Summary Section

Investment Objective. The primary investment objective of the Linde Hansen Contrarian Value Fund (the “Fund”) is long-term growth of capital, with income as a secondary objective.

Fees and Expenses of the Fund. This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts on Class A shares if you invest, or agree to invest in the future, at least \$25,000 in the Fund. More information about these and other discounts is available from your financial professional and under “Shareholder Information – More About Class A Shares” beginning on page 8 of this Prospectus.

Shareholder Fees <i>(fees paid directly from your investment)</i>	Class A	Class I
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	5.25%	None
Maximum Deferred Sales Charge (Load) (as a percentage of the original offering price)	1.00% ⁽¹⁾	None
Redemption Fee (as a percentage of amount redeemed within 60 days of purchase)	1.00%	1.00%
Annual Fund Operating Expenses <i>(expenses that you pay each year as a percentage of the value of your investment)</i>		
Management Fees	1.00%	1.00%
Distribution and Service (Rule 12b-1) Fees	0.25%	0.00%
Other Expenses	0.56%	0.56%
Total Annual Fund Operating Expenses	1.81%	1.56%
Fee Waiver/Expense Reimbursement	<u>(0.41)%</u>	<u>(0.41)%</u>
Total Annual Fund Operating Expenses After Fee Waiver/Expense Reimbursement ⁽²⁾	<u>1.40%</u>	<u>1.15%</u>

(1) Class A shares do not have a contingent deferred sales charge (“CDSC”) except that a maximum CDSC of 1.00% may apply to certain redemptions of Class A shares made within the first 12 months of their purchase when an initial sales charge was not paid on the purchase.

(2) Pursuant to an operating expense limitation agreement between Linde, Hansen & Co., LLC (the “Adviser”) and the Fund, the Adviser has agreed to waive its fees and/or absorb expenses of the Fund to ensure that Total Annual Fund Operating Expenses (excluding any front-end or contingent deferred sales loads, brokerage fees and commissions, acquired fund fees and expenses, borrowing costs (such as interest and dividend expense on securities sold short), taxes and extraordinary expenses such as litigation) for the Fund do not exceed 1.40% and 1.15%, of the Fund’s average net assets, for Class A and Class I shares, respectively, through March 31, 2019. This operating expense limitation agreement can be terminated only by, or with the consent of, the Board of Trustees. The Adviser is permitted to receive reimbursement from the Fund for fees it waived and Fund expenses it paid, subject to the limitation that: (1) the reimbursement for fees and expenses will be made only if payable within three years from the date the fees and expenses were initially waived or reimbursed; and (2) the reimbursement may not be made if it would cause the expense limitation in effect at the time of the waiver or currently in effect, whichever is lower, to be exceeded.

Example. This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. The fee waiver/expense reimbursement arrangement discussed in the table above is reflected only through March 31, 2019. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	One Year	Three Years	Five Years	Ten Years
Class A	\$660	\$1,027	\$1,417	\$2,508
Class I	\$117	\$452	\$811	\$1,822

Portfolio Turnover. The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Total Annual Fund Operating Expenses or in the Example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 30% of the average value of the portfolio.

Principal Investment Strategies. In order to accomplish the Fund's objectives, the Adviser will use its disciplined, contrarian value strategy to invest in equities (primarily common stock, but the Fund may also invest in American Depository Receipts (ADRs), preferred stock and/or other securities convertible into common stock) traded on U.S. based exchanges; building concentrated, long-only portfolios. The Adviser will not buy any securities on exchanges located outside of the United States. The Adviser will not sell common stock short nor will it use derivatives as part of its strategy.

The Adviser believes owning undervalued securities of companies expected to realize an improving trend in profitability will, over time, generate strong real-returns and control risk. The Adviser targets for initial purchase the securities of companies traded on U.S. based exchanges with an equity market capitalization of \$200 million or larger. The Adviser places no limits with regard to capitalization exposure.

The Adviser is a contrarian, value-oriented, bottom-up, fundamental research investment manager. The Adviser strives to identify situations where the common stock price is not currently reflecting the true earnings potential of the underlying company. Generally these situations arise when a company has fallen upon financial adversity and the consensus agrees that recovery is unlikely. This creates an opportunity for the Adviser to identify changes occurring at the company or within the industry (catalysts) that it believes will enable profitability to return to normal levels. The Adviser's investment process enables it to take positions in these companies - contrary to consensus thought - when detailed analysis supports the case.

Its investment process begins with proprietary screens designed to identify undervalued equity securities traded on U.S. based exchanges. Those equities that are attractive from a valuation basis become candidates for further research. Should a value-enhancing catalyst or "special situation" (for example, new management, restructuring, reorganization, acquisition, divestiture, new product, consolidation, deregulation, re-regulation, reversal of supply/demand imbalances) be identified for an individual company, in-depth fundamental research is then performed to validate the catalyst and to derive forecasts for earnings and trends in return on invested capital ("ROIC"), return on assets and return on equity. Those equities with strong value-enhancing catalysts, the potential for an improving trend in ROIC and deemed to have adequate total return potential are included in the portfolio.

All portfolio holdings are continuously monitored and evaluated based upon their progress relative to the Adviser's expectations for earnings growth and improving profitability. Portfolio positions may be sold when the Adviser determines that the investment has reached its full value, profitability expectations have been met, the initial reason for owning is no longer valid, an unexpected change in the business or industry causes the initial investment thesis to change with negative implications, a better investment opportunity arises or a position weighting needs to be downsized for portfolio management reasons.

Principal Risks. Remember that in addition to possibly not achieving your investment goals, you could lose money by investing in the Fund. The principal risks of investing in the Fund are:

- *General Risk.* There is no assurance that the Fund will meet its investment objective; you could lose money by investing in the Fund.
- *Market Risk.* Prices of equity securities and the value of the Fund's investments will fluctuate and may decline significantly over short-term or long-term periods.
- *Value Investing Risk.* Investing in undervalued securities involves the risk that such securities may never reach their expected market value, either because the market fails to recognize a security's intrinsic worth or the expected value was misjudged. Over time, a value investing style may go in and out of favor, causing the Fund to sometimes underperform other equity funds that use different investing styles.
- *Foreign (Non-U.S.) Securities Risk.* Investments in foreign securities (including ADRs) carry special risks, including foreign political instability, greater volatility, less liquidity, financial reporting inconsistencies, and adverse economic developments abroad, all of which may reduce the value of foreign securities. Many of these risks can be even greater when investing in countries with developing economies and securities markets, also known as "emerging markets."
- *Smaller Capitalization Risk.* Smaller capitalization companies may have a narrower geographic and product/service focus and be less well known to the investment community, resulting in more volatile share prices and a lack of market liquidity.

- *Large Capitalization Company Risk.* The risk that larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in consumer tastes or innovative smaller competitors.
- *Mid-Capitalization Company Risk.* The risk that the mid-cap companies in which the Fund may invest may be more vulnerable to adverse business or economic events than larger, more established companies. In particular, these mid-sized companies may pose additional risks, including liquidity risk, because these companies tend to have limited product lines, markets and financial resources, and may depend upon a relatively small management group. Therefore, mid-cap stocks may be more volatile than those of larger companies.
- *Special Situations Risk.* Investments in companies involved in special situations, such as reorganizations or restructurings, may involve greater risks when compared to the Fund's other strategies due to a variety of factors. Failure to anticipate changes in the circumstances affecting these types of investments may result in permanent loss of capital, where the Fund may be unable to recoup some or all of its investments.
- *Investing in a Managed Fund Risk.* The investment decisions of the Fund's Adviser may cause the Fund to underperform other investments or benchmark indices. The Fund may also underperform other mutual funds with similar investment strategies. As with any mutual fund investment, there can be no guarantee that the Fund will achieve its investment goals.
- *Cyber Security Risk.* As the use of technology has become more prevalent in the course of business, the Fund has become more susceptible to operational, financial and information security risks resulting from cyber-attacks and/or technological malfunctions. Successful cyber-attacks and/or technological malfunctions affecting the Fund or its service providers can result in, among other things, financial losses to the Fund and its shareholders, the inability to process transactions with shareholders or other parties and the release of private shareholder information or confidential Fund information. While measures have been developed which are designed to reduce the risks associated with cyber security, there are inherent limitations in such measures and there is no guarantee those measures will be effective, particularly since the Fund does not directly control the cyber security measures of its service providers, financial intermediaries and companies in which it invests or with which it does business.

