible that at times identical securities will be acceptable for both the Fund and one or more of such client accounts. In such event, the position of the Fund and such client account(s) in the same issuer may vary and the length of time that each may choose to hold its investment in the same issuer may likewise vary. However, to the extent any of these client accounts seek to acquire the same security as the Fund at the same time, the Fund may not be able to acquire as large a portion of such security as it desires, or it may have to pay a higher price or obtain a lower yield for such security. Similarly, the Fund may not be able to obtain as high a price for, or as large an execution of, an order to sell any particular security at the same time. If one or more of such client accounts simultaneously purchases or sells the same security that the Fund is purchasing or selling, each day's transactions in such security will be allocated between the Fund and all such client accounts in a manner deemed equitable by the Adviser, taking into account the respective sizes of the accounts and the amount being purchased or sold. It is recognized that in some cases this system could have a detrimental effect on the price or value of the security insofar as the Fund is concerned. In other cases, however, it is believed that the ability of the Fund to participate in volume transactions may produce better executions for the Fund. Notwithstanding the above, the Adviser may execute buy and sell orders for accounts and take action in performance of their duties with respect to any of their accounts that may differ from actions taken with respect to another account, so long as the Adviser shall, to the extent practical, allocate investment opportunities to accounts, including the Fund, over a period of time on a fair and equitable basis and in accordance with applicable law.

The Fund is required to identify any securities of its "regular brokers or dealers" that the Fund has acquired during its most recent fiscal year. The Fund is also required to identify any brokerage transactions during its most recent fiscal year that were directed to a broker because of research services provided, along with the amount of any such transactions and any related commissions paid by the Fund.

Brokers or dealers executing a portfolio transaction on behalf of the Fund may receive a commission in excess of the amount of commission another broker or dealer would have charged for executing the

transaction if the Adviser determines in good faith that such commission is reasonable in relation to the value of brokerage, research and other services provided to the Fund. In allocating portfolio brokerage, the Adviser may select brokers or dealers who also provide brokerage, research and other services to other accounts over which the Adviser exercises investment discretion. Some of the services received as the result of Fund transactions may primarily benefit accounts other than the Fund, while services received as the result of portfolio transactions effected on behalf of those other accounts may primarily benefit the Fund.

For the fiscal years ended August 31 the Fund incurred the following brokerage commissions.

<b>Fiscal Year Ended</b>	<b>Brokerage Commissions</b>
August 31, 2016	\$0
August 31, 2017	\$0
August 31, 2018	\$0

### **Portfolio Turnover**

Although the Fund generally will not invest for short-term trading purposes, portfolio securities may be sold without regard to the length of time they have been held when, in the opinion of the Adviser, investment considerations warrant such action. Portfolio turnover rate is calculated by dividing (i) the lesser of purchases or sales of portfolio securities for the fiscal year by (ii) the monthly average of the value of portfolio securities owned during the fiscal year. A 100% turnover rate would occur if all the securities in the Fund’s portfolio, with the exception of securities whose maturities at the time of acquisition were one year or less, were sold and either repurchased or replaced within one year. A high rate of portfolio turnover (100% or more) generally leads to above-average transaction costs, could generate capital gains that must be distributed to shareholders as short-term capital gains taxed at ordinary income tax rates (currently as high as 37%) and could increase brokerage commission costs. To the extent that the Fund experiences an increase in brokerage commissions due to a higher portfolio turnover rate, the performance of the Fund could be negatively impacted by the increased expenses incurred by the Fund and may result in a greater number of taxable transactions. The table below shows the Fund’s portfolio turnover rate as a percentage of the average value of the portfolio during the fiscal years ended August 31:

<b>Fiscal Year Ended</b>	<b>Portfolio Turnover Rate</b>
August 31, 2017	0.00%
August 31, 2018	0.00%

### **Code of Ethics**

The Fund, the Adviser, and the Distributor have each adopted Codes of Ethics under Rule 17j-1 of the 1940 Act. These Codes permit, subject to certain conditions, personnel of the Adviser, and Distributor to invest in securities that may be purchased or held by the Fund.

### **Proxy Voting Procedures**

The Board has adopted Proxy Voting Policies and Procedures (“Policies”) on behalf of the Trust, which delegate the responsibility for voting proxies of securities held by the Fund to the Adviser and responsibility for voting proxies of securities held by the Fund to the Adviser, subject to the Board’s continuing oversight. The Policies require that the Adviser vote proxies received in a manner consistent with the best interests of the Fund and its shareholders. The Policies also require the Adviser to present

to the Board, at least annually, the Adviser's Proxy Policies and a record of each proxy voted by the Adviser on behalf of the Fund, including a report on the resolution of all proxies identified by the Adviser as involving a conflict of interest. Notwithstanding this delegation of responsibilities, however, the Fund retains the right to vote proxies relating to its portfolio securities. A copy of the Adviser's Proxy Voting Policies is attached hereto as Appendix A.

More Information. The actual voting records relating to portfolio securities during the 12-month period ended June 30 will be available without charge, upon request, by calling toll-free, 1-800-SEC-0330 or by accessing the SEC's website at [www.sec.gov](http://www.sec.gov).

### **Anti-Money Laundering Compliance Program**

The Trust has established an Anti-Money Laundering Compliance Program (the "Program") as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 ("USA PATRIOT Act"). To ensure compliance with this law, the Trust's Program provides for the development of internal practices, procedures and controls, designation of anti-money laundering compliance officers, an ongoing training program and an independent audit function to determine the effectiveness of the Program. The Trust's secretary serves as its Anti-Money Laundering Compliance Officer.

Procedures to implement the Program include, but are not limited to, determining that the Fund's Distributor and Transfer Agent have established proper anti-money laundering procedures, reporting suspicious and/or fraudulent activity and a providing a complete and thorough review of all new opening account applications. The Trust will not transact business with any person or entity whose identity cannot be adequately verified under the provisions of the USA PATRIOT Act.

As a result of the Program, the Trust may be required to "freeze" the account of a shareholder if the shareholder appears to be involved in suspicious activity or if certain account information matches information on government lists of known terrorists or other suspicious persons, or the Trust may be required to transfer the account or proceeds of the account to a governmental agency.

### **Portfolio Holdings Information**

The Trust has adopted policies and procedures that govern the disclosure of the Fund's portfolio holdings. These policies and procedures are designed to ensure that such disclosure is in the best interests of Fund shareholders.

It is the Trust's policy to: (1) ensure that any disclosure of portfolio holdings information is in the best interest of Trust shareholders; (2) protect the confidentiality of portfolio holdings information; (3) have procedures in place to guard against personal trading based on the information; and (4) ensure that the disclosure of portfolio holdings information does not create conflicts between the interests of the Trust's shareholders and those of the Trust's affiliates.