Performance. The bar chart illustrates the risks of investing in the Fund by showing how the Fund's average annual returns for each full calendar year since the Fund's inception compare with those of a broad measure of market performance. The sales charge is not reflected in the bar chart, and if it were, returns would be less than those shown. The Average Annual Total Returns table also demonstrates these risks by showing how the Fund's average annual returns compare with those of a broad measure of market performance. Remember, the Fund's past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future. Updated performance information will be available at no cost by calling the Fund toll-free at 1-855-754-7933.

During the period shown in the bar chart, the best performance for a quarter was 8.69% (for the quarter ended March 31, 2013). The worst performance was -4.85% (for the quarter ended September 30, 2015).

¹ The returns shown in the bar chart are for Class A shares. The performance of Class I shares will differ due to differences in expenses.

Average Annual Total Returns for the periods ended December 31, 2017

	One Year	Five Years	Life of Fund*
Class A Shares			
Return Before Taxes	-5.23%	6.08%	6.20%
Return After Taxes on Distributions	-5.23%	5.66%	5.82%
Return After Taxes on Distributions and Sale of Fund Shares	-2.96%	4.68%	4.83%
Class I Shares			
Return Before Taxes	0.29%	7.51%	7.45%
Russell Midcap Value Total Return			
(reflects no deduction for fees, expenses or taxes)	13.34%	14.68%	14.02%

* Linde-Hansen Contrarian Value Fund commenced operations February 8, 2012.

After-tax returns are based on the highest historical individual federal marginal income tax rates, and do not reflect the impact of state and local taxes; actual after-tax returns depend on an individual investor's tax situation and may differ from those shown. If you own shares of the Fund in a tax-deferred account, such as an individual retirement account or a 401(k) plan, this information is not applicable to your investment. A higher after-tax return results when a capital loss occurs upon redemption and translates into an assumed tax deduction that benefits the shareholder. After tax returns are shown for only Class A Shares and after tax returns for Class I Shares will vary.

The Russell Midcap Value Total Return Index measures the performance of the mid-cap value segment of the U.S. equity universe. It includes those Russell Midcap Index companies with lower price-to-book ratios and lower forecasted growth values. The Russell Midcap Value Index is constructed to provide a comprehensive and unbiased barometer of the mid-cap value market. The Index is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true mid-cap value market.

Investment Adviser. Linde, Hansen & Co., LLC serves as the Fund's investment adviser (the "Adviser").

Portfolio Managers. The following serve as the Fund's portfolio managers:

Portfolio Manager	Primary Title	Since
Edward K. von der Linde	Managing Member and Portfolio Manager of the Adviser	February 2012
Howard E. Hansen	Managing Member and Portfolio Manager of the Adviser	February 2012

Purchase and Sale of Fund Shares. You may conduct transactions by mail (Linde Hansen Contrarian Value Fund, c/o Gemini Fund Services, LLC, 17605 Wright Street, Suite 2, Omaha NE 68130), or by telephone at 1-855-754-7933. Investors who wish to purchase or redeem Fund shares through a financial intermediary should contact the financial intermediary directly. The minimum initial investment in each share class of the Fund is \$2,500 and \$10,000 for Class A and Class I, respectively, with a minimum subsequent investment of \$250 and \$1,000 for Class A and Class I, respectively.

Tax Information. The Fund's distributions are taxable, and will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account.

Payments to Broker-Dealers and Other Financial Intermediaries. If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

Investment Strategies, Related Risks and Disclosure of Portfolio Holdings

Investment Objective

The primary investment objective of the Fund is long-term growth of capital, with income as a secondary objective. The Fund's investment objective is not fundamental and may be changed without the approval of shareholders. Shareholders will be given 60 days' prior notice of any such change.

Principal Investment Strategies

In order to accomplish the Fund's objectives, the Adviser will use its disciplined, contrarian value strategy to invest in equities (primarily common stock, but the Fund may also invest in American Depository Receipts (ADRs), preferred stock and/or other securities convertible into common stock) traded on U.S. based exchanges; building concentrated, long-only portfolios. The Adviser will not buy any securities on exchanges located outside of the United States. The Adviser will not sell common stock short nor will it use derivatives as part of its strategy.

The Adviser believes owning undervalued securities of companies expected to realize an improving trend in profitability will, over time, generate strong real-returns and control risk. The Adviser targets for initial purchase the securities of companies traded on U.S. based exchanges with an equity market capitalization of \$200 million or larger. The Adviser places no limits with regard to capitalization exposure.

The Adviser is a contrarian, value-oriented, bottom-up, fundamental research investment manager. The Adviser strives to identify situations where the common stock price is not currently reflecting the true earnings potential of the underlying company. Generally these situations arise when a company has fallen upon financial adversity and the consensus agrees that recovery is unlikely. This creates an opportunity for the Adviser to identify changes occurring at the company or within the industry (catalysts) that it believes will enable profitability to return to normal levels. The Adviser's investment process enables it to take positions in these companies - contrary to consensus thought - when detailed analysis supports the case.

Its investment process begins with proprietary screens designed to identify undervalued equity securities. The Adviser screens for stocks of companies possessing three primary characteristics: first, companies that are earning below average return on invested capital "ROIC"; second, those that are cheap relative to the Adviser's estimates of normalized earnings per share, normal growth rate and expected dividend distributions; third, companies that are cheap relative to their history based upon traditional valuation metrics.

Those equities that are attractive from a valuation basis become candidates for further research. Should a value-enhancing catalyst or "special situation" (for example, new management, restructuring, reorganization, acquisition, divestiture, new product, consolidation, deregulation, re-regulation, reversal of supply/demand imbalances) be identified for an individual company, in-depth fundamental research is then performed to validate the catalyst and to derive forecasts for earnings and trends in ROIC, return on assets and return on equity. Those equities with strong value-enhancing catalysts, the potential for an improving trend in ROIC and deemed to have adequate total return potential are included in the portfolio.

All portfolio holdings are continuously monitored and evaluated based upon their progress relative to the Adviser's expectations for earnings growth and improving profitability. Portfolio positions may be sold when the Adviser determines that the investment has reached its full value, profitability expectations have been met, the initial reason for owning is no longer valid, an unexpected change in the business or industry causes the initial investment thesis to change with negative implications, a better investment opportunity arises or a position weighting needs to be downsized for portfolio management reasons.

Principal Risks of Investing in the Fund

Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested and the amount of risk you are willing to take. **Remember that in addition to possibly not achieving your investment goals, you could lose money by investing in the Fund.** The value of your investment in the Fund will go up and down with the prices of the securities in which the Fund invests. The principal risks of investing in the Fund are:

General Risk. There is no assurance that the Fund will meet its investment objective; investors may lose money by investing in the Fund. As with all mutual funds, an investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. When you sell your Fund shares, they may be worth less than what you paid for them because the value of the Fund's investments will fluctuate reflecting day-to-day changes in market conditions, interest rates, and numerous other factors.

Market Risk. Market risk, the risk that prices of securities will fluctuate because of the interplay of market forces, may affect a single issuer, industry or sector of the economy or may affect the market as a whole. The Fund may experience a substantial or complete loss on an individual stock over a short-term or long-term period. Additionally, prices of equity securities generally fluctuate more than those of other securities, such as debt securities.

Value Investing Risk. Investing in undervalued securities involves the risk that such securities may never reach their expected market value, either because the market fails to recognize a security's intrinsic worth or the estimated intrinsic value was misjudged. Additionally, such securities may decline in value in the short or long-term even though they are deemed by the Fund to be undervalued. Over time, a value investing style may go in and out of favor, causing the Fund to sometimes underperform other equity funds that use different investing styles.

Foreign (Non-U.S.) Securities Risk. The Fund has the ability to invest in foreign securities (including ADRs), and, from time to time, a significant percentage of the Fund's assets may be composed of foreign investments. Such investments may involve significant additional risk. These risks can include political and economic instability; foreign taxation; different or lower standards in accounting, auditing and financial reporting; less-developed securities regulation and trading systems; fluctuations in foreign currency exchange rates; and the risk that a country may impose controls on the exchange or repatriation of foreign currency, any of which could negatively affect the Fund. Many of these risks are greater when investing in countries with developing economies and securities markets, also known as "emerging markets." Moreover, securities of many foreign issuers may be less liquid and their prices more volatile than those of comparable domestic issuers.

Smaller Capitalization Risk. As compared to companies with larger market capitalizations, smaller capitalization companies may target narrower geographic regions, have shallower market penetrations, offer less diverse product or service lines, lack management depth, and, generally speaking, have fewer resources. There may also be less public information available about them. Moreover, the securities of such smaller companies are often less well known to the investment community and therefore have less market liquidity; as a result, their stock prices may be more volatile and react more strongly to changes in the marketplace. Generally, these risks increase as the size of a company's market capitalization falls.

Large Capitalization Risk. Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in consumer tastes or innovative smaller competitors. Also, large-cap companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion.

Mid-Capitalization Risk. Generally, mid-cap companies may have more potential for growth than large-cap companies. Investing in mid-cap companies, however, may involve greater risk than investing in large-cap companies. Mid-cap companies may not have the management experience, financial resources, product diversification and competitive strengths of large-cap companies and, therefore, their securities may be more volatile than the securities of larger, more established companies, making them less liquid than other securities. Mid-cap company stocks may also be bought and sold less often and in smaller amounts than larger company stocks. Because of this, if the Fund wants to sell a large quantity of a mid-cap company's stock, it may have to sell at a lower price than the Adviser might prefer, or it may have to sell in smaller than desired quantities over a period of time.

Special Situations Risk. Investments in special situations may involve greater risks when compared to the Fund's other strategies due to a variety of factors. Mergers, reorganizations, liquidations, or recapitalizations may not be completed on the terms originally contemplated, or may fail. Expected developments may not occur in a timely manner, or at all. Transactions may take longer than originally anticipated, resulting in lower annualized returns than contemplated at the time of investment. Furthermore, failure to anticipate changes in the circumstances affecting these types of investments may result in permanent loss of capital, where the Fund may be unable to recoup some or all of its investment.

Investing in a Managed Fund Risk. The investment decisions of the Fund's Adviser may cause the Fund to underperform other investments or benchmark indices. The Fund may also underperform other mutual funds with similar investment strategies. The Fund's investment adviser may be incorrect in an assessment of a particular industry or company, or the Adviser may not buy chosen securities at the lowest possible prices or sell securities at the highest possible prices. As with any mutual fund investment, there can be no guarantee that the Fund will achieve its investment goals.

Cyber Security Risk: As the use of technology has become more prevalent in the course of business, the Fund has become more susceptible to operational, financial and information security risks resulting from cyber-attacks and/or technological malfunctions. Cyber-attacks include, among other things, the attempted theft, loss, misuse, improper release, corruption or destruction of, or unauthorized access to, confidential or highly restricted data relating to the Fund and its shareholders; and attempted compromises or failures to systems, networks, devices and applications relating to the operations of the Fund and its service providers. Cyber security breaches may result from unauthorized access to digital systems (e.g., through “hacking” or malicious software coding) or from outside attacks, such as denial-of-service attacks on websites (i.e., efforts to make network services unavailable to intended users).

Portfolio Holdings Information

A description of the Fund’s policies and procedures with respect to the disclosure of the Fund’s portfolio holdings is available in the Fund’s SAI.

Management of the Fund

The Adviser

The Fund has entered into an Investment Advisory Agreement (“Advisory Agreement”) with Linde, Hansen & Co., LLC, located at 25B Vreeland Road, Suite 102, Florham Park, NJ, 07932, under which the Adviser manages the Fund’s investments subject to the supervision of the Board of Trustees. Under the Advisory Agreement, the Fund compensates the Adviser for its investment advisory services at the annual rate of 1.00% of the Fund’s average daily net assets, payable on a monthly basis. The Adviser is registered as an investment adviser in the state of New Jersey, and as an investment adviser with the U.S. Securities and Exchange Commission under the Investment Advisers Act of 1940.

Fund Expenses. The Fund is responsible for its own operating expenses. Pursuant to an operating expense limitation agreement between the Adviser and the Fund, the Adviser has agreed to waive its fees and/or absorb expenses of the Fund to ensure that Total Annual Fund Operating Expenses (excluding any front-end or contingent deferred sales loads, brokerage fees and commissions, acquired fund fees and expenses, borrowing costs (such as interest and dividend expense on securities sold short), taxes and extraordinary expenses such as litigation) for the Fund do not exceed 1.40% and 1.15%, of the Fund’s average net assets, for Class A and Class I shares, respectively, through March 31, 2019, subject thereafter to annual re-approval of the agreement by the Board of Trustees. The Adviser is permitted to receive reimbursement from the Fund for fees it waived and Fund expenses it paid, subject to the limitation that: (1) the reimbursement for fees and expenses will be made only if payable within three years from the date the fees and expenses were initially waived or reimbursed; and (2) the reimbursement may not be made if it would cause the expense limitation in effect at the time of the waiver or currently in effect, whichever is lower, to be exceeded. The Fund must pay its current ordinary operating expenses before the Adviser is entitled to any reimbursement of management fees and/or expenses. This Operating Expense Limitation Agreement can be terminated only by, or with the consent, of the Board of Trustees. For the fiscal period ended November 30, 2017 the Adviser received an annual advisory fee net of fee waivers and expense reimbursements equal to 0.59% of the Fund’s average daily net assets.

A discussion regarding the basis for the Board of Trustees’ approval of the renewal of the Advisory Agreement will be available in the Fund’s semi-annual report to shareholders dated May 31, 2018.

Portfolio Managers

Edward K. von der Linde is the co-founder, Managing Member and Portfolio Manager of the Adviser. Prior to forming the Adviser in 2009, Mr. von der Linde was a Partner and Director, Mid-Cap Value Equities at Lord, Abbett & Co. through mid-2008, which he joined in 1988. Previously, he had been an Equity Analyst at New York Life Insurance.

Mr. von der Linde earned a BA in international relations from Lake Forest College and an MBA from New York University.

Howard E. Hansen, CFA is the co-founder, Managing Member and Portfolio Manager of the Adviser. Prior to forming the Adviser in 2009, Mr. Hansen was a Partner and Portfolio Manager at Lord, Abbett & Co. through 2008, which he joined in 1995. Previously, he was an Equity Analyst at Alfred Berg, Inc., Tiger Management and Kidder, Peabody & Co.

Mr. Hansen earned a BS, economics from Clarkson University, an MBA from Columbia University and is a holder of the Chartered Financial Analyst (CFA) designation.