The Fund discloses its portfolio holdings by mailing the annual and semi-annual reports to shareholders approximately two months after the end of the fiscal year and semi-annual period. In addition, the Fund discloses its portfolio holdings reports on Forms N-CSR and Form N-Q two months after the end of each quarter/semi-annual period.

The Funds may choose to make portfolio holdings information available to rating agencies such as Lipper, Morningstar or Bloomberg more frequently on a confidential basis.

Under limited circumstances, as described below, the Fund's portfolio holdings may be disclosed to, or known by, certain third parties in advance of their filing with the Securities and Exchange Commission

on Form N-CSR or Form N-Q. In each case, a determination has been made that such advance disclosure is supported by a legitimate business purpose and that the recipient is subject to a duty to keep the information confidential.

**The Adviser.** Personnel of the Adviser, including personnel responsible for managing the Fund's portfolio, may have full daily access to Fund portfolio holdings since that information is necessary in order for the Adviser to provide their management, administrative, and investment services to the Fund. As required for purposes of analyzing the impact of existing and future market changes on the prices, availability, demand and liquidity of such securities, as well as for the assistance of portfolio managers in the trading of such securities, Adviser personnel may also release and discuss certain portfolio holdings with various broker-dealers.

**Gemini Fund Services, LLC.** Gemini Fund Services, LLC is the transfer agent, fund accountant and administrator for the Funds; therefore, its personnel have full daily access to the Fund's portfolio holdings since that information is necessary in order for them to provide the agreed-upon services for the Trust.

**Northern Lights Compliance Services, LLC.** Northern Lights Compliance Services, LLC provides consulting services to the Funds as well as related compliance services; therefore, its personnel have full daily access to the Funds' portfolio holdings since that information is necessary in order for them to provide the agreed-upon services for the Trust.

**MUFG Union Bank.** MUFG Union Bank is custodian for the Fund; therefore, its personnel have full daily access to the Fund's portfolio holdings since that information is necessary in order for them to provide the agreed-upon services for the Trust.

**RSM US LLP.** RSM US LLP is the Fund's independent registered public accounting firm; therefore, its personnel have access to the Fund's portfolio holdings in connection with their audits of the Fund's annual consolidated financial statements and providing other audit, tax and related services to the Fund.

**Alston & Bird, LLP.** Alston & Bird, LLP is counsel to the Trust; therefore, its personnel have access to the Fund's portfolio holdings in connection with review of the Fund's annual and semi-annual shareholder reports and SEC filings.

**Blank Rome LLP.** Blank Rome LLP is counsel to the Independent Trustees.

#### **Additions to List of Approved Recipients**

The Trust's Chief Compliance Officer is the person responsible, and whose prior approval is required, for any disclosure of the Fund's portfolio securities at any time or to any persons other than those described above. In such cases, the recipient must have a legitimate business need for the information and must be subject to a duty to keep the information confidential. There are no ongoing arrangements in place with respect to the disclosure of portfolio holdings. In no event shall the Fund, the Adviser, or any other party receive any direct or indirect compensation in connection with the disclosure of information about the Fund's portfolio holdings.

## **Compliance With Portfolio Holdings Disclosure Procedures**

The Trust's Chief Compliance Officer will report periodically to the Board with respect to compliance with the Fund's portfolio holdings disclosure procedures, and from time to time will provide the Board any updates to the portfolio holdings disclosure policies and procedures.

There is no assurance that the Trust's policies on disclosure of portfolio holdings will protect the Fund from the potential misuse of holdings information by individuals or firms in possession of that information.

## **Determination of Net Asset Value**

As indicated in the Prospectus under the heading "Net Asset Value," the net asset value ("NAV") of the Fund's shares, by class, is determined by dividing the total value of the Fund's portfolio investments and other assets, less any liabilities, by the total number of shares outstanding of the Fund, by class.

Generally, the Fund's domestic securities (including underlying ETFs which hold portfolio securities primarily listed on foreign (non-U.S.) exchanges) are valued each day at the last quoted sales price on each security's primary exchange. Securities traded or dealt in upon one or more securities exchanges for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid and ask prices on such exchange. Securities primarily traded in the National Association of Securities Dealers' Automated Quotation System ("NASDAQ") National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. If market quotations are not readily available, securities will be valued at their fair market value as determined in good faith by the Fund's fair value committee in accordance with procedures approved by the Board and as further described below. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market.

Certain securities or investments for which daily market quotes are not readily available may be valued, pursuant to guidelines established by the Board, with reference to other securities or indices. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity. Short-term investments having a maturity of 60 days or less may be generally valued at amortized cost when it approximated fair value.

Exchange traded options are valued at the last quoted sales price or, in the absence of a sale, at the mean between the current bid and ask prices on the exchange on which such options are traded. Futures and options on futures are valued at the settlement price determined by the exchange. Other securities for which market quotes are not readily available are valued at fair value as determined in good faith by the Board or persons acting at their direction. Swap agreements and other derivatives are generally valued daily based upon quotations from market makers or by a pricing service in accordance with the valuation procedures approved by the Board.

Under certain circumstances, the Fund may use an independent pricing service to calculate the fair market value of foreign equity securities on a daily basis by applying valuation factors to the last sale price or the mean price as noted above. The fair market values supplied by the independent pricing service will generally reflect market trading that occurs after the close of the applicable foreign markets of comparable securities or the value of other instruments that have a strong correlation to the fair-valued securities. The independent pricing service will also take into account the current relevant currency

exchange rate. A security that is fair valued may be valued at a price higher or lower than actual market quotations or the value determined by other funds using their own fair valuation procedures. Because foreign securities may trade on days when Fund shares are not priced, the value of securities held by the Fund can change on days when Fund shares cannot be redeemed or purchased. In the event that a foreign security's market quotations are not readily available or are deemed unreliable (for reasons other than because the foreign exchange on which it trades closed before the Fund's calculation of NAV), the security will be valued at its fair market value as determined in good faith by the Fund's fair value committee in accordance with procedures approved by the Board as discussed below. Without fair valuation, it is possible that short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund's portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that it will prevent dilution of the Fund's NAV by short-term traders. In addition, because the Fund may invest in underlying ETFs which hold portfolio securities primarily listed on foreign (non-U.S.) exchanges, and these exchanges may trade on weekends or other days when the underlying ETFs do not price their shares, the value of these portfolio securities may change on days when you may not be able to buy or sell Fund shares.

Investments initially valued in currencies other than the U.S. dollar are converted to U.S. dollars using exchange rates obtained from pricing services. As a result, the NAV of the Fund's shares may be affected by changes in the value of currencies in relation to the U.S. dollar. The value of securities traded in markets outside the United States or denominated in currencies other than the U.S. dollar may be affected significantly on a day that the New York Stock Exchange is closed and an investor is not able to purchase, redeem or exchange shares.