Shareholder Information

Choosing a Share Class

The Trust has adopted a multiple class plan that allows the Fund to offer one or more classes of shares. The Fund has registered three classes of shares – Class I shares, Class A shares and Class C shares. Currently, only Class A and Class I shares are being offered. The different classes of shares represent investments in the same portfolio of securities, but the classes are subject to different expenses and may have different share prices as outlined below:

- Class I shares are sold at NAV without an initial sales charge. This means that 100% of your initial investment is placed into shares of the Fund.
- Class A shares are charged a front-end sales load. The Class A shares are also charged a 0.25% Rule 12b-1 distribution and servicing fee. Class A shares do not have a contingent deferred sales charge (“CDSC”) except that a maximum charge of 1.00% may apply to certain redemptions made within twelve months, following purchases of \$1 million or more without an initial sales charge.

The share classes may also be subject to different minimum initial investment requirements or minimum subsequent investment requirements. The Fund may waive minimum initial investment or minimum subsequent investment requirements in its sole discretion.

More About Class I Shares

Class I shares may be purchased without the imposition of any sales charges. The Fund offers Class I shares primarily for direct investment by investors such as pension and profit-sharing plans, employee benefit trusts, endowments, foundations, corporations and high net worth individuals. Class I shares may also be offered through certain financial intermediaries (including broker-dealers) and their agents in fee based and other programs. In these programs financial intermediaries have made arrangements with the Fund and are authorized to buy and sell shares of the Fund that charge their customers transaction or other distribution or service fees with respect to their customers’ investments in the Fund. Class I shares are sold at NAV without an initial sales charge, and are not subject to 12b-1 distribution fees. The minimum initial investment in Class I shares of the Fund is \$10,000. The minimum subsequent investment in Class I shares of the Fund is \$1,000.

More About Class A Shares

Class A shares are offered at their public offering price, which is NAV plus the applicable sales charge and is subject to 12b-1 distribution fees of up to 0.25% of the average daily net assets of Class A shares. The minimum initial investment in Class A shares of the Fund is \$2,500. The minimum subsequent investment in Class A shares of the Fund is \$250 for all other accounts. The sales charge varies, depending on how much you invest. There are no sales charges on reinvested distributions. The Fund reserves the right to waive sales charges at its discretion. The following sales charges apply to your purchases of Class A shares of the Fund:

Amount of Transaction	Sales Charge as % of Public Offering Price ⁽¹⁾	Sales Charge as % of Net Amount Invested	Dealer Reallowance as a % of Public Offering Price
Less than \$25,000	5.25%	5.54%	4.50%
\$25,000 but less than \$50,000	4.50%	4.71%	3.75%
\$50,000 but less than \$100,000	3.75%	3.90%	3.00%
\$100,000 but less than \$250,000	3.00%	3.10%	2.25%
\$250,000 but less than \$500,000	2.00%	2.04%	1.50%
\$500,000 but less than \$1,000,000	1.00%	1.01%	0.75%
\$1,000,000 or more	0.00% ⁽²⁾	0.00%	** ⁽³⁾

- (1) Offering price includes the front-end sales load. The sales charge you pay may differ slightly from the amount set forth above because of rounding that occurs in the calculation used to determine your sales charge.
- (2) Investors that purchase \$1,000,000 or more of the Fund’s Class A shares will not pay any initial sales charge on the purchase. However, purchases of \$1,000,000 or more of Class A shares may be subject to a contingent deferred sales charge (“CDSC”) on shares redeemed during the first 12 months after their purchase in the amount of the commissions paid on the shares redeemed. In addition, a CDSC of up to 1.00% of the purchase price will be charged to the shareholders who received a sales charge waiver and then redeem their shares within one year after purchase. This CDSC will be based on the lower of the cost of the shares or their NAV at the time of redemption.
- (3) A selling broker may receive commissions on purchases of Class A shares over \$1 million calculated as follows: 1.00% on purchases between \$1 million and \$3 million, 0.50% on amounts over \$3 million but less than \$5 million, 0.25% on amounts over \$5 million. The commission rate is determined based on the purchase amount combined with the current market value of existing investments in Class A shares.

Reducing Your Sales Charge

You may be eligible to purchase Class A shares at a reduced sales charge. To qualify for these reductions, you must notify the Fund's distributor, Northern Lights Distributors, LLC (the "distributor"), in writing and supply your account number at the time of purchase. You may combine your purchase with those of your "immediate family" (your spouse and your children under the age of 21) for purposes of determining eligibility. If applicable, you will need to provide the account numbers of your spouse and your minor children as well as the ages of your minor children.

Letter of Intent. Under a Letter of Intent ("LOI"), you commit to purchase a specified dollar amount of Class A shares of the Fund, with a minimum of \$50,000, during a 13-month period. At your written request, Class A shares purchases made during the previous 90 days may be included. The amount you agree to purchase determines the initial sales charge you pay. If the full-face amount of the LOI is not invested by the end of the 13-month period, your account will be adjusted to the higher initial sales charge level for the amount actually invested. You are not legally bound by the terms of your LOI to purchase the amount of your shares stated in the LOI. The LOI does, however, authorize the Fund to hold in escrow 5% of the total amount you intend to purchase. If you do not complete the total intended purchase at the end of the 13 month period, the Fund's transfer agent will redeem the necessary portion of the escrowed shares to make up the difference between the reduced rate sales charge (based on the amount you intended to purchase) and the sales charge that would normally apply (based on the actual amount you purchased).

Rights of Accumulation. To qualify for the lower sales charge rates that apply to larger purchases of Class A shares, you may combine your new purchases of Class A shares with Class A shares of the Fund that you already own. The applicable initial sales charge for the new purchase is based on the total of your current purchase and the current value of all other Class A shares that you own. The reduced sales charge will apply only to current purchases and must be requested in writing when you buy your shares.

Shares of the Fund held as follows cannot be combined with your current purchase for purposes of reduced sales charges:

- Shares held indirectly through financial intermediaries other than your current purchase broker-dealer (for example, a different broker-dealer, a bank, a separate insurance company account or an investment adviser);
- Shares held through an administrator or trustee/custodian of an Employer Sponsored Retirement Plan (for example, a 401(k) plan) other than employer-sponsored IRAs;
- Shares held directly in the Fund account on which the broker-dealer (financial advisor) of record is different than your current purchase broker-dealer.

Waiving Your Class A Sales Charge

The sales charge on purchases of Class A shares is waived for certain types of investors, including:

- Current and retired directors and officers of the Fund sponsored by the Adviser or any of its subsidiaries, their families (*e.g.*, spouse, children, mother or father) and any purchases referred through the Adviser.
- Employees of the Adviser and their families, or any full-time employee or registered representative of the distributor or of broker-dealers having dealer agreements with the distributor (a "Selling Broker") and their immediate families (or any trust, pension, profit sharing or other benefit plan for the benefit of such persons).
- Any full-time employee of a bank, savings and loan, credit union or other financial institution that utilizes a Selling Broker to clear purchases of the fund's shares and their immediate families.
- Participants in certain "wrap-fee" or asset allocation programs or other fee-based arrangements sponsored by broker-dealers and other financial institutions that have entered into agreements with the distributor.
- Clients of financial intermediaries that have entered into arrangements with the distributor providing for the shares to be used in particular investment products made available to such clients and for which such registered investment advisers may charge a separate fee.
- Institutional investors (which may include bank trust departments and registered investment advisers).
- Any accounts established on behalf of registered investment advisers or their clients by broker-dealers that charge a transaction fee and that have entered into agreements with the distributor.

- Separate accounts used to fund certain unregistered variable annuity contracts or Section 403(b) or 401(a) or (k) accounts.
- Employer-sponsored retirement or benefit plans with total plan assets in excess of \$5 million where the plan's investments in the Fund are part of an omnibus account. A minimum initial investment of \$1 million in the Fund is required. The distributor in its sole discretion may waive these minimum dollar requirements. Whether a sales charge waiver is available for your retirement plan or charitable account depends upon the policies and procedures of your intermediary. Please consult your financial adviser for further information.

The Fund does not waive sales charges for the reinvestment of proceeds from the sale of shares of a different fund where those shares were subject to a front-end sales charge (sometimes called an "NAV transfer").

A CDSC of up to 1.00% of the purchase price will be charged to the shareholders who received a sales charge waiver and then redeem their shares within one year after purchase. This CDSC will be based on the lower of the cost of the shares or their NAV at the time of redemption.

The Fund also reserves the right to enter into agreements that reduce or eliminate sales charges for groups or classes of shareholders, or for Fund shares included in other investment plans such as "wrap accounts." If you own Fund shares as part of another account or package, such as an IRA or a sweep account, you should read the terms and conditions that apply for that account. Those terms and conditions may supersede the terms and conditions discussed here. Contact your selling agent for further information.

Further information regarding the Fund's sales charges, breakpoints and waivers is available free of charge upon request.

Share Price

Shares of the Fund are sold at net asset value ("NAV"). The NAV of the Fund is determined at close of regular trading (normally 4:00 p.m. Eastern Time) on each day the New York Stock Exchange ("NYSE") is open for business. NAV is computed by determining, on a per class basis, the aggregate market value of all assets of the Fund, less its liabilities, divided by the total number of shares outstanding ((assets-liabilities)/number of shares = NAV). The NYSE is closed on weekends and New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The NAV takes into account, on a per class basis, the expenses and fees of the Fund, including management, administration, and distribution fees, which are accrued daily. The determination of NAV for a share class for a particular day is applicable to all applications for the purchase of shares, as well as all requests for the redemption of shares, received by the Fund (or an authorized broker or agent, or its authorized designee) before the close of trading on the NYSE on that day.

Generally, the Fund's securities are valued each day at the last quoted sales price on each security's primary exchange. Securities traded or dealt in upon one or more securities exchanges (whether domestic or foreign) for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid ask prices on such exchanges. Securities primarily traded in the National Association of Securities Dealers' Automated Quotation System ("NASDAQ") National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity.

If market quotations are not readily available, securities will be valued at their fair market value as determined using the "fair value" procedures approved by the Board. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different from the value that could be realized upon the sale of that security. The fair value prices can differ from market prices when they become available or when a price becomes available. The Board has delegated execution of these procedures to a fair value team composed of one or more officers from each of the (i) Trust, (ii) administrator, and (iii) Advisor and/or sub-Advisor. The team may also

enlist third party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews and ratifies the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results.

The Fund may use independent pricing services to assist in calculating the value of the Fund's securities. In addition, market prices for foreign securities are not determined at the same time of day as the NAV for the Fund. Because the Fund may invest in underlying ETFs which hold portfolio securities primarily listed on foreign exchanges, and these exchanges may trade on weekends or other days when the underlying ETFs do not price their shares, the value of some of the Fund's portfolio securities may change on days when you may not be able to buy or sell Fund shares.

In computing the NAV, the Fund values foreign securities held by the Fund at the latest closing price on the exchange in which they are traded immediately prior to closing of the NYSE. Prices of foreign securities quoted in foreign currencies are translated into U.S. dollars at current rates. If events materially affecting the value of a security in the Fund's portfolio, particularly foreign securities, occur after the close of trading on a foreign market but before the Fund prices its shares, the security will be valued at fair value. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the Advisor may need to price the security using the Fund's fair value pricing guidelines. Without a fair value price, short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund's portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund's NAV by short term traders. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other mutual funds to determine net asset value, or from the price that may be realized upon the actual sale of the security.

With respect to any portion of the Fund's assets that are invested in one or more open-end management investment companies registered under the 1940 Act, the Fund's net asset value is calculated based upon the net asset values of those open-end management investment companies, and the prospectuses for these companies explain the circumstances under which those companies will use fair value pricing and the effects of using fair value pricing.

How to Purchase Shares

The Fund currently offers two classes of shares so that you can choose the class that best suits your investment needs: Class A and Class I shares. The main differences between each class are sales charges and ongoing fees. In choosing which class of shares to purchase, you should consider which will be most beneficial to you given your investment goals, the amount of your purchase and the length of time you expect to hold the shares. Each class of shares in the Fund represents an interest in the same portfolio of investments in the Fund. Not all share classes may be available for purchase in all states.

Purchase by Mail. To purchase the Fund's shares by mail, simply complete and sign the Account Application and mail it, along with a check made payable to "Linde Hansen Contrarian Value Fund" to:

via Regular mail:

Linde Hansen Contrarian Value Fund
c/o Gemini Fund Services, LLC
P.O. Box 541150
Omaha, NE 68154

or Overnight mail:

Linde Hansen Contrarian Value Fund
c/o Gemini Fund Services, LLC
17605 Wright Street, Suite 2
Omaha, NE 68130

You may also obtain an Account Application on the Fund's website: www.lindehansen.com.

Purchase through Brokers. You may invest in the Fund through brokers or agents who have entered into selling agreements with the Fund's distributor. The brokers and agents are authorized to receive purchase and redemption orders on behalf of the Fund. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or its designee receives the order. The broker or agent may set their own initial and subsequent investment minimums. You may be charged a fee if you use a broker or agent to buy or redeem shares of the Fund. Finally, various servicing agents use procedures and impose restrictions that may be in addition to, or different from those applicable to investors purchasing shares directly from the Fund. You should carefully read the program materials provided to you by your servicing agent. Such brokers are authorized to designate other intermediaries to receive purchase and redemption orders on the fund's behalf.

Purchase by Wire. If you wish to wire money to make an investment in the Fund, please call the Fund at 1-855-754-7933 for wiring instructions and to notify the Fund that a wire transfer is coming. Any commercial bank can transfer same-day funds via wire. The Fund will normally accept wired funds for investment on the day received if they are received by the Fund's designated bank before the close of regular trading on the NYSE. Your bank may charge you a fee for wiring same-day funds.

Automatic Investment Plan. You may participate in the Fund's Automatic Investment Plan, an investment plan that automatically moves money from your bank account and invests it in the Fund through the use of electronic funds transfers or automatic bank drafts. You may elect to make subsequent investments by transfers of a minimum of \$250 on specified days of each month into your established Fund account. Please contact the Fund at 1-855-754-7933 for more information about the Fund's Automatic Investment Plan. Minimum initial investment requirements may be waived for Automatic Investment Plan investors, at the Fund's discretion.

The Fund, however, reserves the right, in its sole discretion, to reject any application to purchase shares. Applications will not be accepted unless they are accompanied by a check drawn on a U.S. bank, thrift institutions, or credit union in U.S. funds for the full amount of the shares to be purchased. After you open an account, you may purchase additional shares by sending a check together with written instructions stating the name(s) on the account and the account number, to the above address. Make all checks payable to **"Linde Hansen Contrarian Value Fund."** The Fund will not accept payment in cash, including cashier's checks or money orders. Also, to prevent check fraud, the Fund will not accept third party checks, U.S. Treasury checks, credit card checks or starter checks for the purchase of shares.

Note: Gemini Fund Services, LLC, the Fund's transfer agent, will charge a \$25 fee against a shareholder's account, in addition to any loss sustained by the Fund, for any check returned to the transfer agent for insufficient funds.