Fund shares are valued at the close of regular trading on the New York Stock Exchange (normally 4:00 p.m., Eastern time) (the "NYSE Close") on each day that the New York Stock Exchange is open. For purposes of calculating the NAV, the Fund normally use pricing data for domestic equity securities received shortly after the NYSE Close and does not normally take into account trading, clearances or settlements that take place after the NYSE Close. Domestic fixed income and foreign securities are normally priced using data reflecting the earlier closing of the principal markets for those securities. Information that becomes known to the Fund or its agents after the NAV has been calculated on a particular day will not generally be used to retroactively adjust the price of the security or the NAV determined earlier that day.

When market quotations are insufficient or not readily available, the Fund may value securities at fair value or estimate their value as determined in good faith by the Board or its designees, pursuant to procedures approved by the Board. Fair valuation may also be used by the Board if extraordinary events occur after the close of the relevant market but prior to the NYSE Close.

The Fund may hold securities, such as private placements, interests in commodity pools, other non-traded securities or temporarily illiquid securities, for which market quotations are not readily available or are determined to be unreliable. These securities will be valued at their fair market value as determined using the "fair value" procedures approved by the Board. The Board has delegated execution of these procedures to a fair value team composed of one or more officers from each of the (i) Trust, (ii) administrator, and (iii) adviser and/or sub-adviser. The team may also enlist third party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews and ratifies the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results.

Fair Value Committee and Valuation Process. The fair value committee is composed of one or more officers from each of the (i) Trust, (ii) administrator, and (iii) adviser and/or sub-adviser. The applicable investments are valued collectively via inputs from each of these groups. For example, fair value

determinations are required for the following securities: (i) securities for which market quotations are insufficient or not readily available on a particular business day (including securities for which there is a short and temporary lapse in the provision of a price by the regular pricing source), (ii) securities for which, in the judgment of the adviser or sub-adviser, the prices or values available do not represent the fair value of the instrument. Factors which may cause the adviser or sub-adviser to make such a judgment include, but are not limited to, the following: only a bid price or an asked price is available; the spread between bid and asked prices is substantial; the frequency of sales; the thinness of the market; the size of reported trades; and actions of the securities markets, such as the suspension or limitation of trading; (iii) securities determined to be illiquid; (iv) securities with respect to which an event that will affect the value thereof has occurred (a "significant event") since the closing prices were established on the principal exchange on which they are traded, but prior to the Fund's calculation of its net asset value. Specifically, interests in commodity pools or managed futures pools are valued on a daily basis by reference to the closing market prices of each futures contract or other asset held by a pool, as adjusted for pool expenses. Restricted or illiquid securities, such as private placements or non-traded securities are valued via inputs from the adviser or sub-adviser valuation based upon the current bid for the security from two or more independent dealers or other parties reasonably familiar with the facts and circumstances of the security (who should take into consideration all relevant factors as may be appropriate under the circumstances). If the adviser or sub-adviser is unable to obtain a current bid from such independent dealers or other independent parties, the fair value team shall determine the fair value of such security using the following factors: (i) the type of security; (ii) the cost at date of purchase; (iii) the size and nature of the Fund's holdings; (iv) the discount from market value of unrestricted securities of the same class at the time of purchase and subsequent thereto; (v) information as to any transactions or offers with respect to the security; (vi) the nature and duration of restrictions on disposition of the security and the existence of any registration rights; (vii) how the yield of the security compares to similar securities of companies of similar or equal creditworthiness; (viii) the level of recent trades of similar or comparable securities; (ix) the liquidity characteristics of the security; (x) current market conditions; and (xi) the market value of any securities into which the security is convertible or exchangeable.

**Standards For Fair Value Determinations.** As a general principle, the fair value of a security is the amount that the Fund might reasonably expect to realize upon its current sale. The Trust has adopted Financial Accounting Standards Board Statement of Financial Accounting Standards Codification Topic 820, Fair Value Measurements and Disclosures ("ASC 820"). In accordance with ASC 820, fair value is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 establishes a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability, developed based on the best information available under the circumstances.

Various inputs are used in determining the value of each Fund's investments relating to ASC 820. These inputs are summarized in the three broad levels listed below.

Level 1 – quoted prices in active markets for identical securities.

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 – significant unobservable inputs (including a Fund’s own assumptions in determining the fair value of investments).

The fair value team takes into account the relevant factors and surrounding circumstances, which may include: (i) the nature and pricing history (if any) of the security; (ii) whether any dealer quotations for the security are available; (iii) possible valuation methodologies that could be used to determine the fair value of the security; (iv) the recommendation of a portfolio manager of the Fund with respect to the valuation of the security; (v) whether the same or similar securities are held by other funds managed by the Adviser (or sub-adviser) or other funds and the method used to price the security in those funds; (vi) the extent to which the fair value to be determined for the security will result from the use of data or formulae produced by independent third parties and (vii) the liquidity or illiquidity of the market for the security.

**Board of Trustees Determination.** The Board of Trustees meets at least quarterly to consider the valuations provided by the fair value committee and to ratify the valuations made for the applicable securities. The Board of Trustees considers the reports provided by the fair value committee, including follow up studies of subsequent market-provided prices when available, in reviewing and determining in good faith the fair value of the applicable portfolio securities.

The Trust expects that the New York Stock Exchange (“NYSE”) will be closed on the following holidays: New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day.

### **Purchase of Shares**

Orders for shares received by the Fund in good order prior to the close of business on the NYSE on each day during such periods that the NYSE is open for trading are priced at NAV per share computed as of the close of the regular session of trading on the NYSE. Orders received in good order after the close of the NYSE, or on a day it is not open for trading, are priced at the close of such NYSE on the next day on which it is open for trading at the next determined NAV or offering price per share.

### **Redemption of Shares**

The Fund will redeem all or any portion of a shareholder’s shares in the Fund when requested in accordance with the procedures set forth in the “Redemptions” section of the Prospectus. Under the 1940 Act, a shareholder’s right to redeem shares and to receive payment therefore may be suspended at times:

- (a) when the NYSE is closed, other than customary weekend and holiday closings;
- (b) when trading on that exchange is restricted for any reason;
- (c) when an emergency exists as a result of which disposal by the Fund of securities owned by it is not reasonably practicable or it is not reasonably practicable for the Fund to fairly determine the value of its net assets, provided that applicable rules and regulations of the SEC (or any succeeding governmental authority) will govern as to whether the conditions prescribed in (b) or (c) exist; or
- (d) when the SEC by order permits a suspension of the right to redemption or a postponement of the date of payment on redemption.

In case of suspension of the right of redemption, payment of a redemption request will be made based on the NAV next determined after the termination of the suspension.

The Fund may purchase shares of certain underlying funds which charge a redemption fee to shareholders (such as the Fund) that redeem shares of the underlying fund within a certain period of time (such as one year). The fee is payable to the underlying fund. Accordingly, if the Fund were to invest in an underlying fund and incur a redemption fee as a result of redeeming shares in such underlying fund, the Fund would bear such redemption fee. The Fund will not, however, invest in shares of an underlying fund that is sold with a contingent deferred sales load.