Anti-Money Laundering Program. The USA PATRIOT Act requires financial institutions, including the Fund, to adopt certain policies and programs to prevent money-laundering activities, including procedures to verify the identity of customers opening new accounts. As requested on the application, you should supply your full name, date of birth, social security number and permanent street address. Mailing addresses containing a P.O. Box will not be accepted. This information will assist the Fund in verifying your identity. Until such verification is made, the Fund may temporarily limit additional share purchases. In addition, the Fund may limit additional share purchases or close an account if it is unable to verify a shareholder's identity. As required by law, the Fund may employ various procedures, such as comparing the information to fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct.

In order to ensure compliance with these laws, the Account Application asks for, among other things, the following information for all "customers" seeking to open an "account" (as those terms are defined in rules adopted pursuant to the USA PATRIOT Act):

- full name;
- date of birth (individuals only);
- Social Security or taxpayer identification number; and
- permanent street address (P.O. Box only is not acceptable).

Accounts opened by entities, such as corporations, limited liability companies, partnerships or trusts, will require additional documentation.

Please note that if any information listed above is missing, your Account Application will be returned and your account will not be opened. In compliance with the USA PATRIOT Act and other applicable anti-money laundering laws and regulations, the Transfer Agent will verify the information on your application as part of the Program. The Fund reserves the right to request additional clarifying information and may close your account if such clarifying information is not received by the Fund within a reasonable time of the request or if the Fund cannot form a reasonable belief as to the true identity of a customer. If you require additional assistance when completing your Account Application, please contact the Transfer Agent at 1-855-754-7933.

How to Redeem Shares

The Fund typically expects that it will take up to 7 days following the receipt of your redemption request to pay out redemptions from cash, cash equivalents, proceeds from the sale of Fund shares, any line of credit, and then from the sale of portfolio securities. These redemption payment methods will be used in regular and stressed market conditions.

You may redeem all or any portion of the shares credited to your account by submitting a written request for redemption to:

via Regular mail:

Linde Hansen Contrarian Value Fund
c/o Gemini Fund Services, LLC
P.O. Box 541150
Omaha, NE 68154

or Overnight mail:

Linde Hansen Contrarian Value Fund
c/o Gemini Fund Services, LLC
17605 Wright Street, Suite 2
Omaha, NE 68130

Redemptions by Telephone: The telephone redemption privilege is automatically available to all new accounts except retirement accounts. If you do not want the telephone redemption privilege, you must indicate this in the appropriate area on your account application or you must write to the Fund and instruct it to remove this privilege from your account.

The proceeds will be sent by mail to the address designated on your account or wired directly to your existing account in a bank or brokerage firm in the United States as designated on your application. To redeem by telephone, call 1-855-754-7933. The redemption proceeds normally will be sent by mail or by wire within three business days after receipt of your telephone instructions. IRA accounts are not redeemable by telephone.

The Fund reserves the right to suspend the telephone redemption privileges with respect to your account if the name(s) or the address on the account has been changed within the previous 30 days. Neither the Fund, the transfer agent, nor their respective affiliates will be liable for complying with telephone instructions they reasonably believe to be genuine or for any loss, damage, cost or expenses in acting on such telephone instructions and you will be required to bear the risk of any such loss. The Fund or the transfer agent, or both, will employ reasonable procedures to determine that telephone instructions are genuine. If the Fund and/or the transfer agent do not employ these procedures, they may be liable to you for losses due to unauthorized or fraudulent instructions. These procedures may include, among others, requiring forms of personal identification prior to acting upon telephone instructions, providing written confirmation of the transactions and/or tape recording telephone instructions.

Redemptions through Broker: If shares of the Fund are held by a broker-dealer, financial institution or other servicing agent, you must contact that servicing agent to redeem shares of the Fund. The servicing agent may charge a fee for this service.

Redemptions by Wire: You may request that your redemption proceeds be wired directly to your bank account. The Fund's transfer agent imposes a \$15 fee for each wire redemption and deducts the fee directly from your account. Your bank may also impose a fee for the incoming wire.

Automatic Withdrawal Plan: If your individual accounts, IRA or other qualified plan account have a current account value of at least \$5,000, you may participate in the Fund's Automatic Withdrawal Plan, an investment plan that automatically moves money to your bank account from the Fund through the use of electronic funds transfers. You may elect to make subsequent withdrawals by transfers of a minimum of \$250 on specified days of each month into your established bank account. Please contact the Fund at 1-855-754-7933 for more information about the Fund's Automatic Withdrawal Plan.

Redemptions in Kind: The Fund reserves the right to honor requests for redemption or repurchase orders made by a shareholder during any 90-day period by making payment in whole or in part in portfolio securities ("redemption in kind") if the amount of such a request is large enough to affect operations (if the request is greater than the lesser of \$250,000 or 1% of the Fund's net assets at the beginning of the 90-day period). The securities will be chosen by the Fund and valued using the same procedures as used in calculating the Fund's NAV. A shareholder may incur transaction expenses in converting these securities to cash and the shareholder will bear market risk until the securities are converted to cash.

When Redemptions are Sent: Once the Fund receives your redemption request in “good order” as described below, it will issue a check based on the next determined NAV following your redemption request. The redemption proceeds normally will be sent by mail or by wire within three business days after receipt of a request in “good order.” If you purchase shares using a check and soon after request a redemption, your redemption proceeds will not be sent until the check used for your purchase has cleared your bank.

Good Order: Your redemption request will be processed if it is in “good order.” To be in good order, the following conditions must be satisfied:

- The request should be in writing, unless redeeming by telephone, indicating the number of shares or dollar amount to be redeemed;
- The request must identify your account number;
- The request should be signed by you and any other person listed on the account, exactly as the shares are registered; and
- If you request that the redemption proceeds be sent to a person, bank or an address other than that of record or paid to someone other than the record owner(s), or if the address was changed within the last 30 days, or if the proceeds of a requested redemption exceed \$50,000, the signature(s) on the request must be medallion signature guaranteed by an eligible signature guarantor.

When You Need Medallion Signature Guarantees: If you wish to change the bank or brokerage account that you have designated on your account, you may do so at any time by writing to the Fund with your signature guaranteed. A medallion signature guarantee assures that a signature is genuine and protects you from unauthorized account transfers. You will need your signature guaranteed if:

- you request a redemption to be made payable to a person not on record with the Fund;
- you request that a redemption be mailed to an address other than that on record with the Fund;
- the proceeds of a requested redemption exceed \$50,000;
- any redemption is transmitted by federal wire transfer to a bank other than the bank of record; or
- your address was changed within 30 days of your redemption request.

Signatures may be guaranteed by any eligible guarantor institution (including banks, brokers and dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations). Further documentation will be required to change the designated account if shares are held by a corporation, fiduciary or other organization. *A notary public cannot guarantee signatures.*

Retirement Plans: If you own an IRA or other retirement plan, you must indicate on your redemption request whether the Fund should withhold federal income tax. Unless you elect in your redemption request that you do not want to have federal tax withheld, the redemption will be subject to withholding.

Low Balances: If at any time your account balance falls below \$2,500 for Class A shares and \$500,000 for Class I shares, the Fund may notify you that, unless the account is brought up to at least \$2,500 for Class A shares and \$500,000 for Class I shares within 60 days of the notice; your account could be closed. After the notice period, the Fund may redeem all of your shares and close your account by sending you a check to the address of record. Your account will not be closed if the account balance drops below required minimum due to a decline in NAV.

Redemption Fee

The Fund will deduct a 1% redemption fee on the redemption amount if you sell your shares less than 60 days after purchase or shares held less than 60 days are redeemed for failure to maintain the Fund’s balance minimum. See Low Balances for further information on account closure policy. Shares held longest will be treated as being redeemed first and shares held shortest as being redeemed last. Shares held for 60 days or more are not subject to the 1% fee.

Redemption fees are paid to the Fund directly and are designed to offset costs associated with fluctuations in Fund asset levels and cash flow caused by short-term shareholder trading.

Waivers of Redemption Fees: The Fund has elected not to impose the redemption fee for:

- Redemptions and exchanges of Fund shares acquired through the reinvestment of dividends and distributions;
- Certain types of redemptions and exchanges of Fund shares owned through participant-directed retirement plans;
- Redemptions or exchanges in discretionary asset allocation, fee based or wrap programs (“wrap programs”) that are initiated by the sponsor/financial advisor as part of a periodic rebalancing;
- Redemptions or exchanges in a fee based or wrap program that are made as a result of a full withdrawal from the wrap program or as part of a systematic withdrawal plan;
- Involuntary redemptions, such as those resulting from a shareholder’s failure to maintain a minimum investment in the Fund, or to pay shareholder fees; or
- Redemptions or exchanges due to the death or disability of a shareholder, pursuant to a qualified domestic relations order or divorce decree, or similar situations where the Fund, in its discretion, believes it is appropriate in the circumstances.

The Fund reserves the right to modify or eliminate the redemption fees or waivers at any time and will give shareholders 30 days’ prior written notice of any material changes, unless otherwise provided by law. The redemption fee policy may be modified or amended in the future to reflect, among other factors, regulatory requirements mandated by the SEC.

Tools to Combat Frequent Transactions

The Fund discourages and does not accommodate market timing. Frequent trading into and out of the Fund can harm all Fund shareholders by disrupting the Fund’s investment strategies, increasing Fund expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders. The Fund is designed for long-term investors and is not intended for market timing or other disruptive trading activities. Accordingly, the Fund’s Board has approved policies that seek to curb these disruptive activities while recognizing that shareholders may have a legitimate need to adjust their Fund investments as their financial needs or circumstances change. The Fund currently uses several methods to reduce the risk of market timing. These methods include:

- Committing staff to review, on a continuing basis, recent trading activity in order to identify trading activity that may be contrary to the Fund’s “Market Timing Trading Policy;”
- Rejecting or limiting specific purchase requests; and
- Charging a 1% redemption charge if shares are held less than 60 days.

Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund seeks to make judgments and applications that are consistent with the interests of the Fund’s shareholders.

The redemption fee, which is uniformly imposed, is intended to discourage short-term trading and is paid to the Fund to help offset any cost associated with such short-term trading. The Fund will monitor the assessment of redemption fees against your account. Based on the frequency of redemption fees assessed against your account, the Adviser or Transfer Agent may in its sole discretion determine that your trading activity is detrimental to the Fund as described in the Fund’s Market Timing Trading Policy and elect to (i) reject or limit the amount, number, frequency or method for requesting future purchases into the Fund and/or (ii) reject or limit the amount, number, frequency or method for requesting future exchanges or redemptions out of the Fund.

The Fund reserves the right to reject or restrict purchase or exchange requests for any reason, particularly when the shareholder’s trading activity suggests that the shareholder may be engaged in market timing or other disruptive trading activities. Neither the Fund nor the Adviser will be liable for any losses resulting from rejected purchase or exchange orders. The Adviser may also bar an investor who has violated these policies (and the investor’s financial adviser) from opening new accounts with the Fund.

Although the Fund attempts to limit disruptive trading activities, some investors use a variety of strategies to hide their identities and their trading practices. There can be no guarantee that the Fund will be able to identify or limit these activities. Omnibus account arrangements are common forms of holding shares of the Fund. While the Fund will encourage financial intermediaries to apply the Fund’s Market Timing Trading Policy to their customers who invest

indirectly in the Fund, the Fund is limited in its ability to monitor the trading activity or enforce the Fund's Market Timing Trading Policy with respect to customers of financial intermediaries. For example, should it occur, the Fund may not be able to detect market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, exchanges and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Fund's Market Timing Trading Policy to their customers through such methods as implementing short-term trading limitations or restrictions, assessing the Fund's redemption fee and monitoring trading activity for what might be market timing, the Fund may not be able to determine whether trading by customers of financial intermediaries is contrary to the Fund's Market Timing Trading Policy. Brokers maintaining omnibus accounts with the Fund have agreed to provide shareholder transaction information to the extent known to the broker to the Fund upon request. If the Fund or its transfer agent or shareholder servicing agent suspects there is market timing activity in the account, the Fund will seek full cooperation from the service provider maintaining the account to identify the underlying participant. At the request of the Adviser, the service providers may take immediate action to stop any further short-term trading by such participants.

Householding. To reduce expenses, the Fund mails only one copy of the Prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call the Fund at 1-855-754-7933 on days the Fund is open for business or contact your financial institution. The Fund will begin sending you individual copies thirty days after receiving your request.

Shares of one of the Class of the Fund will not be exchangeable for shares of other Classes.

Distribution of Fund Shares

The Distributor

Northern Lights Distributors, LLC (the "Distributor") is located at 17605 Wright Street, Omaha, NE 68130, and serves as distributor and principal underwriter to the Fund. The Distributor is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). Shares of the Fund are offered on a continuous basis.

Distribution and Shareholder Servicing (12b-1) Plan

The Fund has adopted a Distribution and Shareholder Servicing Plan pursuant to Rule 12b-1 (the "12b-1 Plan") under the 1940 Act. Under the 12b-1 Plan, the Fund is authorized to pay the Fund's distributor, or such other entities as approved by the Board of Trustees, a fee for the promotion and distribution of the Fund and the provision of personal services to shareholders. The maximum amount of the fee authorized is 0.25% of the Fund's average daily net assets annually for the Class A shares. The distributor may pay any or all amounts received under the 12b-1 Plan to other persons, including the Adviser, for any distribution or service activity. Because these fees are paid out of the Fund's assets on an on-going basis, over time these fees will increase the cost of your investment in the Fund and may cost you more than paying other types of sales charges.

In addition to the fees paid under the 12b-1 Plan, the Fund may pay service fees to intermediaries such as banks, broker-dealers, financial advisors or other financial institutions, including the Adviser and affiliates of the Adviser, for sub-administration, sub-transfer agency and other shareholder services associated with shareholders whose shares are held of record in omnibus, other group accounts or accounts traded through registered securities clearing agents.

Additional Compensation to Financial Intermediaries

The distributor, its affiliates and the Adviser, out of its own resources, and without additional cost to the Fund or its shareholders, may provide additional cash payments or non-cash compensation to intermediaries who sell shares of the Fund. Such payments and compensation are in addition to service fees paid by the Fund, if any. These additional cash payments are generally made to intermediaries that provide shareholder servicing, marketing support and/or access to sales meetings, sales representatives and management representatives of the intermediary. Cash compensation may also be paid to intermediaries for inclusion of the Fund on a sales list, including a preferred or select sales list, in other sales programs or as an expense reimbursement in cases where the intermediary provides shareholder services to the Fund's shareholders. The Adviser may also pay cash compensation in the form of finder's fees that vary depending on the dollar amount of the shares sold.

Distributions and Taxes

Tax Status, Dividends and Distributions

Any sale or exchange of a Fund's shares may generate tax liability (unless you are a tax-exempt investor or your investment is in a qualified retirement account). When you redeem your shares you may realize a taxable gain or loss. This is measured by the difference between the proceeds of the sale and the tax basis for the shares you sold. (To aid in computing your tax basis, you generally should retain your account statements for the period that you hold shares in the Fund.)

The Fund intends to distribute substantially all of its net investment income and net capital gains annually in December. Both distributions will be reinvested in shares of the Fund unless you elect to receive cash. Dividends from net investment income (including any excess of net short-term capital gain over net long-term capital loss) are taxable to investors as ordinary income, while distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss) are generally taxable as long-term capital gain, regardless of your holding period for the shares. Any dividends or capital gain distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest dividends or capital gain distributions or receive them in cash. Certain dividends or distributions declared in October, November or December will be taxed to shareholders as if received in December if they are paid during the following January. Each year the Fund will inform you of the amount and type of your distributions. IRAs and other qualified retirement plans are exempt from federal income taxation until retirement proceeds are paid out to the participant.