Supporting documents in addition to those listed under “Redemptions” in the Prospectus will be required from executors, administrators, Trustees, or if redemption is requested by someone other than the shareholder of record. Such documents include, but are not restricted to, stock powers, Trust instruments, certificates of death, appointments as executor, certificates of corporate authority and waiver of tax required in some states when settling estates.

Under section 72.1021(a) of the Texas Property Code, initial investors in a Fund who are Texas residents may designate a representative to receive notices of abandoned property in connection with Fund shares. Texas shareholders who wish to appoint a representative should notify the Trust’s Transfer Agent by writing to the address below to obtain a form for providing written notice to the Trust:

PCS Commodity Strategy Fund  
c/o Gemini Fund Services, LLC  
17605 Wright Street, Suite 2  
Omaha, Nebraska 68130

#### **Tax Status**

The following discussion is general in nature and should not be regarded as an exhaustive presentation of all possible tax ramifications. The tax considerations relevant to a specific shareholder depend upon its specific circumstances, and the following general summary does not attempt to discuss all potential tax considerations that could be relevant to a prospective shareholder with respect to the Fund or its investments. This general summary is based on the Internal Revenue Code of 1986, as amended (the “Code”), the Federal Income Tax Regulations promulgated thereunder, and administrative and judicial interpretations thereof as of the date hereof, all of which are subject to change (potentially on a retroactive basis).

The following discussion of tax consequences is for the general information of shareholders that are subject to tax. Shareholders that are IRAs or other qualified retirement plans are exempt from income taxation under the Code. All shareholders should consult a qualified tax advisor regarding their investment in the Fund.

The Fund has qualified and intends to continue to qualify and has elected to be treated as a regulated investment company under Subchapter M of the Code, which requires compliance with certain requirements concerning the sources of its income, diversification of its assets, and the amount and timing of its distributions to shareholders. Such qualification does not involve supervision of management or investment practices or policies by any government agency or bureau. By so qualifying, the Fund should not be subject to federal income or excise tax on its net investment income or net capital gain, which are distributed to shareholders in accordance with the applicable timing requirements. Net investment income and net capital gain of the Fund will be computed in accordance with Section 852 of the Code. The Internal Revenue Service (“IRS”) issued a number of private letter rulings to other mutual funds (unrelated to the Fund), indicating that certain income from a fund’s investment in a wholly-owned foreign subsidiary constituted “qualifying income” for purposes of Subchapter M. However, the IRS suspended issuance of these letter rulings in 2011 pending a review of its position, and in 2016 declared that it would no longer issue private letter rulings on this issue. If the IRS were to

change its position in published public guidance with respect to the conclusions reached in these private letter rulings (which change in position might be applied to the Fund retroactively), the income from the Fund's investment in the Subsidiary might not be qualifying income, and the Fund might not therefore qualify as a regulated investment company for one or more years.

Net investment income is made up of dividends and interest less expenses. Net capital gain for a fiscal year is computed by taking into account any capital loss carryforward of the Fund. Under the Regulated Investment Company Act of 2010, the Fund will be permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an unlimited period. However, losses incurred during those future years will be required to be utilized prior to the losses incurred in pre-enactment tax years. Thus, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under previous law.

The Fund intends to distribute all of its net investment income, any excess of net short-term capital gains over net long-term capital losses, and any excess of net long-term capital gains over net short-term capital losses in accordance with the timing requirements imposed by the Code and therefore should not be required to pay any federal income or excise taxes. Distributions of net investment income and net capital gain will be made after the end of each fiscal year, and no later than December 31 of each year. Both types of distributions will be in shares of the Fund unless a shareholder elects to receive cash.

To be treated as a regulated investment company under Subchapter M of the Code, the Fund must also (a) derive at least 90% of its gross income from dividends, interest, payments with respect to securities loans, net income from certain publicly traded partnerships and gains from the sale or other disposition of stock, securities or foreign currencies, or other income (including, but not limited to, gains from options, futures or forward contracts) derived with respect to the business of investing in such stock, securities or currencies, and (b) diversify its holding so that, at the end of each fiscal quarter, (i) at least 50% of the market value of the Fund's assets is represented by cash, U.S. government securities and securities of other regulated investment companies, and other securities (for purposes of this calculation, generally limited in respect of any one issuer, to an amount not greater than 5% of the market value of the Fund's assets and 10% of the outstanding voting securities of such issuer) and (ii) not more than 25% of the value of its assets is invested in the securities of (other than U.S. government securities or the securities of other regulated investment companies) any one issuer, two or more issuers which the Fund controls and which are determined to be engaged in the same or similar trades or businesses, or the securities of certain publicly traded partnerships. Under the Regulated Investment Company Act of 2010, if the Fund fails to satisfy these qualifying income and asset tests, and such failure was due to reasonable cause and not willful neglect, it may be permitted to "cure" such failures (and thereby not jeopardize its tax status as a regulated investment company) under certain circumstances.

If the Fund fails to qualify as a regulated investment company under Subchapter M of the Code in any fiscal year (and such failure is not subject to cure as discussed above), it will be treated as a corporation for federal income tax purposes. As such the Fund would be required to pay income taxes on its net investment income and net realized capital gains, if any, at the rates generally applicable to corporations. Shareholders of the Fund generally would not be liable for income tax on the Fund's net investment income or net realized capital gains in their individual capacities. Distributions to shareholders, whether from the Fund's net investment income or net realized capital gains, would be treated as taxable dividends to the extent of current or accumulated earnings and profits of the Fund.

The Fund is subject to a 4% nondeductible excise tax on certain undistributed amounts of ordinary income and capital gain under a prescribed formula contained in Section 4982 of the Code. The formula requires payment to shareholders during a calendar year of distributions representing at least 98% of the

Fund's ordinary income for the calendar year and at least 98.2% of its capital gain net income (i.e., the excess of its capital gains over capital losses) realized during the one-year period ending October 31 during such year plus 100% of any income that was neither distributed nor taxed to the Fund during the preceding calendar year. Under ordinary circumstances, the Fund expects to time its distributions so as to avoid liability for this excise tax.

Distributions of taxable net investment income and the excess of net short-term capital gain over net long-term capital loss are taxable to shareholders as ordinary income. In most cases the Fund will hold shares in Underlying Funds for less than 12 months, such that its sales of such shares from time to time will not qualify as long-term capital gains for those investors who hold shares of the Fund in taxable accounts.

Distributions of net capital gain ("capital gain dividends") generally are taxable to shareholders as short-term capital gain; regardless of the length of time the shares of the Trust have been held by such shareholders.

A redemption of Fund shares by a shareholder will result in the recognition of taxable gain or loss in an amount equal to the difference between the amount realized and the shareholder's tax basis in his or her Fund shares. Such gain or loss is treated as a capital gain or loss if the shares are held as capital assets. However, any loss realized upon the redemption of shares within six months from the date of their purchase will be treated as a long-term capital loss to the extent of any amounts treated as capital gain dividends during such six-month period. All or a portion of any loss realized upon the redemption of shares may be disallowed to the extent shares are purchased (including shares acquired by means of reinvested dividends) within 30 days before or after such redemption.

Distributions of taxable net investment income and net capital gain will be taxable as described above, whether received in additional cash or shares. Shareholders electing to reinvest distributions in the form of additional shares will have a cost basis for federal income tax purposes in each share so received equal to the net asset value of a share on the reinvestment date.

All distributions of taxable net investment income and net capital gain, whether received in shares or in cash, must be reported by each taxable shareholder on his or her federal income tax return. Dividends or distributions declared in October, November or December as of a record date in such a month, if any, will be deemed to have been received by shareholders on December 31, if paid during January of the following year. Redemptions of shares may result in tax consequences (gain or loss) to the shareholder and are also subject to these reporting requirements.

Under the Code, the Fund will be required to report to the Internal Revenue Service all distributions of taxable income and capital gains as well as gross proceeds from the redemption or exchange of Fund shares, except in the case of certain exempt shareholders. Under the backup withholding provisions of Section 3406 of the Code, distributions of taxable net investment income and net capital gain and proceeds from the redemption or exchange of the shares of a regulated investment company may be subject to withholding of federal income tax (currently at a rate of 24%) in the case of non-exempt shareholders who fail to furnish the investment company with their taxpayer identification numbers and with required certifications regarding their status under the federal income tax law, or if the Fund is notified by the IRS or a broker that withholding is required due to an incorrect TIN or a previous failure to report taxable interest or dividends. If the withholding provisions are applicable, any such distributions and proceeds, whether taken in cash or reinvested in additional shares, will be reduced by the amounts required to be withheld.

### Options, Futures, Forward Contracts and Swap Agreements

To the extent such investments are permissible for the Fund, the Fund's transactions in options, futures contracts, hedging transactions, forward contracts, straddles and foreign currencies will be subject to special tax rules (including mark-to-market, constructive sale, straddle, wash sale and short sale rules), the effect of which may be to accelerate income to the Fund, defer losses to the Fund, cause adjustments in the holding periods of the Fund's securities, convert long-term capital gains into short-term capital gains and convert short-term capital losses into long-term capital losses. These rules could therefore affect the amount, timing and character of distributions to shareholders.

To the extent such investments are permissible, certain of the Fund's hedging activities (including its transactions, if any, in foreign currencies or foreign currency-denominated instruments) are likely to produce a difference between its book income and its taxable income. If the Fund's book income exceeds its taxable income, the distribution (if any) of such excess book income will be treated as (i) a dividend to the extent of the Fund's remaining earnings and profits (including earnings and profits arising from tax-exempt income), (ii) thereafter, as a return of capital to the extent of the recipient's basis in the shares, and (iii) thereafter, as gain from the sale or exchange of a capital asset. If the Fund's book income is less than taxable income, the Fund could be required to make distributions exceeding book income to qualify as a regulated investment company that is accorded special tax treatment.

### Passive Foreign Investment Companies

Investment by the Fund in certain "passive foreign investment companies" ("PFICs") could subject the Fund to a U.S. federal income tax (including interest charges) on distributions received from the company or on proceeds received from the disposition of shares in the company, which tax cannot be eliminated by making distributions to Fund shareholders. However, the Fund may elect to treat a PFIC as a "qualified electing fund" ("QEF"), in which case the Fund will be required to include its share of the company's income and net capital gains annually, regardless of whether it receives any distribution from the company.

The Fund also may make an election to mark the gains (and to a limited extent losses) in such holdings "to the market" as though it had sold and repurchased its holdings in those PFICs on the last day of the Fund's taxable year. Such gains and losses are treated as ordinary income and loss. The QEF and mark-to-market elections may accelerate the recognition of income (without the receipt of cash) and increase the amount required to be distributed for the Fund to avoid taxation. Making either of these elections therefore may require the Fund to liquidate other investments (including when it is not advantageous to do so) to meet its distribution requirement, which also may accelerate the recognition of gain and affect the Fund's total return.

### Foreign Currency Transactions

The Fund's transactions in foreign currencies, foreign currency-denominated debt securities and certain foreign currency options, futures contracts and forward contracts (and similar instruments) may give rise to ordinary income or loss to the extent such income or loss results from fluctuations in the value of the foreign currency concerned.

## Foreign Taxation

Income received by the Fund from sources within foreign countries may be subject to withholding and other taxes imposed by such countries. Tax treaties and conventions between certain countries and the U.S. may reduce or eliminate such taxes. If more than 50% of the value of the Fund's total assets at the close of its taxable year consists of securities of foreign corporations, the Fund may be able to elect to "pass through" to its shareholders the amount of eligible foreign income and similar taxes paid by the Fund. If this election is made, a shareholder generally subject to tax will be required to include in gross income (in addition to taxable dividends actually received) his or her pro rata share of the foreign taxes paid by the Fund, and may be entitled either to deduct (as an itemized deduction) his or her pro rata share of foreign taxes in computing his or her taxable income or to use it as a foreign tax credit against his or her U.S. federal income tax liability, subject to certain limitations. In particular, a shareholder must hold his or her shares (without protection from risk of loss) on the ex-dividend date and for at least 15 more days during the 30-day period surrounding the ex-dividend date to be eligible to claim a foreign tax credit with respect to a gain dividend. No deduction for foreign taxes may be claimed by a shareholder who does not itemize deductions. Each shareholder will be notified within 60 days after the close of the Fund's taxable year whether the foreign taxes paid by the Fund will "pass through" for that year.

Generally, a credit for foreign taxes is subject to the limitation that it may not exceed the shareholder's U.S. tax attributable to his or her total foreign source taxable income. For this purpose, if the pass-through election is made, the source of the Fund's income will flow through to shareholders of the Fund. With respect to the Fund, gains from the sale of securities will be treated as derived from U.S. sources and certain currency fluctuation gains, including fluctuation gains from foreign currency-denominated debt securities, receivables and payables will be treated as ordinary income derived from U.S. sources. The limitation on the foreign tax credit is applied separately to foreign source passive income, and to certain other types of income. A shareholder may be unable to claim a credit for the full amount of his or her proportionate share of the foreign taxes paid by the Fund. The foreign tax credit can be used to offset only 90% of the revised alternative minimum tax imposed on individuals and foreign taxes generally are not deductible in computing alternative minimum taxable income.

## Original Issue Discount and Pay-In-Kind Securities

Current federal tax law requires the holder of a U.S. Treasury or other fixed income zero coupon security to accrue as income each year a portion of the discount at which the security was purchased, even though the holder receives no interest payment in cash on the security during the year. In addition, pay-in-kind securities will give rise to income, which is required to be distributed and is taxable even though the Fund holding the security receives no interest payment in cash on the security during the year.