Your redemptions, including exchanges, may result in a capital gain or loss for federal income tax purposes. A capital gain or loss on your investment is the difference between the cost of your shares, including any sales charges, and the amount you receive when you sell them.

On the account application, you will be asked to certify that your social security number or taxpayer identification number is correct and that you are not subject to backup withholding for failing to report income to the IRS. If you are subject to backup withholding or you did not certify your taxpayer identification number, the IRS requires the Fund to withhold a percentage of any dividend, redemption or exchange proceeds. The Fund reserves the right to reject any application that does not include a certified social security or taxpayer identification number. If you do not have a social security number, you should indicate on the purchase form that your application to obtain a number is pending. The Fund is required to withhold taxes if a number is not delivered to the Fund within seven days.

This summary is not intended to be and should not be construed to be legal or tax advice. This summary is general in nature and should not be regarded as an exhaustive presentation of all possible tax ramifications. The tax considerations relevant to a specific shareholder depend upon its specific circumstances, and this summary does not attempt to discuss all potential tax considerations that could be relevant to a prospective shareholder with respect to the Fund or its investments. This general summary is based on the Internal Revenue Code of 1986, as amended (the "Code"), the Federal Income Tax Regulations promulgated thereunder, and administrative and judicial interpretations thereof as of the date hereof, all of which are subject to change (potentially on a retroactive basis). You should consult your own independent tax advisors to determine the tax consequences of owning the Fund's shares.

Other Reporting and Withholding Requirements. Payments to a shareholder that is either a foreign financial institution ("FFI") or a non-financial foreign entity ("NFFE") within the meaning of the Foreign Account Tax Compliance Act ("FATCA") may be subject to a generally nonrefundable 30% withholding tax on: (a) income and dividends paid by a Fund and (b) certain capital gain distributions and the gross proceeds arising from the sale of Fund shares paid by the Fund after December 31, 2018. FATCA withholding tax generally can be avoided: (a) by an FFI, subject to any applicable intergovernmental agreement or other exemption, if it either enters into a valid agreement with the IRS or otherwise complies with the specific requirements and provisions of an applicable intergovernmental agreement, in each case to, among other requirements, to collect and report required information about certain direct and indirect ownership of foreign financial accounts held by U.S. persons with the FFI and (b) by an NFFE, if it: (i) certifies that it has no substantial U.S. persons as owners or (ii) if it does have such owners, reports information relating to them. A Fund may disclose the information that it receives from its shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA. Withholding also may be required if a foreign entity that is a shareholder of a Fund fails to provide the Fund with appropriate certifications or other documentation concerning its status under FATCA.

Financial Highlights

The financial highlights table is intended to help you understand the Fund's financial performance for the period of the Fund's operations. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been derived from the financial statements audited by BBD, LLP whose report, along with the Fund's financial statements, are included in the Fund's November 30, 2017 annual report, which is available at no charge upon request.

The table below sets forth financial data for one share of beneficial interest outstanding throughout each year presented

	Class A				
	Year Ended November 30, 2017	Year Ended November 30, 2016	Year Ended November 30, 2015	Year Ended November 30, 2014	Year Ended November 30, 2013
Net Asset Value, Beginning of Year	\$ 13.84	\$ 13.05	\$ 13.18	\$ 13.27	\$ 10.36
From Operations:					
Net investment income (loss) (a)	(0.01)	(0.01) (d)	(0.02)	0.01	0.08
Net gain (loss) from investments (realized and unrealized)	0.10	0.95	(0.11)	0.61	2.97
Total from operations	0.09	0.94	(0.13)	0.62	3.05
Distributions to shareholders from:					
Net investment income	—	—	—	—	(0.14)
Net realized gains	(0.12)	(0.15)	—	(0.71)	—
Total distributions	(0.12)	(0.15)	—	(0.71)	(0.14)
Paid in capital from redemption fees (c)	0.00	0.00	0.00	0.00	0.00
Net Asset Value, End of Year	\$ 13.81	\$ 13.84	\$ 13.05	\$ 13.18	\$ 13.27
Total Return (b)	0.60%	7.35%	(0.99)%	4.97%	29.83%
Ratios/Supplemental Data					
Net assets, end of year (in 000's)	\$ 21,484	\$ 21,843	\$ 20,447	\$ 20,400	\$ 25,505
Ratio of expenses to average net assets, before reimbursement	1.81%	1.79%	1.77%	1.78%	1.99%
Ratio of expenses to average net assets, net of reimbursement	1.40%	1.40%	1.40%	1.40%	1.40%
Ratio of net investment income (loss) to average net assets	(0.05)%	(0.06)%	(0.15)%	0.06%	0.64%
Portfolio turnover rate	30%	9%	16%	19%	42%

- (a) Per share amounts are calculated using the average shares method, which more appropriately presents the per share data for the year.
- (b) Total returns are historical in nature and assume changes in share price, reinvestment of dividends and capital gains distributions, if any, and excludes sales charges. Had the Adviser not absorbed a portion of the Fund's expenses, total returns would have been lower.
- (c) Amount less than \$0.01 per share.
- (d) The amount of net investment loss per share does not accord with the amount reported in the Statement of Operations due to the timing of shareholder transactions.

The table below sets forth financial data for one share of beneficial interest outstanding throughout each year presented

	Class I				
	Year Ended November 30, 2017	Year Ended November 30, 2016	Year Ended November 30, 2015	Year Ended November 30, 2014	Year Ended November 30, 2013
Net Asset Value, Beginning of Year	\$ 13.97	\$ 13.13	\$ 13.24	\$ 13.31	\$ 10.38
From Operations:					
Net investment income (a)	0.02	0.02	0.01	0.04	0.12
Net gain (loss) from investments (realized and unrealized)	0.11	0.97	(0.11)	0.61	2.97
Total from operations	0.13	0.99	(0.10)	0.65	3.09
Distributions to shareholders from:					
Net investment income	(0.01)	—	(0.01)	(0.01)	(0.16)
Net realized gains	(0.12)	(0.15)	—	(0.71)	—
Total distributions	(0.13)	(0.15)	(0.01)	(0.72)	(0.16)
Paid in capital from redemption fees (c)	0.00	0.00	0.00	0.00	0.00
Net Asset Value, End of Year	\$ 13.97	\$ 13.97	\$ 13.13	\$ 13.24	\$ 13.31
Total Return (b)	0.87%	7.68%	(0.77)%	5.20%	30.18%
Ratios/Supplemental Data					
Net assets, end of year (in 000's) \$	18,430	\$ 24,852	\$ 23,969	\$ 24,030	\$ 11,733
Ratio of expenses to average net assets,					
before reimbursement	1.56%	1.54%	1.52%	1.53%	1.74%
net of reimbursement	1.15%	1.15%	1.15%	1.15%	1.15%
Ratio of net investment income to average net assets	0.17%	0.19%	0.10%	0.34%	1.00%
Portfolio turnover rate	30%	9%	16%	19%	42%

- (a) Per share amounts are calculated using the average shares method, which more appropriately presents the per share data for the year.
- (b) Total returns are historical in nature and assume changes in share price, reinvestment of dividends and capital gains distributions, if any. Had the Adviser not absorbed a portion of the Fund's expenses, total returns would have been lower.
- (c) Amount less than \$0.01 per share.

FACTS	WHAT DOES NORTHERN LIGHTS FUND TRUST II (“NLFT II”) DO WITH YOUR PERSONAL INFORMATION?	
Why?	Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing.