Some of the debt securities (with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund may be treated as debt securities that are issued originally at a discount. Generally, the amount of the original issue discount ("OID") is treated as interest income and is included in income over the term of the debt security, even though payment of that amount is not received until a later time, usually when the debt security matures. A portion of the OID includable in income with respect to certain high-yield corporate debt securities (including certain pay-in-kind securities) may be treated as a dividend for U.S. federal income tax purposes.

Some of the debt securities (with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund in the secondary market may be treated as having market discount. Generally, any gain recognized on the disposition of, and any partial payment of principal on, a debt security having market discount is treated as ordinary income to the extent the gain, or principal payment, does not exceed the "accrued market discount" on such debt security. Market discount generally accrues

in equal daily installments. The Fund may make one or more of the elections applicable to debt securities having market discount, which could affect the character and timing of recognition of income.

In addition, the 2017 Tax Cuts and Jobs Act requires that taxpayers, such as the Fund, that use an accrual method of accounting for U.S. federal income tax purposes are generally required to include certain amounts in income no later than the time such amounts are reflected on such taxpayer's applicable financial statements. Certain fees treated as OID may be included as income for financial statement purposes when received (as opposed to being accrued into income over the term of the debt instrument), which may thus require such amounts be treated as taxable income of the Fund upon their receipt.

Some debt securities (with a fixed maturity date of one year or less from the date of issuance) that may be acquired by a Fund may be treated as having acquisition discount, or OID in the case of certain types of debt securities. Generally, the Fund will be required to include the acquisition discount, or OID, in income over the term of the debt security, even though payment of that amount is not received until a later time, usually when the debt security matures. The Fund may make one or more of the elections applicable to debt securities having acquisition discount, or OID, which could affect the character and timing of recognition of income.

If the Fund holds the foregoing kinds of securities, it may be required to pay out as an income distribution each year an amount that is greater than the total amount of cash interest the Fund actually received. Such distributions may be made from the cash assets of the Fund or by liquidation of portfolio securities, if necessary (including when it is not advantageous to do so). The Fund may realize gains or losses from such liquidations. In the event the Fund realizes net capital gains from such transactions, its shareholders may receive a larger capital gain distribution, if any, than they would in the absence of such transactions.

Shareholders of the Fund may be subject to state and local taxes on distributions received from the Fund and on redemptions of the Fund's shares.

A brief explanation of the form and character of the distribution accompanies each distribution. In January of each year the Fund issues to each shareholder a statement of the federal income tax status of all distributions.

Shareholders should consult their tax advisors about the application of federal, state and local and foreign tax law in light of their particular situation.

### Wholly Owned Subsidiary

The Fund intends to invest a portion of its assets in the Subsidiary, which will be classified as a corporation for U.S. federal income tax purposes. A foreign corporation, such as the Subsidiary, will generally not be subject to U.S. federal income taxation unless it is deemed to be engaged in a U.S. trade or business. It is expected that the Subsidiary will conduct its activities in a manner so as to meet the requirements of a safe harbor under Section 864(b)(2) of the Internal Revenue Code (the "Safe Harbor") pursuant to which the Subsidiary, provided it is not a dealer in stocks, securities or commodities, may engage in the following activities without being deemed to be engaged in a U.S. trade or business: (1) trading in stocks or securities (including contracts or options to buy or sell securities) for its own account; and (2) trading, for its own account, in commodities that are "of a kind customarily dealt in on an organized commodity exchange" if the transaction is of a kind customarily consummated at such place. Thus, the Subsidiary's securities and commodities trading activities should not constitute a U.S. trade or business. However, if certain of the Subsidiary's activities were determined not to be of the type described in the Safe Harbor or if the Subsidiary's gains are attributable to investments in securities that

constitute U.S. real property interests (which is not expected), then the activities of the Subsidiary may constitute a U.S. trade or business, or be taxed as such.

In general, a foreign corporation that does not conduct a U.S. trade or business is nonetheless subject to tax at a flat rate of 30 percent (or lower tax treaty rate), generally payable through withholding, on the gross amount of certain U.S.-source income that is not effectively connected with a U.S. trade or business. There is presently no tax treaty in force between the U.S. and the Cayman Islands that would reduce this rate of withholding tax. Income subject to such a flat tax includes dividends and certain interest income. The 30 percent tax does not apply to U.S.-source capital gains (whether long-term or short-term) or to interest paid to a foreign corporation on its deposits with U.S. banks. The 30 percent tax also does not apply to interest which qualifies as “portfolio interest.” The term “portfolio interest” generally includes interest (including original issue discount) on an obligation in registered form which has been issued after July 18, 1984 and with respect to which the person, who would otherwise be required to deduct and withhold the 30 percent tax, received the required statement that the beneficial owner of the obligation is not a U.S. person within the meaning of the Internal Revenue Code. Under certain circumstances, interest on bearer obligations may also be considered portfolio interest.

The Subsidiary will be wholly-owned by the Fund. A U.S. person who owns (directly, indirectly or constructively) 10 percent or more of the total combined voting power of all classes of stock of a foreign corporation is a “U.S. Shareholder” for purposes of the controlled foreign corporation (“CFC”) provisions of the Internal Revenue Code. A foreign corporation is a CFC if, on any day of its taxable year, more than 50 percent of the voting power or value of its stock is owned (directly, indirectly or constructively) by “U.S. Shareholders.” Because the Fund is a U.S. person that will own all of the stock of the Subsidiary, the Fund will be a “U.S. Shareholder” and the Subsidiary will be a CFC. As a “U.S. Shareholder,” the Fund will be required to include in gross income for United States federal income tax purposes all of the Subsidiary’s “subpart F income” (defined, in part, below), whether or not such income is distributed by the Subsidiary. It is expected that all of the Subsidiary’s income will be “subpart F income.” “Subpart F income” generally includes interest, original issue discount, dividends, net gains from the disposition of stocks or securities, receipts with respect to securities loans and net payments received with respect to equity swaps and similar derivatives. “Subpart F income” also includes the excess of gains over losses from transactions (including futures, forward and similar transactions) in any commodities. The Fund’s recognition of the Subsidiary’s “subpart F income” will increase the Fund’s tax basis in the Subsidiary. Distributions by the Subsidiary to the Fund will be tax-free, to the extent of its previously undistributed “subpart F income,” and will correspondingly reduce the Fund’s tax basis in the Subsidiary. “Subpart F income” is generally treated as ordinary income, regardless of the character of the Subsidiary’s underlying income.

In general, each “U.S. Shareholder” is required to file IRS Form 5471 with its U.S. federal income tax (or information) returns providing information about its ownership of the CFC and the CFC. In addition, a “U.S. Shareholder” may in certain circumstances be required to report a disposition of shares in the Subsidiary by attaching IRS Form 5471 to its U.S. federal income tax (or information) return that it would normally file for the taxable year in which the disposition occurs. In general, these filing requirements will apply to investors of the Fund if the investor is a U.S. person who owns directly, indirectly or constructively (within the meaning of Sections 958(a) and (b) of the Internal Revenue Code) 10 percent or more of the total combined voting power of all classes of voting stock of a foreign corporation that is a CFC for an uninterrupted period of 30 days or more during any tax year of the foreign corporation, and who owned that stock on the last day of that year.

The U.S. Internal Revenue Service is no longer issuing private letter rulings to taxpayers on the use of controlled foreign corporations, structured notes and other types of derivatives by regulated investment companies, such as the Fund, to obtain indirect exposure to commodities. In the event the U.S. Internal Revenue Service changes its prior technical analysis and position of its prior letter rulings and concludes

that using such structures and instruments to obtain indirect exposure to commodities does not produce good qualifying income for a regulated investment company, such change could result in the inability of the Fund and/or Subsidiary to operate as described in this Preliminary Statement of Additional Information and could adversely affect the Fund and its shareholders.

There are and will likely continue to be proposals for amendments to federal income tax laws that could, if enacted, have adverse effects on the Fund, its investments or its shareholders. Shareholders should consult their tax advisors about the application of federal, state and local and foreign tax law in light of their particular situation.

### **Consolidated Financial Statements**

The consolidated financial statements of the Fund for the fiscal period ended August 31, 2018 and the independent registered public accounting firm's report are incorporated herein by reference to the Fund's Annual Report. These consolidated financial statements include the schedule of investments, statement of assets and liabilities, statement of operations, statements of changes in net assets, financial highlights and notes to the consolidated financial statements. The Fund will provide the Fund's Annual Report without charge upon request in writing or by telephone.

## **APPENDIX A**

### **Proxy Voting Policies and Procedures**

#### **Proxy Policy**

Because of the manner in which Price Asset Management manages its Clients' investments (i.e., clients are typically invested in a portfolio of futures contracts and cash and cash equivalent collateral), the Adviser generally does not take ownership of the securities of corporate issuers and, accordingly, the Adviser does not generally vote Proxies on behalf of its Clients. In the unlikely event that the Adviser is called upon to vote a Proxy, the Adviser's policy is to vote such Proxy in the best interest of its Clients. Accordingly, the Adviser will vote any Proxy in a manner intended to promote the Client's investment objective, usually to maximize investment returns, following the applicable investment restrictions and policies of the Client, if any. Our firm maintains written policies and procedures as to the handling, research, voting and reporting of proxy voting and makes appropriate disclosures about our firm's proxy policies and practices. Our policy and practice includes the responsibility to monitor corporate actions, receive and vote client proxies and disclose any potential conflicts of interest as well as making information available to clients about the voting of proxies for their portfolio securities and maintaining relevant and required records.

#### **Background**

Proxy voting is an important right of shareholders and reasonable care and diligence must be undertaken to ensure that such rights are properly and timely exercised.

Investment advisers registered with the SEC, and which exercise voting authority with respect to client securities, are required by Rule 206(4)-6 of the Advisers Act to (a) adopt and implement written policies and procedures that are reasonably designed to ensure that client securities are voted in the best interests of clients, which must include how an adviser addresses material conflicts that may arise between an adviser's interests and those of its Funds, Portfolios and clients; (b) to disclose to Funds, Portfolios and clients how they may obtain information from the adviser with respect to the voting of proxies for their securities; (c) to describe to clients a summary of its proxy voting policies and procedures and, upon request, furnish a copy to its clients; and (d) maintain certain records relating to the adviser's proxy voting activities when the adviser does have proxy voting authority.

#### **Responsibility**

Price Asset Management has the responsibility for the implementation and monitoring of our proxy voting policy, practices, disclosures and record keeping, including outlining our voting guidelines in our procedures.

#### **Procedure**

The Adviser has adopted procedures to implement the firm's policy and reviews to monitor and insure the firm's policy is observed, implemented properly and amended or updated, as appropriate, which include the following:

#### **Voting Procedures**

##### **I. INTRODUCTION**

The Adviser has adopted proxy voting policies and procedures as required by Rule 206(4)-6 of the Investment Advisers Act of 1940. These policies and procedures are effective on March 25, 2014.

## **II. GLOSSARY OF TERMS**

Non-Routine Proxy Proposals shall mean:

- Proxy proposals that are to be considered on a case-by-case basis,
- Proxy proposals that Advisor generally abstains from voting on, and
- Proxy proposals that are not addressed by the Principles and Guidelines section of the Proxy Voting Policy and Procedures.

Proxy Manager shall be David Schink, Chief Operating Officer.

Proxy Committee shall be comprised of the current members of the Firm's investment committee.

A quorum of the Proxy Committee shall be comprised of at least one member.

Routine Proxy Proposals shall mean proxy proposals that the Proxy Manager, at the direction of the Proxy Committee, shall cast either yes or no votes in accordance with the Principles and Guidelines noted below.

## **III. PRINCIPLES AND GUIDELINE**

A. Principles. The Adviser's primary purpose and fiduciary responsibility is to maximize shareholder value, which is defined as share price and dividend appreciation. The Adviser will vote proxies in the best interests of our Funds, Portfolios and clients and will generally vote for, against, consider on a case-by-case basis, or abstain from voting as indicated below. Because of the extenuating circumstances associated with specific proxy issues, the Adviser's votes may differ from time to time from the indications noted. In addition, the list may not include all proxies on which the Adviser votes. The Adviser will also act, in our best judgment, on behalf of our Funds, Portfolios and clients on certain corporate actions that impact shareholder value, such as tender offers and bankruptcy proceedings.

### B. Voting Guidelines

#### 1. Routine Business Decisions and Director Related Proposals

Adviser votes for:

- a) Name changes
- b) Directors in uncontested elections
- c) Elimination/limitation of directors' liability
- d) Indemnification of directors
- e) Reincorporation that is not a takeover defense

Adviser considers on a case-by-case basis:

- f) Directors in contested elections
- g) Approval of auditors.

#### 2. Corporate Governance

Adviser votes for:

- a) Majority independent board
- b) Audit, compensation & nominating committees that are comprised exclusively of

- independent directors Minimum director share ownership
- c) Separate offices of chairperson and CEO
- d) Limitation on number of other board seats
- e) Confidential voting
- f) Shareholders' ability to remove directors Shareholder right to call special meetings

Adviser votes against:

- a) Supermajority vote requirements
- b) Limiting directors' tenure
- c) Restrictions on shareholders to act by written consent Advisor considers on a case-by-case basis:
- d) Shareholder proposals
- e) Dissident proxy battle

### 3. Director and Executive Compensation

Adviser votes for:

- a) Disclosure of executive compensation Adviser votes against:
- b) Golden and tin parachutes Adviser considers on a case-by-case basis:
- c) Restricting executive compensation
- d) Executive compensation plans
- e) Establish/Increase share option plans for directors and executives

### 4. Take-Over Defense

Adviser votes against:

- a) Reincorporation to prevent takeover
- b) Issue new class of common stock with unequal voting rights
- c) Adoption of fair price amendments
- d) Establish a classified (or "staggered") board of directors
- e) Eliminating cumulative voting
- f) Poison pills
- g) Blank check preferred stock

### 5. Capital Structure

Adviser votes for:

- a) Increase authorized common stock (unless additional stock is a takeover defense, i.e., poison pill).
- b) Share repurchase programs (when all shareholders may participate on equal terms)

Adviser votes against:

- c) Unequal voting rights, such as dual class of stock
- d) Pre-emptive rights

Adviser considers on a case-by-case basis:

- e) Increase preferred stock
- f) Blank check preferred stock (not for takeover defense)
- g) Restructuring plans

6. Other Shareholder Value Issues

Adviser votes for:

- a) Employee stock ownership plans (ESOPs)
- b) Employee stock purchase plans
- c) 401(k) plans

Adviser votes against:

- d) Greenmail
- Adviser considers on a case-by-case basis:
- e) Mergers and acquisitions
  - f) Spin-offs and asset sales

7. Corporate, Social and Environmental Policy Proposals. As noted above, the Adviser's fiduciary responsibility is the maintenance and growth of our clients' assets. Accordingly, the Adviser will typically vote in accordance with management's recommendations or abstain from voting on proposals concerning corporate policy and social and environmental issues. When such proposals impact shareholder value, the Adviser may vote on a case-by-case basis.
8. Proposals Specific to Mutual Funds. The Adviser serves as investment adviser to certain investment companies under the Northern Lights Fund Trust. These funds invest in other investment companies that are not affiliated ("Underlying Funds") and are required by the Investment Company Act of 1940, as amended (the "1940 Act") to handle proxies received from Underlying Funds in a certain manner. Notwithstanding the guidelines provided in these procedures, it is the policy of The Adviser to vote all proxies received from the Underlying Funds in the same proportion that all shares of the Underlying Funds are voted, or in accordance with instructions received from fund shareholders, pursuant to Section 12(d)(1)(F) of the 1940 Act. After properly voted, the proxy materials are placed in a file maintained by the Chief Compliance Officer for future reference.

#### **IV. Conflicts of Interest**

On occasion, a conflict of interest may exist between the Adviser and Funds, Portfolios and clients regarding the outcome of certain proxy votes. In such cases, the Adviser is committed to resolving the conflict in the best interest of our Funds, Portfolios and clients before we vote the proxy in question.

If the proxy proposal is a Routine Proxy Proposal, the Adviser will typically adhere to the standard procedure of referring to the principles and guidelines described herein in deciding how to vote. Alternatively, the Adviser may disclose the conflict to our clients and obtain their consent before voting or seek the recommendation of an independent third party in deciding how to vote.

If the proxy proposal is a Non-Routine Proxy Proposal, the Adviser will take any of the following courses of action to resolve the conflict:

- 1) Disclose the conflict to our Funds, Portfolios and clients and obtain consent before voting;
- 2) Suggest that our Funds, Portfolios and clients engage another party to determine how the proxy should be voted; or
- 3) Vote according to the recommendation of an independent third party, such as a:
  - proxy consultant;
  - research analyst;

- proxy voting department of a mutual fund or pension fund; or
- compliance consultant.

#### **V. Obtaining More Information**

Funds, Portfolios and clients may obtain a record of Advisor's proxy voting, free of charge, by calling the Firm's publicly available phone number.

These policies and procedures may also be found in the Adviser's Form ADV, Part II and supporting schedules.

#### **VI. Procedures**

When the mail arrives, the person responsible for separating the mail gives any proxy materials to the person who handles compliance issues. The proxy materials are then opened by the Compliance person. The ticker symbol for the security noted on the proxy is located. A Security Cross Reference report is run in Axys as of the record date, as stated on the proxy. This report tells how many shares were owned by Funds, Portfolios and clients as of the record date, and can be printed in detail so that the exact clients who held the security on the record date are listed. An email is sent to the Receptionist about the arrival of the proxy. In the email is listed the name of the security, ticker symbol, arrival date, custodian and number of shares.

Once the Security Cross Reference report has been run, the number of shares on the report is compared to the number of shares to be voted on the proxy.

If the number of shares between the two reports matches, then the Security Cross Reference report is attached to the proxy materials and forwarded to the Portfolio Manager to be voted according to the Adviser's proxy voting policies.

If the number of shares does not match, then reasonable efforts will be made to resolve the difference, such as:

- Rerunning the Security Cross Reference report for other dates around the record date of the proxy to see if the security transferred into the Adviser after the record date, even though the client owned it as of the record date.
- Calling the custodian to confirm the clients per their records that are included in the proxy count, and then verifying that information to the Security Cross Reference report. There may be differences due to clients having made the decision to vote their proxies, in which case, the proxies would go directly to the clients.

If the difference still cannot be resolved, the matter is reviewed with the Portfolio Manager as to the next action to be taken. If the difference is determined to be immaterial and is approved by the Portfolio Manager, then the proxy will stand as is.

Once the shares have been reconciled, then the proxy materials and the Security Cross Reference report are then given to the Portfolio Manager to vote.

The Portfolio Manager will generally vote the routine proxies in accordance with the principles and guidelines described in the Adviser's Proxy Voting Policy and sign the proxy. For Non-Routine Proxy Proposals, the Portfolio Manager will vote them on a case-by-case basis. The vote and the rationale will be noted as documentation for the vote.

Once the Portfolio Manager has voted the proxies, they will be given to the Receptionist for processing. If the proxy is to be mailed, then a copy of the proxy is made, attached to the proxy materials that support the vote and Security Cross Reference report and filed in chronological order. This file is maintained by year.

If the proxy was voted electronically, the original proxy with the notes on it as to how the proxy was voted, are maintained and attached to the proxy materials that support the vote and Security Cross Reference report, and filed in chronological order, just like proxies that are mailed.

The Receptionist then enters the necessary information in the Proxy Voting Database. The following information is entered:

- Name of Company
- Proxy Proposal
- Management's recommendation
- the Adviser's Action
- Rationale for the vote
- List of clients to whom the proxy vote applies.

Should the Adviser receive any requests from clients regarding proxy voting, the Receptionist will maintain a record of the requests from the specific clients, which will include:

- Name of the Client
- Date that the request was received
- Whether the request was for a complete or partial record of proxy votes
- The documents provided
- Date that the information was sent to the client

A copy of the information sent to the client will be retained in a chronological file, maintained by year.

## **VII. Disclosure**

The Adviser will provide conspicuously displayed information in its Form ADV Part II in the Supporting Schedules, summarizing this proxy voting policy and procedures, including a statement that clients may request information regarding how the Adviser voted a client's proxies, and that clients may request a copy of these policies and procedures.
